Have you $10.00 in UNITED STATES Money?

● Existing regulations make it illegal for any Canadian resident to retain in his possession more than $10 in United States cash.

● You are required to turn in to your bank, for exchange into Canadian money, any amount you have in excess of $10 in United States funds, without delay.

THERE'S A REASON

● The reason is that Canada must have the U.S. dollars spent here by tourists, in order to make them available for the payment of imported goods and services needed to keep production and employment at a high level.
