

Immense Bargains

I have just opened out and put into stock large importations from England of

CROCKERY, CHINA, And Glassware,

The most elegant goods ever shown in Lindsay. These goods I have imported specially, and I am determined to sell them in order to make room for further importations of Christmas Goods now on the way out from the old country.

Note This.

FOR THE NEXT THIRTY DAYS

I will make a GRAND

CLEARING SALE

At Less than Wholesale Prices.

Every corner is crammed full of goods. In fact we have not room to open out and display them all. Purchasers may rely on getting only the newest pattern and design, as they have been specially selected for our own trade. We are handling no old shopkeeper's that have been on the shelves for years, but are new goods just out of the packages. Every one who is desirous of

Saving from 15 to 20 Per Cent.

CAN DO SO BY GOING DIRECT TO

KEIGHLEY'S

And making their purchases. The goods comprise

Dinner Services,
Toilet Sets,
Tea Sets,
Glass Sets,
Majolica Ware,

And an Elegant Assortment of Glassware.

All ranges of prices can be suited, as we carry the cheapest as well as the most expensive. Don't be content with simply reading this advertisement, but come and see for yourselves.

Very Liberal Discounts will be given to large buyers.

Goods carefully packed and delivered to any part of the town. Remember the address.

Henry J. Keighley, Lindsay.

LIFORD.

Correspondence of the Warder.

OUR weather prophet here predicts open weather until the end of November. HARVEST will soon be all gathered in in this neighbourhood.

THE regular monthly meeting of the M. C. Temperance Association was held on Friday evening, 26th ult. There was not a very large attendance of members, but the meeting was very successful considering the number present. There are 103 names on the roll. The next regular meeting will be held on Friday evening, 30th November, when an entertainment will be given by the members.

SANDRINGHAM.

Correspondence of the Warder.

SCHOOL REPORT.—Subjoined is the standing of the pupils of S. S. No. 3 Eildon for the month of October. Names appear in order of merit.—Fourth class.—Rosina McInnes, Maggie Gillanders, Jessie McInnes, Lizzy McInnes, Mary Grant. Third class.—Frank McInnes, Kenneth McInnes, Neil McInnes, Annie Grant, John Gillespie. Second class.—Maggie McInnes, John Gillander, Frank McKee, Katie Yorry, Willie Campbell. First class.—Part II. Archie McInnes, Willie McKee, Archie Gillespie. First class.—Part I. Effie Gillanders, Sarah J. Grant, Mary Yorry, Thomas McInnes, Annie Gillespie.

INGOLDSBY.

Correspondence of the Warder.

DEER KILLED.—One day last week while Mr. Peter Harrison was crossing the lake in a canoe he saw a deer swimming in the lake. He immediately gave chase and had the good fortune to soon kill the deer. He resumed his journey, and after going a couple of miles he spied a large buck, and after quite a chase he killed it. Both deer were killed with a paddle. Sportsmen who have come to these parts to hunt have killed a large number of deer. People here are getting rather anxious about the hunting in the future, owing to so many deer being driven away by dogs.

CHIPS.—As Mr. A. Baker was on his way home from Haliburton last Saturday evening it became so dark that he could not see the road, and consequently got into the ditch. If it had not been for the timely assistance of his neighbours, much difficulty might have ensued. Fortunately, nothing serious occurred. Mr. Baker tenders his sincere thanks to Mr. A. Anderson and others for their timely assistance.

We hear that Mr. J. Thompson has moved into his new residence. MAIL twice a week, as usual.

ROSEDALE.

Correspondence of the Warder.

REMOVAL.—As Mr. Dundas has rented his farm and is leaving here to join his brothers in Wisconsin, a few of his many friends and neighbours assembled to bid him a kind farewell and present Mrs. Dundas with a set of china and glassware as a token of friendship. The following is the address: Mr. and Mrs. Dundas.—RESPECTED FRIENDS.—We have heard with regret of your intended departure from among us, and this evening a few of your many friends have assembled to spend a short time with you ere you leave. During the time you have lived among us you have proved kind and reliable friends and neighbours, and now we avail ourselves of this opportunity to present you with this set of china and glassware, not because you are in need of them, but as a token of respect. Hoping you may accept them with as much heartiness as that with which they are given; also that you may have joy and prosperity in your future home. Signed in behalf of Rosedale people by Mrs. W. Irvine and Miss N. McCleary. After the address had been read, Mr. A. McNeil came forward and presented Mrs. Dundas with a handsome chain. Mr. Dundas replied in a suitable manner and then all sat down to a well spread table, which had been prepared for the occasion. All went home well pleased with the enjoyment of the evening.

