CUSTOMERS' SUGGESTION CORNER

For Rural Telephone Service

One Customer Writes:
"Do something about children using the telephone as a plaything"

WE know it's not always easy to keep little ones from playing with the telephone, or their older brothers and sisters from spending too much time on the line. We can only remind you that, until rural facilities can be increased, it is important for everyone to keep their calls as brief as possible.

If you have growing children, you can be particularly helpful in preventing needless inconvenience and delays. We ask your co-operation.

Public Enemy No. 1

CANCER

● Cancer is exceeded only by heart disease as a cause of death. Because it frequently means long and cruel suffering, and is the disease we dread most, it most decidedly ranks as Public Enemy No. 1.

Yet cancer in its early stages usually causes no pain. That is why relatively few cancers get any treatment in their early stages when most of them can be cured by radium, x-ray or surgery.

Cancer of the lip may be mistaken for a cold sore that does not heal. The first sign of cancer of the throat may be hoarseness. Cancer of the stomach, in its early stages may be mistaken for indigestion.

To cut down the death rate from cancer in Ontario (5193 Ontario people died from this disease in 1943) funds are now being raised and a drive is being organized in this province to conquer cancer. Here are the objectives of this campaign:

1—*To organize and operate fully equipped cancer clinics at suitable centres where people may be examined, and, if necessary, treated according to the newest scientific methods.*

2—*To pay a portion of the cost of treatment of cancer for those needing financial help.*

3—*To pay travelling expenses to and from clinics if needed.*

4—*To conduct an energetic program of cancer research in Ontario.*

As a citizen of Ontario *you* are asked to contribute to this very worthy cause. Your donation may help put such measures into effect as will save the lives of some of your loved ones—even your own life. It may help to free the world forever from the dread scourge of cancer.

This appeal is for an objective of $2,000,000 to provide for a three-year program of cancer research, treatment and province-wide service.
