The village is very quiet these days with everybody busy. The second cutting of alfalfa is on. Wheat threshing has commenced and it is turning out grand.

The coal strike is likely to make wood dear this winter. It would be a blessing if all the unions, combines, and secret societies were legislated out of existence and men once more made free.

I am not a weather prophet nor a prophet of any kind, but I have noticed that we have had cold north winds in the spring, warm south winds in the fall, and generally a warm spell about the time spring grain begins to ripen, forcing it to ripen before it is properly filled.

Fruit of all kinds here is abundant, wild and tame. Beech, elm and maple nuts are plentiful and squirrels, chipmonks and other creatures of the forest will not starve this coming winter as they did last when starvation took a great many of them, so that there are very few to enjoy the present crop.

A cow belonging to Wm Ellis got into the orchard and ate too many green apples with fatal consequences.

EUGENIA

The first anniversary of the dedication of the Memorial was held on July 21st. Rev Oke of Flesherton took charge of the short service, which was held in the early afternoon, assisted by Rev Bowes of Markdale. A number of those invited to assist in the ceremony were away on their vacations, therefore unable to be present. Although the number that turned out to the most important part of the day's program was not great, it should mean more to the general public than any other part of the day's proceedingy. However, another year the committee will arrange a Decoration Day, and as a means of raising funds for the upkeep of the plot, there will be a sports day set apart for that purpose when the season is not so busy, and both days will be enjoyed more thoroughly by all. The baseball boys did well, the prize being taken by the Kimberley team and second place by the Flesherton boys. All four teams played a good, clean game. The Ceylon boys had but half their team in the field. However, they are always on hand to do their bit in the way of trying to make a successful day, and we appreciate it. We also appreciated Miss McPhail's address in the evening, and, although it was rather a difficult task for Miss McPhail to find a suitable theme, she spoke as she felt herself on the subject of the returned men, and gave some facts which, altho' they did not meet with the approval of some present, were facts just the same As stated in last week's Advance, Miss McPhail suggested during her address that we should hold our anniversary day every three or four years instead of trying to make a successful day each year, which was bound to be a failure more or less. If the day were left for three or four years methinks it would not be long until the people had forgotten altogether what the day should really mean to us, and so each year the two days will be set apart and the programs for each will be easily arranged by those who have the work in hand.

Mrs Jacob Williams motored to Hamilton and St Catharines with friends and enjoyed a week's holiday.
