On Monday night a distressing accident took place resulting in the death of Mr. J. A. Wiliams, librarian at the mechanics' institute. Mr. Williams was about the fooms as usual that night and passed up and down the entrance thirway several times. About nine o'clock Dr. Dadirans and Mr. J. Kennedy who were leaving the reading foom were shocked to find at the foot of the stairs Mr. Williams lying lifeless. They made a hurried examination in hopes that he was only stunned, having evidently fallenheadforement down the stairway. About half as hour before they left these gentlemen heard a noise in the hall, but paid no attention to it, thinking it was made by the caretaker bringing up wood. It was probably made by the unfortunate mun in falling. A very severe wound appeared on the right temple, the thumb of the left hand was broken and marks of bruises appeared on the limbs. Death must have been almost instantaneous as the injuries were very severe. Deceased was sixty-five years of age and leaves a wife and large family of gaywar specificates. He was very much respected for his lines and obtains disposition and had been expected with the institute for many years. Mr. Williams was about the fooms as usual that

—A large representative meeting of the congregation of St. Andrew's church was held in the church room on Wednesday evening. The meeting was called for the consideration of a proposition relative to the building of a new church, and the large attendance of the members, both ladies and gentlemen, showed that a lively interest was taken in the question by the congregation. Sheriff McLennan was appointed chairman and a statement was submitted by congregation. Sheriff McLennan was appointed chairman, and a statement was submitted by the board of managers, the purport of which was that owing to the present church not affording sufficient accommodation a new church should be built. They had solicited subscriptions in order to accertain the feeling of the congregation with regard to the matter, and by sixteen persons the large amount of \$6.650 had been subscribed. Mr. McNeillie explained that although the Presbyterian population in the town had been gradually increasing, in 1874 two churches afforded accommodation for nearly 600 people, while at present there was only accommodation for about 350 people. The Rev. Dr. McTavish stated that the successful working of the church was much impeded by lack of accommodation. Opinions were then expressed McTavish stated that the successful working of the church was much impeded by lack of accommodation. Opinions were then expressed by members of the congregations, and all were in favor and anxious that a new church should be built. B was decided then that a church should be built in some central locality. Finance and building committees composed of the following gentlemen were then drafted. Finance committee: Sheriff McLeman, S. A. McMurtsy, D. Duncon, A. Robertson, Alex. Jackson, Win. Brown, J. McSweyn, T. Stewart and J. R. McNeillie. Building committee: W. Needler, R. ..... From the Review's report of the match we take the following comment and the score—"From the beginning until ten was scored Skip Dunsford's rink was leading that of Skip Flavelle, and those who played first, secend and vice with the former join in saying that it was owing to the tough ice, which set in at that oritical juncture, that gave their opponents the lead. Indeed, one of this rink got disgusted at attempting to send in eraws, and just took satisfaction in firing bullets, to the breaking up of the whole game. However, with rink number two all went charmingly, the visitors' score in that quarter having been trebled." The score is as follows: -On Monday two rinks of the Lindsay clab
