

A few words about Watches and where to get your Watch Repaired.

Why does your watch stop or not keep good time? Either from some original defect or want of finish on the manufacturer or (much more likely) because you entrusted it for repairs into the hands of some person who has no honest right to be called a watchmaker, one probably who has had neither proper training nor long practical experience, and probably is entirely lacking in that natural mechanical ability necessary to be a good workman.

Scarcely a day passes that I have not watches brought in for repairs which had they been brought in to me in the first place I could have repaired for a dollar or a dollar-and-a-half but now costs their owners perhaps five or six dollars, and sometimes even so shamefully treated as to be ruined altogether. There is no necessity for this. I am prepared to undertake the careful repairing and regulating of the most difficult watch, and make it run as well as it did when new. I can replace and finish any part of a watch that has been lost or injured equal to new. I have the most completely equipped watch repairing department in the county, I use only the best materials, and my tools and machinery the newest construction and best that can be had, some of my tools costing more than the entire equipment of many so-called watchmakers.

Having been engaged in the practical repairing of Watches and Clocks in this town for over fifteen years, and having studied with some of the best workmen in this country, I am prepared to undertake skillfully the repairing of the finest watches or the most difficult repairs, and at as low a price as good work can be done anywhere.

G. W. BEALL.

Practical Jeweller and Watchmaker.
N.B.—Satisfaction and good workmanship guaranteed or no pay.

Durham bull—J. Robinson.
Canned fruit—G. A. Gibson.
Wedding rings—Mrs. Keene.
Ladies' satchels—Mrs. Keene.
Ticket agent—Jno. Williams.
Safe for sale—W. M. Robson.
Great Sale—Melville & Thornbury.
Millinery—Dundas Flavelle & Bros.

The Victoria Warbler

FRIDAY, APRIL 27, 1883.

LOCAL JOTTINGS.

URBAN AND RURAL.

Be sure and read this week's supplement.
Go to Hickey's for fine cakes and pastry.

SEEDS, seeds, seeds, fresh at Higginbotham's drug store.

Just received land salt and plaster at Spratt & Killen's.

A GERALD supply of oranges, lemons, dates, nuts, etc., at Hickey's.

All work warranted at W. F. McCarty's, watchmaker, and no humbugging.

WATCHES repaired and ladies' satchels, pocket books, and all other fancy goods for sale cheap at Mrs. Keene's.

JAS. LAIT'S tea—a prize given away with each package—the best tea in the market is to be obtained at Mrs. B. F. Jewett's, sole agent. Call and see prizes.

SAFE ANESTHETICS.—Mr. Gross, dentist, has extracted teeth without pain by the aid of liquid gas and electricity when everything else failed. They were first used in Lindsay by Mr. Gross, and are perfectly safe and reliable.

MILLINERY.—The best judges pronounce both our millinery and milliner peerless in Lindsay. Everything in mantle material, and we challenge comparison in style or value.—R. Smyth, D. C. Trew, manager.

SINCE the cleaning up Kent street has become a dry and dusty street. It is, however, preferable to the mud and slush of last week, especially at the crossings.

SMALL EGG.—Mr. Marshall, of this town, Wednesday showed us a bantam hen's egg, which weighed only 31 grains. This hen we believe beats anything yet heard of in this section, and is considerably ahead of the small egg of Mr. Day's, of Fenelon Falls.

NOW we are at the beginning of the season when everybody has a suspicion that there is something the matter with himself, although he is sure he does not know what it is. The symptoms are various; the good young man writes more poetry than at any other season, and the bad young man drinks more rum; the country maiden roams about without a shawl and catches cold, and the city girl wakes every morning with a headache. Male gossip in the villages are not so amiable as usual in their chats around the post-office stove; those in town inform one another how uncomfortable they felt the night before. The farmer's wife sees the summer work loom up like a mountain, while her sister, who married a city man, is sure she will die if she has to change houses.

