The Elizabeth Fords of this vicinity seem to have gone on a rampage lately. Murphy's car turned turtle west of Ravenna, a short time ago, smashing the top and windshield. Conn's car did the same trick on Friday last north of Ravenna with same results, and Colquette's lizzie headed down the rocks last week, but stopped short on the brink. Nobody was hurt.

An Anomaly in Law

That a thief may be convicted of robbing a man's pockets and yet be allowed to keep the plunder through the inability of the victim to identify the cash, was demonstrated in a case conducted before Judge Greig in Walkerton on Tuesday last, says the Herald Times. Nelson Tawse, a former laborer on the new bithulithic roadway here, had $100 stolen from the pockets of his trousers as they hung in his room, and Wm. Mickle, a fellow boarder, was found guilty and sentenced for the theft. When captured Mickle had five $10 Bank of Commerce bills hidden in the peak of his cap, and as the victim of the robbery was unable to identify the money other than the wad which he lost was composed of ten Bank of Commerce $10 bills, the $50 found on the prisoner will, it seems, according to the present law, revert to the culprit on the finish of his sentence, The man who was robbed has therefore not only lost the hundred, but has also been out time and expense coming up from Toronto, where he now lives, to attend the trial and assist in the prosecution of the accused, and hence he would have been in pocket had he never squealed to the police or assisted the authorities to nail the culprit.

Mr. R. J. McLean, 11th line, has a one year old turkey hen of which he is justly proud. This turkey hen has laid 76 eggs this season and apparently has no notion of going on strike for some time yet. She has never offered to set and is leaving the hatching end of the business to her big sisters, as she feels that she can give better service to the household through the production of eggs. Several neighbors have been supplied with eggs for hatching from this hen and they have turned out 100 per cent. efficient. If any person can beat this record we would be pleased to hear from them. No doubt when the gobbler reads this he will call off this record stunt as coal is scarce and cold weather is no time for increasing the family to such an alarming extent—Meaford Express.

Old-Fashioned Husking Bee

Kendal and Bertie Hawkens of the 8th line were host and hostess when they gave a husking bee and corn feast to a jolly party of their young friends on Friday evening, Sept. 22. The invitations read :—

If you are Canadian born,
Come and have your fill of corn
At Evergreen Dell at half past seven ;
Come spend the time until after eleven,
No matter on what else you've reckoned;
Come on Friday, the twenty second.

To the girls :—

I'm sure every girl that ever was born
Could spend an evening eating nice sweet corn
And as you are one of the favored few,
Come to Evergreen Dell on Friday, 22.
Please remember, don't be late,
We would want you here between 7 and 8

They had a fine big bonfire and a game of hide and seek in the shadows of it.

Prizes were awarded, one to the boy or girl who ate the most corn, and one to the boy or girl who ate the least. This caused some merriment, as the first was a paper horn, the latter a small dolly, accompanied by the following rhymes:—

Now you can blow your horn because you have excelled in eating corn.

I'm sure your mind will be in a whirl,
When you try to dress this dear little girl.

Who will be next? We think this the right spirit. Give the boys and girls plenty of fun and keep them around home

Nottawasaga Barn Burned

On Wednesday of last week a fine large barn owned by Mr. Andrew Jardine of Nottawasaga was completely destroyed by fire, together with the crop from three hundred acres of land and a number of pigs. The loss for Mr. Jardine is a particularly large one and the second time he has been visited in this way in the past few years.

They had been engaged in threshing for two days and had got well started on Wednesday, when the engineer while oiling the engine got his smock caught in the governor and flames immediately leaped from the stack and were driven by the wind directly into the barn. The flames spread so rapidly that those in the mow had difficulty in escaping

The loss will amount to about $10,000, the barn itself being valued at $5,000. The contents included 1,400 bushels of wheat, about 3,000 bushels of oats and 500 bushels of barley, besides harness and other farm equipment, also a number of pigs. The loss is partly covered by insurance.

The barn was built six years ago and took the place of another that was destroyed by fire. It's dimentions were 40x86 feet, with stone stabling beneath. —Messenger
