An Apple Specialist

The Advance had the pleasure of a visit to the home of Mr. R. A. Petch of Griersville on Thursday last, Mr. Petch is an apple specialist, and has an orchard of 21 acres, mostly spies, to which most of his time and that of his son is devoted. Spraying, pruning, plowing and mulching take up most of their time. No stock of any kind is kept on the farm with the exception of two cows, and horses to do the necessary work. Chickens, pigs and sheep are all absent from that farm, Mr. Petch claiming that they are not worth the trouble involved. Needless to say a special price is secured for the fruit of this orchard, and owing to the care taken of it he has a crop every year. It is a beautiful sight to go through this orchard and note the clean healthy appearance of these old trees, especially on a hot day in summer. Then the vista of shaded aisles reaching as far as the eye can distinguish between field and orchard, is something to be remembered. Mr. Petch is what may be called a live wire in agriculture, still he finds time to enjoy life, is a crack rifle shot and goes hunting in the fall, thus constituting himself a man after our own heart.

Mr. Petch still has apples from last year's crop, and presented The Advance man with a paper bag of spies as perfect and solid as when they were picked. We have a sample on exhibition. Come in and see it but don't hope to eat it. These were kept in an ordinary cellar, but well aired.

The tar and feather episode in Orangeville is now closed, with four young men each being fined $25 and costs.

FLESHERTON -- ONTARIO

Should Work Out To Public Benefit

The bill introduced in the Ontario Legislature with reference to the holding of municipal elections at an earlier date is now on the statute books of the province. It is not a mandatory law, the matter of a change in the date for holding municipal elections being left optional with the municipalities. For years it has been asserted that the holiday season was not a good time for holding the municipal elections. It was contended that the last Monday in December and the first Monday in January did not attract people to consider the many municipal questions in the light in which such questions should be considered.

The section of the amending Act providing for the change in time of holding elections states that the council of any local municipality may by by-law passed not later in the year than November 1st, provide that the meeting of electors for nomination of candidates for mayor, controllers, aldermen, reeves, councillors, and in urban municipalities for public school board, and board of education shall be held on last Monday of Novemder, and that the polling shall take place on the first Monday in December, and that the by-law shall remain in force from year to year until repealed.

Another amendment to the Act provides for antedating the statutory meeting of councils as follows:

"The council of every town, village and township in which the nomination meeting is held on the last Monday in November, and polling on the last Monday in December as provided by section 73d shall hold a meeting on the 15th day of November in each year and shall immediately thereafter publish the detailed statement provided for by subsection 9, and a similar statement respecting the last 40 days of the next preceding year, and the time for publishing, posting up, printing and transmitting the statements as provided by subsections 11 and 12 shall be the 24th of November.
