200 Hogs From Toronto Butchered At Dundalk

"It's an ill wind that blows nobody good." When the United Farmers Co-opeartive in Toronto bought livestock which could not be killed and processed in Toronto because of the dominion-wide strike in the packing plants, the local abattoir stepped into the picture. The management of the Toronto Sausage & Pork Packers bought three carloads (200 hogs) from the Co-operative and had them shipped to Dundalk by C.P.R. Ray Jackson transpored them from the stock yards to the killing plant at the highway corner.

"We hope to have the 200 hogs all butchered by Thursday," "Ding" Gordon manager of the Dundalk plant, informed The Herald Wednesday evening. About 100 hogs were butchered on Wednesday, with a shift of five men on the jbo. A shift was also put on, Wednesday night.

It is a co-incidence that some of the hogs were originally from the Dundalk district and were shipped back here. "It's a good argument for selling at home in the first place," Mr. Gordon declared.—Dundalk Herald.

First T.C.A. Reservation Made By Car Phone

Don't believe the old adage of there not being "anything new under the sun." Dave Greenberg, a Montreal buisinessman, recently disproved that. He was driving in Montreal one evening when he suddenly decided to go to Toronto to attend to some business. It just happened that Greenberg had a phone in his car. Enroute to the airport, he called TCA reservations and requested a seat on the Toronto plane. A short time later his car phone rang. It was the confirmation of his reservation and Mr. Greenberg happily continued on his way to the airprt. His call from his auto was the first such reservation made by Trans-Canada Air Lines.

THE MIXING BOWL

by Anne Allan, Hydro Home Economist

Hello Homemakers! Many of us are resuming the job of packing lunch boxes now that cooler weather is here and school routine has been re-established. When the lunch box comes down off the shelf, it is also time to take stock of suitable menus. The well-planned mid-day meal for a growing child cannot be over emphasized — like-wise the one for the office worker. Some schools and factories serve soups and beverages at moderate prices, thus eliminating the need for carrying a thermos. If this service is not available or is found to be costly, it is advisable to make use of the standard lunch box containing a thermos and fill it every day with a wholesome beverage or soup.

SANDWICH IDEAS

1. Chopped meat and gravy: Put leftover cooked meat through a food chopper and moisten with thick gravy.
2. Scrambled eggs with cottage cheese or tomato. Add 2 tbsps. cottage cheese or tomato (chopped) to 2 beaten eggs. Scramble as usual, and cool before putting in sandwich.
3. Cottage cheese: Mix equal amounts of cottage cheese and chopped spinach with a little onion.
4. Chopped prunes or peaches mixed with cream cheese and moistened with skim milk.
5. Chopped bacon and mashed cooked kidney beans — flavoured with a little onion.
6. Peanut butter spreads: (1) Add half quanity of diced apples. (2) Add ½ mashed banana. (3) Mix with shredded carrot.

CARROT AND BARLEY SOUP

¼ cup barley, 5 cups cold water, 1 cup diced carrots, 2 tbsps. chopped nion, salt and pepper, 3½ cups milk.

Soak barley in water overnight. Cook in same water for 45 mins. or until tender. Add carrots, onion and seasoning about 30 mins. before end of cooking time. Stir frequently, add more water if necessary. Add milk and when hot put in thermos. This makes three servings.

THE SUGGESTION BOX

Mrs. J. T. says: Taking spots off a crepe dress can be done easily if cleaner is used immediately. I found that a litte at a time did not leave a ring, or do it in the open and so the liquid evaporates quickely.

Mrs. N. S. says: You can sharpen scissors by cutting through fine sandpaper several times.

Protest over trains whistling too loud in the city. Probadly the engineers are a bit jealous of those who are cosily tucked in bed.