THE Port Perry Observer is responsible for the following:—A Chicago firm have leased the Snider iron mine and are about to establish smelting works for the manufacture of pig iron and also for the manufacture of railway car wheels. The smelting is to be done by charcoal and over five thousand cords of hardwood are out and ready for being converted into charcoal for smelting purposes. A large number of dwellings for workmen are being erected. Some fifty or sixty men will be employed at the start. The car wheel department is expected to be very extensive. The works will be about six miles distant from Kilmour, but that entire section of country will be greatly benefited by the enterprise, the smelting works will require a very large quantity of cordwood and the large number of hands employed will create a constant and steady market for all the farmers have a sell.

FRESH candles made daily at Hickey's.

Best bread, 10 cents per loaf at Hickey's.

PICKLES—20c. per bottle—at G. A. Gibson's.

CORNFLOUR—two cans for a quarter—at A. Campbell's.

OIL cake, oil cake, the place to get it is at Higginbotham's drug store.

WATCHES, clocks and jewelry repaired at W. F. McCarty's. Give him a call.

THE WARDER will be sent to any address to the end of the year for 60 cents.

CANNED tomatoes, apples, peas and corn—20 cents per can—at G. A. Gibson's.

A SPLENDID lot of wedding rings, watches, jewelry and fancy goods just received at Mrs. A. Keene's.

NOTES BOUNTY, money lent on notes. Greenbacks exchanged. Mortgages negotiated. O. HIGGLOW—1077-11.

SEEDS.—Clover, timothy, rape, Hungarian, millet, turnip, carrot, mangel and flax seed at Spratt & Killen's.

THE roads are drying up and it is said land is becoming in excellent condition for ploughing. Farmers have already commenced sowing.

GAS.—Mr. Neelands guarantees to extract the worst cases of broken teeth and roots without pain or injury by gas. Electricity also used.

THE students of the Lindsay athletic school will find all the necessary wearing apparel, such as trunks, halfhose, etc., etc., at Bradburn & Co's.

A NEW York lover stabbed a girl because she rejected him. This should warn the girls that the safest way to reject a man is to leave town and send him a post card.

At a meeting of the lacrosse club Monday evening it was arranged to begin practising at once, with a view of opening the season by a match at Woodville on the 10th of May.

TO HORSEMEN.—Route bills printed neatly, cheaply and quickly at THE WARDER office. The finest selection in the county to choose from. Orders by mail promptly attended to.

THE CANADA LIFE.—Now is a good time to take a policy in the old reliable Canada Life, as those who join now will be entitled to 3 years' profit in 1885. Apply to F. C. Taylor, agent, Lindsay.

THE Benson house is being re-painted and improved for the coming summer trade. The Benson house is well known all through Ontario to be the best hotel outside of Toronto, and it appears to be the proprietor's determination to in no way permit its enviable reputation to go down.

CLEAN UP.—Now that the snow is about gone people cannot be in too great a hurry to clean their yards, etc. Piles of rubbish accumulated during the winter should either be raked up and burned or carted away. Nothing prevents disease so effectively as cleanliness, and in every community, especially in a village, town or city, the greatest precautions should be taken for the sanitary welfare of the people.

MR. W. Cluxton, in the Peterborough Review, cautions farmers against using tinnets or tubs made from maple wood, for packing butter in. This wood includes the butter that comes in contact with it, and renders it undesirable for shipping to Europe. Tinnets of any kind of wood should be used as little as possible. The best package is an ash firkin with a slip cover. Butter is worth more in firkins than in tubs.

THE exodus to Manitoba and the North-west appears to be setting in here as well as other places. Scarcely a week goes by but numbers leave, many taking their families with them. Of course their places here are filled by others, but in many cases the old residents being better used to the district are preferable. However, there is nothing like changes to keep everything on the move, and the constant coming in and going out of people tends to make matters lively for the time being.

THE spring show takes place to-morrow. The show of horses promises to be larger than ever, and although no prizes are to be given for bulls we understand there will be a good show of them all the same. This is certainly commendatory, for our stock raisers are evidently bringing them to assist in the display and the interest in keeping up of our spring fair, and not from any gain they are likely to receive.

