Successful Meetings Board of Agriculture

The Board of Agriculture meetings throughout the riding, came to an end with a meeting at Hopeville on Friday evening of last week, and were fairly successful. The speakers were quite as good as any that have preceded them.

At the afternoon meeting here there were not many farmers present, but at the evening meeting there was a good turnout of citizens and farmers Miss Chapman was declared by the women of the W. I. to be the best speaker they have ever had address them. At the night meeting her address was along lines of social work as a community undertaking and was largely taken up with illustrations of what had been done in other places. Miss Chapman is a whirlwind to talk and her ideas are certainly worth listening to. She paid a high tribute to the village on its development of the Memorial Park and thought it would be a valuable asset as a community uplift.

Mr. Cooper, of the Agricultural Dept., made a plea for more work. He wanted the people to make use of him. There were only two schools in the Township of Artemesia that had gone in for school fairs. He put on a set of moving pictures showing market gardening in the Humber Valley, and how to dress a fowl for roasting. These pictures were very small and valueless as a demonstration. The audience did not find them instructive. Mr. Cooper advocated Farmers' Clubs buying these machines at $250, for their own use but we fancy few clubs will spend so much money for a toy of this nature.

Mr. Broad of Toronto explained the working of the Government's scheme for loaning money to farmers. This, also, was received with little enthusiasm. As one farmer said to The Advance, "we hav too much of that sort of thing now."

Mr. Fallis, the Farmer speaker, gave a splendid talk on how to make the home on the farm interesting for young people. His address was exceedingly interesting and instructive.

At the Wednesday evening meeting here Mr. Geo. Mitchell occupied the chair. Music was supplied by village talent.

We saw in a recent issue of your paper that Governor Miller of New York stated among other assertions that prohibition led people to disrespect the law. We would like Governor Miller to please point out to us where the liquor ever made a man respect the law? How much respect has a drunken man, or one who wants to get drunk, for law, himself or his family? We consider that a pretty weak barrier to hide behind.

Death entered our village on Monday, when Mrs John Gilchrist passed away about 12 o'clock at her residence here, after living here about 49 years She had been feeling splendid. About 5 a m. she called her son, who arose and came downstairs, when she stated that she did not feel well, and he quickly made a warm drink for her. She gradually grew weaker. Medical aid was procured, but all to no avail, as she was completely worn out, quietly sleeping away. She was born in Ireland in the year 1831.
