Word has been received here that Mr Harold Thompson, who removed last spring to Chesley, is in a critical state with pneumonia and other complications.

Mrs. Duncan McMillan

Mrs. Duncan McMillan died at the home of her daughter, Mrs. Kate Paton, Flesherton, on the 4 h inst, at the age of 84 years. The deceased lady was born in the island of Islay, Scotland, emigrating to Canada with her parents at the age of eighteen. They first located near Acton and later moved to Proton township, where she married the late Duncan McMillan, and where she lived until seven years ago. Since then she has lived in Flesherton with her daughter, Mrs. Katherine Paton. She is survived by six children—John S. of Ceylon, Mrs. K. Paton of Flesherton, Miss McMillan of Fort William, Neil on the old homestead at Swinton Park, and Mrs. Wm. Haw and Mrs. R. J. Wilson, also of Swinton Park.

The funeral took place to Swinton Park Friday afternoon.

Following were the pallbearers: Clark McMillan, Duncan McMillan, John S. McMillan, Neil McMillan, James Wilson and Wm. Haw.

Floral offerings were received from the Ladies' Aid of the Presbyterian church, Dr. and Mrs. Murray, the Teachers' Association of Fort William, and other friends.

Dundalk

As the Herald goes to press we learn of the death on Wednesday from pneumonia of John Allan, an old time and respected resident of the Backline, Proton, latterly residing in Dundalk. The deceased was 67 years old.

Mr. I. W. McArdle, an old Proton Township boy, whose boyhood days were spent at Hopeville, has recently been elected as Grand Master of the Provincial Orange Lodge of Alberta. Mr. McArdle is now a lawyer practicing at Calgary and is one of the city's most prominent citizens. I W's. old friends in this locality will be pleased to hear of the honor which has been conferred on him by his brethren in the Western Province,—Herald.

The village of Ayton may, within a few weeks, be using electric power generated at the plant of the Wenger Milling Co.

VANDELEUR

Miss Della McGee is home again after spending the winter with friends in Toronto.

Quite a number from here are attending the short course in home nursing, which is being given in the Department of Agriculture at Markdale under the auspices of the Vandeleur W I.

Elmer Warling had the misfortune to cut his foot badly with an axe one day recently.

Dick Sewel, who has been very ill, is able to be around again.

Almost the whole community gathered in the hall oae evening recently and spent a few pleasant hours together. The program consisted of contests and and community singing, after which taffy was served. A collection was taken to help provide hot lunches for the school children.

If this beautiful weather continues, it will likely wind up the maple syrup season, which has been fairly successful, and usher in the season.

Drury At Chicago

Chicago, April 10—The Hon. E. C. Drury, Premier of Ontario, was one of chief speakers at the Canada-U. S. celebration connected with one hundred years of peace. Mr. Drury laid emphasis on the education of a type which would develop fair-minded, intelligent citizenship.

Premier Drury praised former President Wilson for "his ideal which may yet work out," and President Harding for the practical plan he declared had worked He also declared it impossible to make rules for the conduct of opposing armies, which would be respected in actual warfare.

"If we are to continue the peace which has run for more than a hundred years, we must educate our citizens to be as fair minded in the future as they have been in the past," he said "We must teach them the greater patriotism that will make them jealous not only for their own freedom, but for the freedom of their neighbors. There is another thing we must do. We must drive out the man who uses international hatreds to build up his own political fortunes. We must plan for peace."

Home Garden Contest

The Department of Agriculture's endeavor to secure entries in the Home Garden Contest has exceeded our greatest expectations. Altogether we have received 155 applications. These came to hand as follows—Artemesia 4, Bentinck 16, Collingwood 3, Derby 15, Glenelg 1, Holland 12, Keppel 15, Normanby 10, Osprey 2, Proton 22, Euphrasia 18, Egremont 11, Sarawak 10. Sullivan 2, Sydenham 12, St. Vincent 2.

Owing to the fact that 50 are allowed each county we will have to disappoint a large number of boys and girls. We requested twice the number of packages but this was refused. We have decided to give the packages to the following townships: Keppel, Bentinck and Euphrasia. These sections will be excluded next year.

The Department of Agriculture will return the money to the various teachers in the course of a few days. We regret that it is necessary to disappoint but under conditions we cannot do otherwise. We trust this may be sufficent explanation to all concerned.

SCHOOL FAIRS

We have up to date 150 rural schools engaged in the school fair work. There are 224 rural schools in Grey. A large number are therefore not interested but that number is decreasing quickly.

We are receiving new applications yet. It is not too late for teachers to send in orders. We are expecting at least 70.

We have sent out some material. The rest will go as soon as more seeds arrive. Join now and we will do our best to make the fairs in Grey County the best yet. If in doubt as to the success of the school fair movement compare the number engaged with those not engaged. The Department of Agriculture welcomes you.

SHEEP WORK IN 1922

Quite recently the Department of Agriculture, Markdale, received a letter from Mr. Jas. A. Telfer, sheep promoter of Western Ontario, Paris, Ont., re sheep extension work for 1922. He says in part as follows: "Beginning with the week of April 17th, we are prepared to furnish you with two field men, Mr. Howard and Mr. McConnell, These field men are to work under your direction and to carry on demonstrations in docking, castrating and shearing until the end of May. During the month of May we will also have a third man whom I should be glad to have assist the sheep raisers in certain communities in the placing of a permanent community dipping plant in three or four districts. This plant to be made of concrete with the assistance of the producers of that community in which it is placed. You will notice that by such action we will be making permanent our former work in this district.

"During the month of June it is proposed that we assist the Sheep Breeders in the districts in which these permanent tanks have been placed with the dipping of their sheep. All this work will be conducted as preliminary work leading up to a special sheep and fair sale day, or days, feeling as I do that such an effort will cover at least two days."

We are doing our utmost to get farmers interested. If any desire help it will be given free of charge. We want to make this year a bumper year in sheep work in Grey County. Farmers, we ask your co-operation.

The glory of Camp Borden is all but faded. Its palmy days were brief, but its usefulness was perpetuated by the aviation training camp which was established there. The aviation staff has been cut down from time to time until now a further reduction in strength is to be made to one hundred men all told. Such a staff will probably be able to train all the aviators Canada will need for forestry patrolling and fall fair stunts in the next few years—Alliston Herald