THE Peterborough Examiner says:—"Mr S. S. Peck has been appointed to the position of stipendiary magistrate for the provisional county of Haliburton. Four years ago Mr. Peck resigned the same office to represent the riding of North Victoria. He has made large sacrifices for the Reform party, and is entitled to the recognition of his services implied in his re-appointment to office." Now would the Examiner please stand up and tell us what "sacrifice" he has made. A discrediting public cannot see it up this way.

DUCK-SHOOTING.—The act to amend the law for the protection of game and fur bearing animals, Chap. 31, Vic. 43, 1881, prohibits the hunting, taking and killing of water fowl known as mallard, grey duck, black duck, wood or summer duck, between the first day of January and the 15th of August. Other ducks, swans or geese, between the first day of May and the 15th of August. And no eggs of any of the birds mentioned shall be taken, destroyed, or had in possession by any person or persons at any time. Fine from \$5 to \$25.

THE LINDSAY TEMPERANCE ASSOCIATION.—Another of the popular entertainments of this association was given in Bradburn's opera house on Tuesday evening last, and a large and select audience assembled to do it honor. The president, Mr. Magnus, in his opening remarks, referred to the untimely death of George Arthur Smart, which was also the means of disturbing the programme to a considerable extent. A solo by Mrs. MacGachan, reading by Mrs. Steele, solo by Miss Thexton, duet by Mrs. Jones and Mrs. MacGachan, and a stirring practical address by the Rev. S. Weston Jones, completed the first portion of the programme. During the business intermission 40 signed the pledge, making in all a total of over 300 members. The date of next meeting was fixed for Tuesday, May 15th, at some place to be announced in the meantime. Another solo by Mrs. MacGachan, a solo from Miss R. Higglow, and a reading from Mr. Dunn, completed a programme which was generally acknowledged to be one of the very best yet presented by the association. The association begs to tender its warmest thanks to Mr. Bradburn for the use of the opera house at a greatly reduced figure, to all who kindly took part in the programme, and also to Mr. Higglow for the gratuitous use of one of his fine organs.

W. F. McCarty's is the place to get your watches repaired.

CANNED mackerel and lobsters—15c. per can—at G. A. Gibson's.

ANOTHER car of best American coal oil just to hand at A. Campbell's.

SEEDS, seeds, seeds, fresh as they can be bought at Higginbotham's drug store.

THE mind reader Cumberland is to appear at the Opera house here on the 7th and 8th of May.

JUST received 100 more boxes of Brown's Family Soap—offered at the old price. A. Campbell.

LADIES' satchels and pocket books—neatest and prettiest in town—at Mrs. A. Keene's.

DURING the greater part of this week spring appeared as far off as in March.

TRAFFIC on the Midland Railway is steadily increasing. For the week ending the 21st April the business increased \$1,196.45 over the same week last year.

A MAN may break his back over his garden all day long, and an industrious, energetic hen will get up early next morning and undo the work in fifteen minutes by the clock.

A PARTY of sixteen persons left here Wednesday for the North-west. The next excursion train will leave Lindsay May 2nd. For tickets apply to F. C. Taylor, ticket agent, Lindsay.

Mr. Nelson Heaslip was one of the party who left for Manitoba Wednesday, and Austin Hillier, of Lutterworth, and his family of seven. Also Mrs. Carpenter and her daughter, who join Mr. Carpenter there.

FISH.—The close season for bass and maskinonge commences on Saturday 15th, and continues to the 15th of May. It is to be hoped that more attention will be given to the enforcement of the act than was the case last season.

PETERBORO Examiner.—Lindsay hopes to have a good lacrosse team this year. We hope their hopes may be realized. We should like them to get skill enough to make the game interesting when they drop down here to try conclusions with the champions of central Ontario.

