Rupture Expert Here

Seeley, Famous in This Specialty, Called to Owen Sound

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will personally be at the Paterson Hotel, Owen Sound, Friday only, Sep. 30. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but concontracts the opening in 10 days on the average case. Being a vast advancement over all former methods — exemplifying instantaneous effects immediately appreciable and withstanding any strain or position. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatment or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D.C., for inspection. All charity cases without charge, or if any interested call, he will be glad to show same without charge or fit them if desired. Business demands prevents stopping at any other place in this section

P. S.—Every statement in this notice has been verified before the Federal and State Courts—F. H. Seeley.

Meaford band was engaged at the Barrie fair.

About 15,000 people attended Owen Sound fair.

The Chatauqua at Meaford closed last week and it is expected the guarantors will be behind $100.

Reuben Privat of Chatsworth tripped over a rope that his sister had tied across a gate a few inches above the ground and broke his right arm.

George Battle, pool room proprietor at Tara, made an attempt to commit suicide recently. He shot himself in the head but only suffered a sealp wound.

Several Arthur citizens are willing to subscribe to a fund to buy the cemetery and turn it over to the corporation to be managed by a commission.

One year in the reformatory was the sentence imposed on Harry Hazelton of Owen Sound for stealing. His brother, George, who is only 15 years of age, was let out on suspended sentence.

The Tournament

CEYLON WON $25 PRIZE

Although the day was not very promising, a fair sized crowd was out to take in the baseball tournament held in the agricultural park here on Thursday afternoon last. Dundalk, Kimberley, Ceylon and Flesherton were the teams to take part and a fair exhibition of ball was staged in the games. On the draw Dundalk played with Flesherton and the former were successful in winning the game easily by a 7 to 3 score. Russell and Armstrong was the battery for Dundalk, while Buchanan and Beard were for Flesherton. The former pair have changed around recently and has improved the team considerably. "Derby" had six strike-outs.

In the second game Ceylon won from Kimberley in a hotly contested game 5 to 2. Sam Pedler made a home run, slamming the ball over the fence in the r. field and let in two runs ahead of him Stan Lawrence pitched for Kimberley and Archie Muir for Ceylon. H Blackwell and G. Armstrong played with Ceylon in the absence of some of their players. These first two games were both five inning fixtures.

In the final game between Ceylon and Dundalk, the former were victorious 9-8. Ceylon began with two runs in the first and three in the third, Dundalk bringing across one in the 2nd and two in the 3rd. Ceylon were blanked in the 3rd and 4th, but got four runs in the 5th. Buchanan was pitching the first few innings when C. Muir came into the box and with being hit hard and errors by team mates let five runs come in for Dundalk's credit. An unpleasant incident occurred in Dundalk's half of the sixth inning that was to be regretted by the sports committee, as it was expected the day would be free from unmanly sport. As Dundalk refused to go onto the field the umpire called the game. Dow, McTavish and Boyd of Flesherton played with Ceylon.

The committee wish to thank all those who took part and to the Dundalk boys, who postponed a tournament they had scheduled, to help out in the one here. They also wish to thank Umpire Toos-Maile of Meaford, who donated his fee of $5, and $1 of expenses. The proceeds were not up to what was expected, but the day was fairly successful.

Drowned While Fishing

An empty fishing boat, with the engine still running, was picked up on Saturday afternoon between 4 and 5 o'clock near Cape Rich by Capt. Hopps. The craft belonged to Herbert Rumley, who was trolling during that day, and in some unaccountable way had fallen out and was drowned. When sighted by Capt. Hopps the boat was running in a circle about a mile and a half out from Black Point, this side of Cape Rich, and he immediately concluded that something was amiss and rendered assistance. After considerable manoeuvering he was successful in stopping the boat, in which were some six fish, with the trolling lines out and a six or seven pounder on one of them. The boat was towed in.

Mr. Rumley was an excellent swimmer and it was hoped that he had reached the shore and would turn up later. This theory was abandoned on Sunday and all the boat owners were out dragging the bay in the hope that his body might be recovered. The water is very deep where the boat was found and it is hard to determine where he had fallen out and how far the boat had travelled since the accident. Mr. Rumley was 44 years of age. He was not married and lived with and supported an aged mother—Meaford Express.

On October 1st Geo. Menzies will have completed 21 years as Clerk of Owen Sound Police Court. Many hundred summonses subpoenas and other court documents have gone through his hands in that time. He is also a magistrate for Grey County.

Fred Heimbecker, Sr., of Hanover, sent a hive of common bees to his son, Norman, in Winnipeg, in May last. A few weeks ago Norman extracted the honey, realizing 300 lbs. in 28 pound sections.

It is rumored that Sir Adam Beck has purchased a large farm on Dundas street in Trafalgrr township between Milton and Oakville, where he will keep his hunting horses, and that he has also bought a beautiful summer residence on the lake shore east of Oakville.

Came Astray

Two year old heifer came to my premises about August 1st. Owner can have same by proving property and paying expenses. —W. PHILLIPS,
Lot 1, Con. 6, Artemesia

Came Astray

Came to the premises of the undersigned, lot 201, Con. 3, Proton, about August 28, two calves. The owner is requested to prove property, pay expenses and take the same away.
—N. McCANNEL, Proton Station P.O.

