PATRONS.

In bracing up for the fall and winter trade there are a few things that I would like to say. The first is: Many thanks for the noble way is which you helped me through mountains of difficulties and encouraged me by your patron.

—An adjourned meeting of the town council was held at the cesuncil chamber on Thursday night of last week. The session was not an extended one, and beyond locating a few lamps no business of much importance was transacted. A lamp is to be put up at the Baptist church, Cambridgest., one at the corner of King and Lindsay-ste, east ward, and one on Lindsay-st, at the railroad crossing. These are all needed and more are wanted badly.

—A large quantity of the timber to be used in re-building the lock at Lindsay has been deliv-ered and is placed on the vacant lot corner of Lindsay and Wellington-sta. The material is of excellent quality and should make a lock as substantial as it is possible to build of wood.
Mr. T. Walters is finishing up a trifle of work cleswhere, but will shortly get at the lock with a strong force. The steam dredge has been brought up and the derrick on it will be used in handling the material to be taken out and the new going in.

The potato rot seems to be very bad in some localities. We have heard of one farmer in this neighborhood who raised forty bushelv and left thirty-eight on the ground, utterly useless. Another individual, a resident of the south ward, placed ten bushels of Ireland's mainstay in his cellar as a safeguard against a possible rise in prices. The potatoes were to all appearance sound in body when placed in the cellar. A few weeks later on he had the disagreeable duty of removing them en bulk in a diseased condition and quite unfit for family use.

condition and quite unfit for family use.

The sporting editor of The Post hastens to apologize to Mr. John Hartwick for the accidental appearance of his name among a lot of skips of the local curling club which appeared in last week's issue. Mr. Hartwick is an estimable citizen, but he should not be stigmatized as a member of the club when he is not one, and it is hardly probable that either Mr. Hartwick or his horse are qualified to engage in the active exercise of "sosping her up" to the extent that the game demands.....Mr. John Matthie is the eighth skip appointed and will make a good general.

A good many complaints are being made that some of our storekeepers put too much stuff out on the sidewalke in front of their stores. Of course this sort of thing is clearly against the provisions of the by law in that case made and provided, but no one merchant wants to be the direct means of setting the authorities at work to prevent a neighbor from monopolizing the thoroughfare. We call the attention of Police Constables Bell and Clunan to this grave infraction of the municipal fules. It is an old-fashioned idea, this displaying of wares on the sidewalks, and may convey the idea to the casual visitor that Lindsay is behind in the march of improvement, which is not the fact. Take in your goods, gentlemen. The sidewalks were built for the people.

"You can bet your valuable bottom dollar," said a fown councillor to our reporter—overlooking the fact that reporters never have dollars to bet. In reply to an enquiry, "that I'll not be a candidate for re-election. I've had enough of it." Further enquiry developed the impression that several councillors will retire—that is, if they don't change their minds materially between now and Christmas. Mayor Wallace says he will step out of office at the close of the year, having had—he thinks—his full share of the dignities of the position. Rumor has not whispered the name of the coming candidate or candidates for the civic chair, but it issuid there are four first-class, three seconds had several thirds appirants, either or all of whom are quite willing to sacrifice themselves on the altar of public duty.

There was likely to be a very keen competition among the sewing machine fraternity at Sea. forth fair on October 1st, as the Singer, White, Raymond and Davis sewing machines were entered for the prize, but as usual the Singer was tered for the prize, but as usual the Singer was awarded first prize. Similarly at Goderich on September 29th the Singer took first prize in competition with the Wanzer and Raymond. This is but a repetition of former years, for the Singer has taken first prize over all competitors in every contest in Huron county during the last three years. These are significant facts and worthy the consideration of intending purchasers in Victoria county. Every machine was ers in Victoria county. Every machine was ranted. THE SINGER MFG. Co. Such rapid progress has been made with the work of building the new St. Paul's church that the contractors will have it finished by the time

agreed, early next month. During the last two weeks the tower has been finished and the scaffolding removed. The details have been carried out particularly well, and the tower is an ornament to the church and gives a fine appearance to the front of the building. The finishing touches are being given to the church outside and by the end of the week will be completed. Inside the work is being pushed with speed, principally in the direction of finishing up the plastering and wainscoting. The chancel is still encumbered with the scaffolding but a fair view can be had of the roof. It is beautiful, and is no doubt the handsomest roof inside any church in the Midland district. A furnace has been delivered and will be put in to heat the church. When finished we shall have pleasure in describing the church at some length. scaffolding removed. The details have been

Grand Jury Presentment. Following is the presentment of the jury made at the recent fall assizes:

May it please your lordship,-The grand jurors of our sovereign lady the queen assembled at the fall assizes for the counqueen assembled at the fall assizes for the county of Victoria beg to make their presentment.

We desire to congratulate your levidehip on your elevation to the bench and to extend to you a cordial welcome to the county of Victoria on this the occasion of your first official visit.

