They arrived just on the nick of time, secured good seats just on the nick of time, secured good seats and erjoyed the excellent program immensely. After the close of the entertainment the sleigh was again reloaded with its living freight when Dan heaved anchor and Frank and Govie pulled away. All returned home expressing their entire satisfaction with the evening's enjoyment.... If our talked of social proves a reality we would say to the Zionites "go thou and do likewise."

SOMERVILLE. ACCIDENT.—On Friday, February 24th.

He and a younger brother were engaged making ties, and were score-backing on either side of the timber, meeting in the centre with their backs to each other, when John happened to throw his leg backward just in time to receive an overhand blow from the axe used by his brother, who intended to split off a short siab. Fortunately for the young man, he had on two or three pairs of trovers.

Dr. Wilson was immediately sent for, and, after considerable trouble in stanching the profuse bleeding, dressed the wound, which was about three inches long and one and a half inches deep. We are glad to hear that the patient is so far doing well, although very weak from the great loss of blood.—[Gazette. he had on two or three pairs of trousers

An IMPORTANT PURCHASE.—Last week Messra. J. T. Porter & Ce., of the Original Bankrupt Store, Orillia, made a very important purchase in the Tea line, consisting of about seventy chesta. The deceased was the wife of late Bernard Gillice and mother of Mr. Patrick Gillice, a most highly respected citizen of King's Wharf. She was fortified in her last illness by the holy sacrament and her death was that which was to be expected from one whe had been all her life a fervent Christian. Deceased was born in the county of Limerick, Ireland, and had attained the advanced age of 78 years. She was one of the early settlers in Emily, having come here with her husband about forty years ago, when Emily was a having come here with her hushand about forty years ago, when Emily was a wilderness. FIRE AND HRAVY LOSS .- On Sunday morning between 3 and 4 o'clock, our morning between 3 and 4 o'clock, our villagers were aroused from their peaceful slumber by the aiarm of fire. It was soon observed that the tub plaining factory formerly Mr. Garnett's, but lately purchased by Mr. F. Galbraith, was in flames. The fire was so far advanced before discovered that nothing could be saved. The wind was blowing a rapid gale. It was thought at one time that the whole street on that side would fall a prey to the flamer, but having good and willing men to work the fire engine the devouring monster was kept in command. The loss to Mr. Galbraith will be heavy, as he had the factory renovated and was prepared to cut lumber and shingles, besides running the ordinary business. Loss, \$3 000, insured for \$1,000. We deeply sympathizs with Frank, as he is a hard working and honest man.

Shropshire Shreep for Iowa.—John Dix & Sons shipped from here this week ten pure-bred Shropshire sheep to Robert Miller, Pickering, to be trans-shipped from there to W. C. Nichols, Cresco, Iowa. These sheep are of imported stock and prize winners at Lindsay and Oakwood fairs, one of them being a shearling ram bred by John Campbell, jr., Woodville. We learn that Mr. Nicols is an extensive farmer and stock-dealer in Iowa and wanted to get a carload of this breed of sheep but could not succeed in finding them. We want more such men as these from Uncle Sam's domains to exchange their cash for our productions.

A well selected program consisting of readings, recitations and vocal music was rendered. The Blackstock Methodist choir was present and rendered several choice selections. The most pleasing event of the evening was the singing of the five-year-old daughter of Mr. Beacock of Blackstock. She kept excellent time to the organ. We predict a bright future for her. Proceeds of the social, \$22 50, in aid of the Methodist church.

On Thursday afternoon of this week a very pleasant and interesting event took place at the residence of Mr. Geo. Matthews of this town, Bessie Matthews, to Mr. J. P. Ryley of the firm Bessie Matthews, to Mr. J. P. Ryley of the firm of Ingle & Co. The bride was handsomely attired in a Beige satin covered with cream lace. Her sister Miss Fannie Matthews and Miss Ryl y, sister of the groom acted as bridesmaid; and Mr. A. Ryley of Toronto and Mr. W. E. Matthews of Lindsay supported the groom A large number of guests, relatives of the bride and a few personal friends were present to witness the ceremony. Rev. Mr. Anderson officiated. It is needless to say anything of the presents but that they were both numerous and costly. The workmen of Ingle & Co's, factory made Mr. Ryley a present of a handsome hanging hall lamp and a silver cup. The happy couple left by 6.10 train on a trip west.

