Quite a number from here took in the 12th at Markdale.

David Hincks had some sheep worried by dogs recently. It appears that two dogs got into his flock. Mr Hincks took his gun and fired two shots which failed to take effect and the dogs ran away. Later one of them returned and was shot by Mr Hincks. Constable Cook was put on the job to locate the owners. The tag on the dead dog was missing, so it was not an easy job to locate the owner. Finally both owners were located and agreed to pay damages and to put the living dog out of existence.

(Intended for last week)

Many tourists are taking advantage of the convenienees afforded at the park, picnics coming from all parts of the country to enjoy the beautiful shade of the grand maples and the many little walks and places of interest around the park.

Rev Mr Fowler addressed the Orangemen on Sunday forenoon, when a large number of members were in attendance and listened with interest to a splendid Orange sermon, which was of benefit to all present.

We were pleased to see Mr Edward Graham of Owen Sound able to visit the old home once more after what might have been a very bad accident. Some six weeks ago while repairing his car the jack, which he had placed under the hind wheel, gave way and let the car down on Mr Graham who was underneath. Although no bones were broken, Ed. got a pretty bad crushing, and it will be some time before he is feeling up to the mark.

Miss Carnea Williams visited with her sister, Mrs Leheman, Toronto, for a few days during the past week, returning on Saturday accompanied by her little nephew, Master Dudley Leheman.

Fred Graham, wife and family, motored down from Copper Cliff on Saturday last and will visit friends here for a couple of weeks.

Eph. Rhobottom and wife of Owen Sound spent the week end with the latter's parents, Mr and Mrs John Williams.

Another government delegation toured in on Friday of last week to look into the high cost of production in the electric plant here, remaining at best about fifteen minutes and then away. These gentlemen, we believe, draw a salary over treble the salary paid to any man at the plant and yet travel so far to investigate the high cost of production here, where every man earns his money. But no doubt these commissions and committees will conclude that the high cost is not so much due from salaries paid to the men at the plant as from other sources.

It was decided at the meeting held in the Presbyterian church on Thursday of last week to hold the services for two Sundays in the Methodist church, after which union service will be held each Sunday morning in the Presbyterian church as usual.

The high winds of the past few weeks have done very little damage, but one peculiar instance of a whirlwind took form one day recently in a hay field owned by Mr Henry Walton at the top of the mountain. The winds circled around, lifting the hay coils high in the air and setting them down again without any apparent damage, this on a day when there seemed to be very little wind stirring elsewhere.

W Walker is erecting a fine residence on his picturesque farm south of the village.

Mrs J Latimer and daughter, Pearl, are visiting this week with Mrs Frizell of Bognor, and friends at Walters Falls.

Married—On Wednesday, July 5, at the home of Alexander Hoy, Mrs Annie Graham of Manchester, England, to John Haines of Kimberley. Rev Mr Veales of Kimberley performed the ceremony. We extend our best wishes to the young couple.

PRICEVILLE

The electrical storm, accompanied by a gale of wind, that swept over here on the afternoon of July 12, did considerable damage. About a mile north of the village fences were blown down. The masons had the brick walls of a dwelling house for D Campbell up about eleven feet. Lightning struck the front wall and threw it into the cellar.

The civic holiday committee are exerting every effort to put up a great day of games and sports to interest and amuse the gathering. The Toronto police pipe band is expected to be on the ground and the city is combed to procure the best of entertainers for the concert in the evening, when we expect to have a varied program that will interest and amuse all intelligent Canadians, and not merely pamper the clannish taste of a few persons of any particular nationality.

Earle McLean, while working in a gravel pit here, was caught by a cave in of the perpendicular bank and was very severely injured.

When a body, meets a body, civic day, Priceville, if a body, greets a body, then two hearts may thrill.

We have scarcely had any tropical heat yet this season, but we are still blessed with what some persons term "good agricultural" weather.

Rev Mr Bushell and family moved into the Methodist parsonage on the last day of June, and the new pastor conducted service Sunday morning July 2nd. The congregation were much pleased with the sermon.

Miss Louise Watson has gone to Toronto to take a course in physical culture, and will return to her school in Beeton, after a vacation with a raise in salary.

Miss Margaret Tryon, teacher, West Toronto, is spending her holidays at the old home here with her father.

Mrs W Watson is spending a week or two with her daughter Mrs Geo Drimmie, Yeoville.

Mrs J F Rudd, of—has been visiting with her father, Wm Taylor here.

Geo Graham, now of Eugenia, was here last week for a short time. We were glad to see him. He lived in Kimberley for some years and was a good citizen.

A serious accident was very narrowly averted on Monday when Chester Morris, an employee of Leslie Watson's garage, assisted by J. A. Grummett were repairing an auto gasoline tank. The tank was removed from the auto and the men, after emptying out the gasoline, were in the act of using a welding torch when an explotion took place. It appears there was sufficient vapor in the tank that when the flame came in contact something had to go. The tank was blown to pieces and Morris was hit on the left hand, the cut requiring five stitches. Luckily, the workmen were not more seriously hurt.—Dundalk Herald
