Hello Homemakers! June is bursting out all over. The markets are radiant with boxes of strawberries, with greens and plants of all kinds. Strawberries are the specialty. No need to mention the family's pleased expressions as strawberries are served for dessert. The first and foremost thought is a dish of these luscious berries simply cleaned, sprinkled with sugar and chilled. . . . Pass the cream, please.

With an ample supply, preserve them; do not let strawberries perish.

TO CAN STRAWBERRIES

General Proportions:
3 quarts strawberries
2 cups water
3 cups granulated sugar.

Prepare fruit, boil sugar and water 5 minutes. Add berries to syrup, bring to boil and simmer 3 minutes. Cover and let stand overnight. Skim and pour into sterilized jars to within one inch of the top. Do not reheat berries or syrup. Place sterilized rubber rings, glass and screw tops on jars. Screw down tightly, then turn screw tops back two inches. Have oven temperature at 275 degrees F. Place jars 1 inch apart on rack in oven. Process pint jars 25 minutes, quart jars 35 minutes. At end of processing period, remove from oven and screw tops down tightly.

STRAWBERRY JAM

5 cups strawberries
3 cups sugar
½ large lemon (cut in slices) or ½ cup lemon juice.

Put ingredients in preserving kettle. Put on range and stir until sugar is dissolved. Boil at a full rolling boil for 12 minutes. Remove lemon slices and pour into sterilized jars. Seal with paraffin when cold. Yield about 1½ pints. Makes a soft jam.

NOTICE TO THE PUBLIC

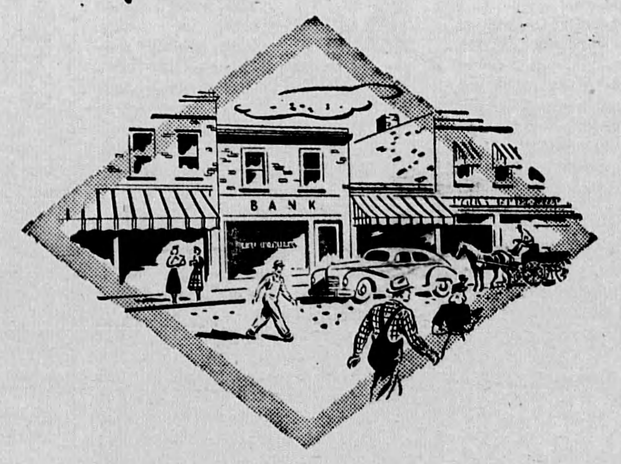
Just like *You*



Everybody finds costs up these days . . . much higher than before the war. Your bank is just like you in that respect.

For example, for every two people on bank staffs in 1939, three are now required to handle the expanded banking business of 7,000,000 customers. For every two dollars which went into bank payrolls in 1939, nearly four are needed today. Taxes have doubled. Everything your bank must buy costs more.

Yet bank charges have not advanced. On the contrary, lending rates have been reduced.