-The absorption of the Northern railway by the Grand Trunk will not militate against but rather enhance the importance of the Midland that the Grand Trunk are rebuilding in a most substantial manner and improving and increasing the facilities upon the old Grand Junction tracks. This has been undertaken in consequence of the amalgamation with the Northern, the effect of which will be that a great deal of timber which has been heretofore rafted at Hamilton, Toronto and other lake ports, will be brought to Belleville over the Midland, via Lindany, for rafting, as by making up the rafts at Belleville the dangers of the lake are avoided and expense is saved, as the work does not need to be as thoroughly done on rafts which are run down the land-locked waters of the bay as are these which have to withstand the heavy seas of the lake. The through passenger traffle from Montreal to the Sault via the Grand Trunk lines will go via Lindsay.

Messrs. J. R. McNeillie, J. D. Flavelle, T.
Stewart, T. Walters, S. Corneil, John Kennedy,
A. O'Leary, John Dobson and S. A. McMurtry
The principal business of the evening was
understood to be the repert of the building committee re the proposed collegiate institute. In
the absence of the chairman Mr. A. Hudspeth,
Mr. A. O'Leary was asked to ascend the ros
trum. The secretary, Mr. Spier, read the minutes of last resular and adjourned meetings,
which were approved. A communication was
read from Mr. Jos. Wilson, bell-ringer, asking
that his salary be increased to 20 per year,
which was afterwards acceded to. A report
was read from Mr. J. C. Harstone, high school
principal, stating that the number of pupils on
the roll for February was 203; average attendance for January, 17!; for February, 182; also
asking for certain apparatus for the proper
study of chemistry. Referred to managing
committee with power to act. Headmaster W.
J. Hallett of the public schools in a tabulated
report of some length, gave the attendance as
follows: boys, 376, girls, 332; total, 708; average
attendance, 555. The finance committees report recommending payment of a number of
accounts. was read by Mr. J. R. McNeillie and follows: boys. 376, girls, 332; total, 708; average attendance, 555. The finance committees report recommending payment of a number of accounts, was read by Mr. J. R. McNellile and adopted; also the report of the managing committee, read by Mr. John Dobeon, recommending that the caretakers be re-engaged at same salaries as last year. This drew a demurrer from Mr. Corneil, who stated that one of the schools had not been properly warmed during the cold weather, owing to the feebleness of the earetaker; and the result was loss of time and much danger to the children, and said some arrangement should be made to remedy this state of affairs. It was decided that another person should be given the work of lighting the fires in the school mentioned, and the report was adopted. The report of the building committee was then read by Mr. Mc. Neillie. It was ahort and very much to the point, stating that from the tenders sent in for the whole work, and also separately by the different trades it was plain that the collegiate institute building weuld coet far in excess of the amount at the disposal of the board. Nineteen tenders had been received and the smallest the amount at the disposal of the board. Nineteen tenders had been received and the smallest
aggregate tender amounted to over \$25,600;
one for the whole work by Mr. McWilliams
being \$27,290. The amounts were read over
and the opinion seemed to be held by
seeme members of the board that considerable paring might be done—in fact enough,
with a slight change in the plans, to bring the
cost within the amount of the appropriation,
and on motion of Mr. Stewart, seconded by Mr.
Flavelle, the building committee was instructed
to find what saving might be made in the present plans or specifications, or both, with a view
to bringing the cost down to the sum of \$20,000,
and report at special meeting of the board. Subjoined is a statement of the aggregate cost
from the lowest and highest tenders:—
