Mr. and Mrs. Howard McGee were Sunday visitors with Mrs. R. Genoe, near Markdale.

A few in this vicinity are making maple syrup.

Little Miss Morrison visited a few days with her cousin, Mrs. Allen, near Berkeley.

CREAM

At all times — the foremost thought in our minds is to give our customers the best possible deal. Whether the cream is delivered by yourself or sent in by truck, you can be assured you will receive square treatment.

We are most anxious that you receive the best possible grade for your eggs, so that you will receive more money for them. In order to obtain a higher grade, your co-operation is necessary.

Eggs

1. **Eggs must be spotlessly clean.**
2. **Eggs must be kept cool — around 40 de- F. (possibly keep in basement).**
3. **Particular care must be given to the feed of laying hens. Too many roots causes dark yolks, hence B Grade.**
4. **Market eggs regularly — twice a week if possible.**

Most of the eggs are now being exported. In order to hold this market we MUST supply good eggs. Try the above suggestions for "more egg money."

Creamery closed Saturday nights until further notice.

HANDS AT WORK...

LEARNING TO WELD

ONTARIO'S **future prosperity depends directly on a sufficient volume of production to satisfy domestic needs and assure for Canada a pre-eminent place in the markets of the world. Take the metal trades for example... never before has the demand, both here and abroad, for the products of Ontario's metal industries been so great. Production must be increased... but to meet new production goals, skilled hands are needed. For them great opportunities lie ahead. Higher wages, job security, better working conditions are within easier reach of those who have mastered a skilled occupation.**

Today, through the plan sponsored by the Department of Veterans' Affairs and other agencies, hundreds of young workers are being trained to meet the needs of the metal trades. Graduates of these rehabilitation courses are now ready to take their places in Ontario's industry. Available to you are veterans, well started on the road to skilled metal working trades such as tool making, blacksmithing, machine operation, iron working, pattern making, welding and forging. Seek them out with confidence. They are your future craftsmen.

WELDING

The Welding Course gives the student a good knowledge and practical experience of both oxy-acetylene and electric arc welding. Available at Windsor, Hamilton, Toronto and Brockville, this course includes the study of different metals and alloys. The graduate, with further practice, should become a good all round welder.

Vocational training courses are offered at training centres located in the following cities and towns in Ontario: **Toronto, London, Hamilton, Kitchener, Windsor, Ft. William, Brockville, Kingston, North Bay, Ottawa, Guelph, Kemptville, Haileybury.**