FOR THE NORTH-WEST.—Among those who left here by the Credit Valley excursion on Tuesday were Mr. James Lowes and family of five, Mrs. Henderson and family, B. McGill, J. Armstrong, Wm. Flynn, S. Blackwell, S. Kennedy and Chas. Ashbury. These trains make the run from Toronto to Winnipeg in 65 to 67 hours and have become very popular.

DEATH has again been busy in our midst this week. Among others it has claimed Mrs. Robt. Bryans, the wife of Mr. Robt. Bryans, lumber merchant. Mrs. Bryans was greatly endeared to all who knew her, although she had been an invalid for a long time. The funeral obsequies took place Thursday afternoon to the English church thence to the Riverside cemetery, followed by a large cortege of mourners.

Mr. Wm. Bell, sr., whom we reported last week as being very ill brought on by a serious cutting accident is not much improved this week. At one time he was very low, one disease after another following swiftly, but at latest accounts he is better and there are now hopes of his ultimate recovery. Being 78 years of age of course a sickness of this kind goes harder with him than on a younger man, but his strong constitution will in all probability pull him through this. We trust sincerely that it may and that in a few weeks at furthest his friends may have the pleasure of seeing him again able to be about.

ANOTHER RACING SUIT.—The suing of stakeholders is becoming quite common now, and the latest case is that of James McIntosh, of Southwold, against Stanley Paterson, tried at Cobourg on Friday. A match was made between the trotting horse Canada Southern and Canadian Girl for \$200 a side. Paterson was stakeholder. McIntosh was backing his horse, but the mare was awarded the race. Paterson was notified by McIntosh not to pay over the stakes, but he did, and McIntosh sued, getting a verdict for his share of the stake. In the meantime, however, Paterson had obtained security from the winner of the money, who will pay it back.

DROWNED.—On Friday evening an old man named Michael Connolly was drowned by walking into Sturgeon lake. It appears on the night in question he left Lindsay to go down to some point along the shore of the lake, and mistaking his road got down to the water near Terwin's. Whether he was unable to see his way or was under the influence of liquor is not known, but he must have walked into the water before he discovered where he was. Two Indians shooting musk rats, it is said, heard his cries and immediately went to his assistance, but not having proper restoratives they were unable to bring him to. The funeral took place here on Sunday.

THE athletic club progresses and so do the bumps and bruises on the boys. In fact long and loud are the complaints of some of them that "he didn't hit fair" or "no one can tell how that darned ball is going to go." The fun, however, is more on the side of the on-lookers, as they escape all serious consequences and are not afraid to laugh at their neighbors. Mr. Johnston is certainly an able teacher and is bringing his class along splendidly so that the prizes to be given on the 24th of May will be hotly contested, as indeed they should be. There are some men, however, in Emily and Manvers who are renowned wrestlers and boxers, and as many of these gentlemen have signified their intention of being here on the day, our town athletes will require all the teaching they are receiving. But the go out effects of Mr. Johnston's training are already apparent. The regular evenings at the rooms are Tuesday, Thursday and Friday.

"GIVE ME MY LETTERS."—An amusing instance took place in the post-office yesterday morning. There were many people standing waiting for the opening of the delivery window as soon as the morning mails were sorted. Among others was an old countryman, who plainly showed his disgust at having to wait the convenience of the postal authorities in order to obtain his letters. It was not long, however, before he noticed a young man slide up to the post-office drawers and selecting a key, unlocked and drew it out containing several letters. Here was the opportunity. Stepping up to the young man he commanded him with his most important air to "give him out his letters." The by-standers laughed and the young man looked confused, but try as he might he could not convince the stranger that he was not able to give him out his letters or any one else. The old man quieted down after a while, but he has doubts yet whether that young man was not deliberately selling him in the letter business.

OUR MILLINERY OPENING

A TRIUMPHANT SUCCESS.

Store crowded all day long and Every-body delighted.

We beg to return our very sincere thanks to our many friends and announce that we will

CONTINUE THE DISPLAY AS IT IS FOR THE REMAINDER OF THE WEEK.