BURNER says that W. M. Payne, teacher, who is well known around here, as he spends his vacations fishing on Balsam lake, has joined in the holy bonds of matrimony. We wish him joy and prosperity.

FENELON FALLS.

Correspondence of the Warder.

HALLOW'E'EN here was quietly observed. The boys, of course, indulged in their usual pranks, but nothing of a serious nature was done. Our boys are to be complimented.

THE parlor concert given by Mr. Joseph McFarland Monday evening was well attended, though the weather being so threatening likely made some slight difference. All enjoyed themselves.

COW KILLED.—The Victoria train some days ago rode over Mr. Lee's cow down along the lake shore. The poor animal was badly mangled, and the ties and rails afterwards presented an uninviting sight.

THE Alleghenians were here and drew a large house. They appeared to please all present.

A RIFLE of excitement was caused here this week in some circles, owing to complaint laid against every hotel keeper in Fenelon Falls for selling liquor during forbidden hours. The spy is supposed to have been from your town, but, of course, is not known for certain. All acknowledged the corn, we believe on Thursday, and paid their fines, except in the case of Crandell, who fought the matter and got his case adjourned for further witnesses.

SOME amusement was caused to mazy, and rather serious injury to others, by a train being dug in the village last week. The train in question was from Mr. J. Heard's premises to the small creek near by, and from some cause was not covered up or even a danger signal displayed, when left at night. As this street is much travelled, it was not long before some three or four worthy citizens got down in the ditch, and by the mouse they made apparently did not relish it. Wm. Carr, from your town, was injured the most, but each one who fell in was more or less bruised, and had to get the assistance of a druggist to patch them up. The trouble was caused by the lamp blowing out and leaving the hole in darkness. Another lantern was subsequently obtained, and the accident ceased. But it is not safe to talk of the train in the presence of those three or four worthy citizens.

WORK on the canal continues with vigor, and it is said will be kept all the winter. The abutments and timbers for the locks are rapidly being put in place, and stone for the same is coming in in big cow loads from Bobcaygeon.

HALIBURTON.

Correspondence of the Warder.

HUNTERS are having fine sport, and a great many deer are being sent in to the village. Saddles are exported, and the fore quarters only are to be bought here by retail.

ONE or two bears have been killed, but they are becoming very scarce.

THE movement in favor of the adoption of the Scott act is becoming general. It is possible it will be carried in this municipality.

SALEM-EMILY.

Correspondence of the Warder.

HOPE AGAIN.—Mr. James Murdoch and Mr. Miller Murdoch are home, after six months' survey in the North-west territory.

SCHOOL MATTERS.—Mr. Miller Murdoch has been engaged in this school for next year. Mr. Murdoch is a good teacher, and is well able to govern the school. Our teacher, Miss Gertley, is said to be going into the Dunsford school for next year. We would be pleased to see our trustees attend to some repairing that should be done to our school house.

NOTES.—Mr. H. Thompson has leased Mr. William Jones' farm. Mr. Richard Callaghan has leased his farm to Mr. Milloy, of Ops. Mr. Callaghan intends living private. Mr. Robert Mills, of Downville, has leased Mr. W. C. English's farm in this place.

EAST THRESHING.—Mr. Thomas Sherif has been through this place doing some very fast threshing, throwing the old grain apron chaps in the shade. The steam grain sower holds the fort.

ISLAY.

Correspondence of The Warder.

THE young child of Mr. D. Clark died this week. The little sufferer was taken ill some four weeks ago with a swelling and finally caused death after great agony.

Mr. Thomas Elford has returned home after spending a summer in Mariposa. A VALUABLE horse owned by Mr. Alex. Carmichael hung itself in the stable one night last week by getting entangled somehow in the halter.