How to Restore Damaged Pastures.

Andrew Boss, veteran farm manager with the Minnesota Experiment Station, says such pastures can be saved to some extent by proper care. Where the acreage of pasture is sufficient and with a little to spare, many of the bare or thinner spots can be top dressed with good barnyard manure to advantage. The top dressing will protect the roots somewhat, and in the course of a month or two a decided improvement in quantity and quality of grass will be noted.

"It is good practice," says Mr. Boss, "to divide the pasture into two fields, if possible, and pasture alternate weeks, or for alternate longer periods, depending on the quantity of grass and the condition it is in. A part of the pasture should be allowed to make good growth and be held in reserve until the hot weather of July and August comes on. During the fly season it is difficult enough to keep stock in good condition even when they are on good pasture, and no pains should be spared to have at least one or two good pasture fields for this season."

Strawberry runners should be spaced as evenly as possible to secure an even row that will give the most fruit.

Methods of Keeping Cow Records.

Four things are necessary for keeping cow records:

1. A monthly milk sheet, ruled so that there shall be a column for recording the weight of the morning and evening milking of each cow for each day of the month, though some use a sheet ruled for three days only, and estimate the weight of milk given for the month from these three days, which may be consecutive or on the 1st, 10th and 20th of the month, making ten day periods between.

2. A milk scale, preferably one having a dial-face and two hands, one of which shows the net weight of milk in the pail, when properly set. This scale costs about five dollars.

3. A four to eight-bottle Babcock test, where it is desired to know what each cow's milk tests in fat. This will cost from eight to twelve dollars complete.

4. The fourth and most important requirement is, "The-will-to-do." Without this, milk sheets, scales, testers, etc., are valueless. By having scale, sheet, pencil, sample bottles properly labelled, etc., all conveniently arranged, it takes but little time to keep a record of each milking cow in the herd.

We would add a fifth need, which is, some form of permanent record book for monthly totals and tests, as milk sheets, and notes or records of testing, are likely to be lost and not available for reference. But if these are recorded once a month in a permanent form, they will prove a source of help in breeding, feeding and weeding dairy cows.—H. H. Dean, O. A. College, Guelph.

WE SELL GILSON "Goes Like Sixty" FARM EQUIPMENT

BACKED BY SIXTY YEARS' EXPERIENCE! DOMINANT IN QUALITY AND SERVICE!

Sixty years of leadership—of giving good value, heaping satisfaction and real service! That's why the Gilson name wins respect and confidence from coast to coast. That's why we are proud to sell this dependable farm equipment.

THE GILSON ENGINE

The famous Gilson "Goes Like Sixty" Engine—any size for any purpose—can be purchased on the easy payment plan. Let it pay for itself. Its economy and dependability have made it the biggest selling engine in Canada. Let us demonstrate on your farm.

"THE WONDERFUL GILSON"

"The Wonderful Gilson" stands supreme. More Gilson Silo Fillers were sold in Canada last year than any other make. It is guaranteed to be the lightest running blower-cutter made.

Be independent—get a Gilson Silo Filler and fill your own silo—with your own engine, 4 h.p. or larger—at the proper time, when your corn has the greatest feeding value.

HYLO SYLO

The Hylo Sylo insures sweet, fresh, succulent ensilage down to the last forkful. It is built to last indefinitely. Exclusive patented features of design and construction explain why the Hylo is chosen by the discriminating farmer. Pays for itself in the first season. Then year after year, pays 100 per cent. profit on your investment. Can you beat it?

THE GILSON SPREADER

Manure is the best fertilizer. You have it. Use it! The best Manure Spreader made is the Gilson. Why? It has a wide spread. It is low down. It has light draft. It will take a real load. It is free from clutches, gears and all complicated parts.

Call and see our nearest dealer, name below. He will save and make you money on the equipment illustrated and on Gilson Threshers, Dixie-Ace Tractors, Wood Saws, Grinders, Pump Jacks, Belting, etc. Write for Catalog.

CHEVROLET

New Prices Effective September 5, 1921

FOUR-NINETY MODELS

	NEW PRICE	OLD PRICE
Touring -	$830.00	$945.00
Special Touring	$940.00	

All "490" models for 1922 have the following changes, compared to previous models:—

New rear axle with spiral bevelled pinion and gear.
Heavier bearings and new housings to correspond.
Separate emergency brake lever, Timken bearings in the front wheels.
Heavier king bolts in bronze bushings.
New style plain arms tapered into the steering knuckles, and spring hood fastener.

With these improvements the Chevrolet model "490" represents by far the best in its price class on the Canadian market today.

The Special 490 Touring Features

are as follows—

Body painted special green with gold stripes, special top with whipcord lining, gypsy curtains, new oblong rear curtain light in aluminum frame, doors hinged in front, storm curtains open with all doors, seats lowered 1½ inches, special trimming, side arm of seats lowered flush with the body panels, new and much easier riding springs, gasoline tank on rear, vacuum tank under hood, new robe rail, nickle plated radiator and nickle plated bumper, cord tires all round.

All prices F.O.B. Flesherton Sales Tax Paid.

The new price of the "490" Touring Car represents a reduction of three hundred and fifty-five dollars since September, 1920.
