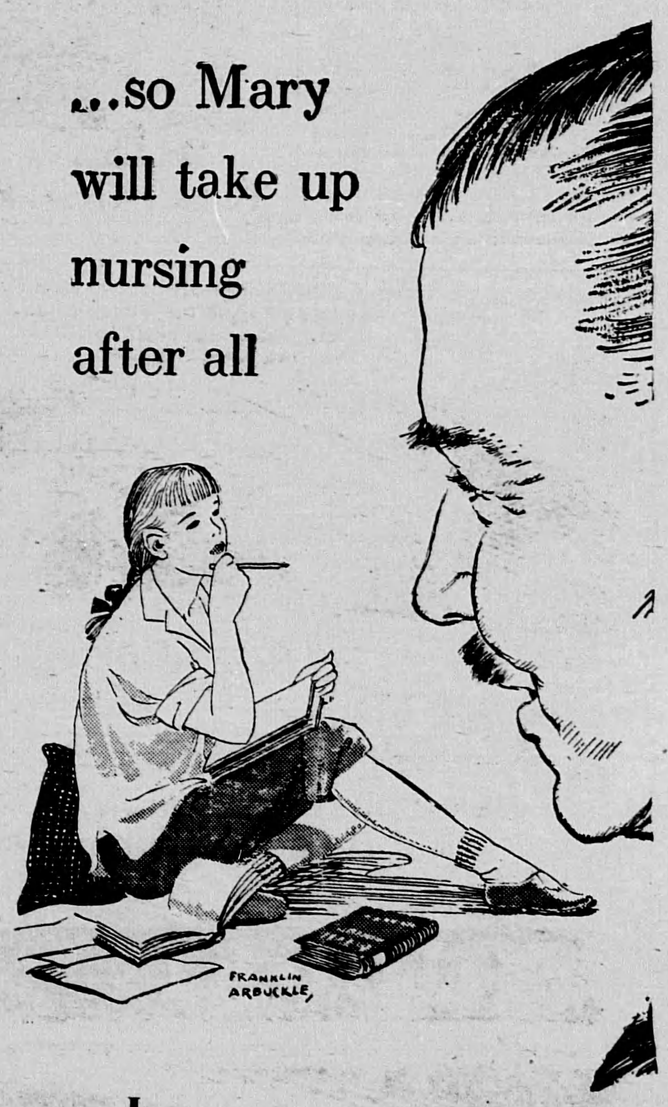
...so Mary will take up nursing after all



It looked for a while as if a temporary financial problem in the family might keep Mary from finishing "High". If she had to quit school to help the family income *that* would have meant good-bye to her hopes of becoming a nurse.

But here she is, starting her final year. Did her Dad suddenly come into some money?

No . . . and yes. He consulted his bank manager, who told him how the bank, through personal loans, often helped people to meet just such situations. Arrangements were made, and now Mary will take up nursing after all.

In 1946 Canada's banks made *half a million* personal loans to Canadian men and women.