Miss Gilchrist retires from our school at the end of the term and our board meet Monday for the purpose of selecting another teacher and the transaction of other business.

I NOTICE our guardian angel of Perrin is again taking cognizance of Islay affairs. He is wrong however, regarding his "shindig" item last week so far as residents of Islay are concerned.

KEVIN Daniel has a large number of men at work on Cambray street, opposite the post office.

OUR merchants are already preparing for the holiday season by getting in new stocks, etc. They deserve all the patronage bestowed upon them by the people in this section, and we believe sell even cheaper than merchants do in Lindsay.

ONEMEE.

Correspondence of the Warder.

REVIVAL.—Revival services have been held in the Methodist church of Onemee for the past week or so, and have been well attended. Rev. J. C. Wilson and Falls have both taken part in the services.

GRAIN continues to come in fast, and as prices are as high here as anywhere, our farmers are content to sell at home, and buy their groceries, etc., with us here. They can rely on being well served and receiving good value.

A PECULIAR accident happened to a horse owned by Mr. Wm. Adams last week. When arriving at the station in hauling coal the team took fright at a passing train, his off horse getting his foot caught in some way round the halter strap. Before it could be extricated the animal dropped down dead, whether from strangulation or through fear, could not be told. The horse was a valuable animal, and comparatively young.

We regret to have to chronicle the death of Mr. L. English, well known to the people of Onemee. He had not been ill long, but through an accident a critical operation was compelled to be performed on him. This Dr. Norris did in a very skillful manner, assisted by Dr. Higginbotham, and for a time he rallied so quickly his friends were certain he would speedily improve. Saturday, however, he became worse, and continued to sink till death ensued some hours after the funeral took place to the burial cemetery Tuesday, and was followed by a long cortege of acquaintances and sorrowing friends.

MUNICIPAL candidates are beginning to whisper around, and soon we shall have the hand shaking incidental to the season setting in in full force.

BLACKWATER.

Correspondence of The Warder.

AN INTERESTING QUESTION.—The owner of the property adjoining the road allowance running past the station grounds here has been after the council several times during the past year to give him a deed for that portion of the old road which is useless as a road, and in lieu of which he has given the public a useful and practicable road across his property. At last he got tired of waiting and sold the land in question, at the same time serving a writ on the council to prevent them molesting the party who bought and is building an hotel thereon, as they threatened all sorts of things, arrest, eviction, &c., &c. The question is has he a right to the land and has the council been playing a bluff game with him.

EXPECTED CHANGES ON THE R. R.—This busy station will be busier than ever we expect under the new time table which comes into force the middle of this month. We believe instead of two trains meeting here all three will be due at once, that they will be billed to remain here 10 minutes for refreshments and that this will be the only place on the road that they will stop. This means that in case of a train being delayed the passengers can remain here with a comfortable refreshment bar and hotel at hand instead of waiting in the cars at Wick siding which will be closed, that the Midland train will not have such a long wait as heretofore, and that as we understand, it is the intention to run a Pullman sleeper on the evening train to Montreal via Peterboro' and Belleville, more substantial meals will be required.

WANTED.—There are two things that will shortly be required here, viz., a freight shed and a post office.

President Arthur kept school once, but, remarks the Boston Herald, judging from Thanksgiving proclamation, he did not teach grammar.

GELERT.

Correspondence of the Warder.

MESSRS. Wilson & Every took out of the river a large quantity of ties and cedar at this place and shipped them on the railway for Messrs. Rathburn, of Deseronto.

We have a good station here but have no agent and no person to look after the freight. The business is increasing fast, and if the railway company put an agent here they would do much better.

Times are lively here at present, the farmers are busy threshing and the grain turns out well.

JANETVILLE.

Correspondence of the Warder.

HYMNIAL.—Our usually quiet neighbourhood is bound to keep up its reputation in the matrimonial line. Mr. Christopher Armstrong, has been united in marriage to Miss Elizabeth Magill, and Mr. Charles Armstrong, of the 14th line, has also taken to himself a wife in the person of Miss Sarah Porter, of the same place. We tender to them the usual congratulations.