It is to us cause for deep regret that it has been our duty to consider such serious charges as these of murder and rape, and the alleged committal of those crimes is all the more to be deplored on account of the general good name for peace, order and respect for law which the county has deservedly maintained for many years.

for peace, order and respect for law which the county has deservedly maintained for many years.

The subject of temperance has been occupying the attention of the people of this county in a practical manner during the past year, the question of the adoption of the Canada temperance act having been agliated and the act finally adopted by a large majority in the menth of July last. It has been adopted also in all the adjoining counties on the west, south and east. On the first of May next a large compact district in this section of the province will be placed under the operation of the act. We are hopeful that one of the results will be the breaking up of the treating custom, and that greater sobriety will prevail in consequence. The senseless practice of treating is a fruitful source of evil and in our opinion has been the direct cause of numberless cases of inshriety, resulting in the loss of character, health and property. Notwithstanding the strenuous opposition offered to the passage of temperance legislation in parliament and its adoption by the people we believe and recognize with pleasure that the tendency of the times is rowsmas the total prohibition of the liquor traffic.

We have visited the gaof and found everything in and about the premises in excellent condition. There were five prisoners, two awaiting trial and three undergoing sentences for minor offences. All appeared to be satisfied with the treatment given them.

Every facility has been afforded us for the discharge of our duties, and we begte expussion our appreciation of the courteons attention and assistance accorded us by the sheriff, the crown coursel and other officers connected with the administration of justice.

All of which is respectfully submitted.

An all-day rain prevailed Tuesday and nece sitated postpenement of the combination stock-sale to next Monday, Oct. 19th, when it will sale to next Monday, Oct. 19th, when it will commence at one o'clock sharp. There was a fair attendance and a considerable number of stock on the ground, but the auctioneers considered it advisable to postpone. Had the day been as fine as the preceding few days the attendance would have been very large. The combination sale idea appears to take very well, but many want to see how the first one goes off before entering. It is quite likely that another sale may be held at a suitable date this season. . Among the late entries were twelve or fifteen horses and colts from Mr. J. D. Smith, Fenelen Falls. These animals in addition to the list advertised, will be put up for sale next Monday.

A practical illustration of the evils of whiskeydrinking was afforded school-children last Menday in a deplorable way, however. A little boy of twelve years, named Charlie Gneveckow, obtained 30 cents worth of whiskey from a dealer in town, and taking it with him to school drank on the way and gave some to a comrade named Willie Cameron, about ten years old. The liquor was vile stuff, and in a short time Gnevecksw was helplessly drunk. He fell in a ditch near the school and remained there some time. Cameron managed to get into the school and becoming ill was taken to the pump. A dash of cold water had ne beneficial effect, but the reverse, and in a short time the lad was seemingly paralyzed. The school was in a commotion; a doctor was sent for and he advised that the two boys be sent home to sober off, as they were nothing more than helplessly drunk. They were taken day in a deplorable way, however. A little boy

more than helplessly drunk. They were taken home, Gneveckow soon recovered, but Cameron for a day or two was in a somewhat critical condition. The affair will no doubt teach a lesson to all the boys, end to those directly concerned. We are told an action is to be brought by one of the parents against the dealer who sold the liquor, and the propriety of his action will be considered. Boys with a tendency to pranks of this kind require wholesome discipline, aside altogether from other questions involved.

- A recent invention called a "Technicon" has been at Loretto academy for the use of the girls and young ladies taking music lessons there. It is designed by a series of movements to develope and strengthen the muscles of the hand and wrist, and increase the flexibility of the fingers. Its use is considered by the best authorities to be very advantageous, and any one can see its merits at a glance. Regular practice at it by the pupils will have a good effect and is a pleasing and interesting exercise as well.

ASTRACHAN MANTLES

IN SACQUES AND NEWMARKETS

Are the best, most durable and comfortable garment a lady can provide herself with. They are appropriate for any and all occasions besides being the most economical and the only fur coat that rain will not seriously injure, and is entirely free from the attacks of moths. Notwithstanding the great number already sold in this locality the present indications are that the demand will be larger than ever this season and as a moderately good Astrachan Mantle will last a lady from 8 to 12 years ordinary wear, every intending purchaser should make it a point to buy early as it is then and only then you can get first choice, and first choice means the best and handsomest

The City Store in view of this large demand for first class reliable goods has taken great precaution to provide only the best all hand-made, every seam well taped and interlined with strong linen throughout, and none but the best blue backed skeins of genuine London dye used in the manufacture of these garments.

By constant care and a thorough knowledge we have gained a reputation for Astrachan Mantles that we cannot afford to jeopardise, and those who want a good reliable fur garment and the largest stock in the Midland district to choose from without the possibility of purchasing a bad one should come to the City Store without any more ado.

We have a most complete range of prices.
