THE FARM ACCOUNT BOOK AND INCOME TAX GUIDE SAVES FARMERS TIME, TROUBLE AND MONEY

SAVES YOU TIME—You will find that a few minutes a week keeps your Farm Account Book up-to-date. The first 15 pages of your new Farm Account Book tell a straight story about what is required from farmers. Your problems are dealt with in question and answer form and an index refers you quickly to the section you want. The pages and columns for accounts are numbered to correspond with the items on the Income Tax Return form itself. You can make an accurate record of all farm dealings as you go along.

If You Haven't Received Your Copy, Get It Now—FREE AT YOUR POST OFFICE

SAVES MONEY BY SHOWING YOU HOW—Every farmer legally is entitled to deductions for a wide variety of expenses. Your Farm Account Book has 12 pages devoted to columns for these. You are reminded of items which otherwise you might forget. Depreciation, a big factor, is covered on 75 named articles in common farm use.

You are shown how to establish claims for a Basic Herd and make a Three-Year-Average of your returns. This latter gives you the advantage of the lowest possible tax and it may be dated back to 1946. These are direct money-saving advantages entirely to your benefit.

THE THREE YEAR AVERAGE

You can't lose if you take advantage of this. Two things are necessary to average your income over the three year period ending December 31, 1948. First your 1947 return MUST BE FILED ON TIME—that is, by April 30, 1948. Then when you file your 1948 return in 1949 you may make application to average your income for 1946-1947-1948. This averaging of income continues yearly so that in each year you are taxed only on the average of each three year period.

REMEMBER — HALF CULTIVATED LAND YIELDS A POOR CROP—HALF KEPT ACCOUNTS GIVE POOR RESULTS TOO

Last year Canadian farmers—and there are nearly a million of them—produced over $2,000,000,000 in farm produce of all kinds. No other single industry approaches agriculture in volume of production. And as in every other business—even the smallest—every farmer must file an account of his transactions with the Department of National Revenue to qualify for the many tax exemptions which are allowed.
