IN MEMORIAM

DAVIS—In loving memory of my dear father, William Davis, who died July 15th, 1920.

No one heard the foo'steps
Of the angles drawing near,
Who took from us to heaven
The one we loved so dear.
The golden gates were open,
A gentle voice said come,
And with farewell unespoken
He calmly entered home.

—Daughter Winnie.

There was only one student out of the 38 who did not receive credit for at least part of the examination and she was handicapped by illness during the early spring. If we grant that the standard set by the Education for pass, viz: 50%, is the efficiency standard in judging a class and range, the honors in succession above this, we should find that the work of Form 2 in Art ranks 13% above normal, of Form 2 in Zoology 8% above normal, and Form 1 Geography 2% above normal. Canadian History, Arithmetic, English Grammar, Botany and Physiography follow in the order named, the last subject showing a minus quotient of 41% from what would have been needed to pass the class in this subject.

Seventy-three per cent. of the papers written on were passed, and the standard exacted was 10% higher in each subject than in former years.

The best standing in Form 1 was made by Bruce Arnott and in Form 2 by Pearle Latimer.