INCREASE.—Mrs. Robert Johnston has presented her husband with a young daughter on the 4th inst. Both mother and child are doing well so far.

FIRE.—Mr. John Armstrong, of this place, got his barn burned one night last week. No one can tell how it took place, but we hear that it is fully covered by insurance.

NOTES.—Now that winter is beginning to set in the evening parties have commenced, and the young people are going to have a high time of it.

LITTLE BRITAIN.

Correspondence of the Warder.

BIBLE SOCIETY.—On Sunday last Rev. J. G. Manly, agent of the bible society, preached in the Bible Christian church in the forenoon. The sermon took the place of the lecture usually given at the annual meeting of the local branch. The usual collection was taken up, which amounted to somewhat near nine dollars. The annual meeting of the local society will be held in the B. C. church on Thursday, immediately after service, which is to be held in the forenoon, when the officers will be elected, and a collector or collectors appointed.

FIFTH OF NOVEMBER.—The anniversary of the gunpowder plot was celebrated here by the local Orange lodge No. 120 by having an oyster supper, mine host Smith being the caterer. It is needless to say the spread was got up in his best style, nothing lacking. The worshipful master, Mr. H. G. Oliver, occupied the chair. After the bivalves had been disposed of speech and song were the order of the day, or night, rather, I suppose I should say. After spending a pleasant and enjoyable time the company broke up, after singing God save the Queen. The boys of the village got up the effigy of a Guy Fawkes, which they burned at the intersection of King and Mill streets, having first paraded through the village, carrying the effigy and having a torch light procession.

BOBCAYGEON.

Correspondence of the Warder.

LOCKS.—Mr. T. E. Belcher, superintending engineer of the Trent Works, made an inspection of the locks and canal, on Saturday. An experienced diver investigated the bottom of the lock, and reported it to be in a very bad condition. The engineer has given instructions for repair of the lock and also the canal. The straightening of the approach to the canal is a work that is rapidly becoming a necessity, the bend in north bank being nearly worn away. In fact it was only by the greatest exertion and spring that a break in the bank was filled in and serious damage avoided. The engineer has this work under consideration and it is to be hoped the department will see its way to making the necessary appropriation.

NAVIGATION.—The navigation is drawing to a close. The steamer Eva will probably lay up next week. The Beau-bocage, it is understood, will continue her trips as long as the lake remains open. The general impression seems to be in favor of an open fall and winter, at least the prophets and muskrats are unanimous in such a prediction, so of course it must be correct. On these grounds it is held that navigation will remain open some days later than usual. Last year the Beau-bocage made its last trip on Saturday, the 18th. It is expected, therefore, that the lake will be open this year till about the 24th.

OAKWOOD.

Correspondence of The Warder.

SCHOOLS.—We are pleased to learn that the Oakwood high and public school trustees have engaged the present staff of teachers for next year. We understand that each teacher is to have an increase of salary. This is creditable to the teachers and no doubt satisfactory to the rate-payers.

LITERARY SOCIETY.—A lively debate took place at the Literary Society last Friday evening. The subject of debate was "Woman's Rights." Both sides were fairly discussed, but the decision was given in favor of the negative party.

HYMNIAL.—We understand that one of our young villagers, Mr. Robert Sheridan, son of Mr. Sheridan, grain buyer of this place, has taken a trip from the land of celibacy to the state of matrimony by leading to the altar Miss York, daughter of the late Silas York of this village. We wish them success and happiness in their future career.

BALL AND SUPPER.—Our enterprising hotel keeper Mr. Jenkins, gave a grand ball and supper last Friday evening. It seems so have been well patronized by both sexes, married and single, and was kept up until the darkness began to disappear.

SCRAPS.—Not much grain moving. Business very dull. Some hints of another couple taking a trip to the state of matrimony.

Tuesday afternoon Mr. Nutter Gray, employed on the Ontario & Quebec Railway at Peterboro was killed while at work. He was engaged at the moment staking cars, when the plank on which he stood slipped, and he fell between the cars and received such injuries that he lived only two or three hours. The deceased was, perhaps, the oldest railway employee in the Province, and he was known everywhere in railway circles, where he was very popular as "Nut Gray." He was thirty-nine years of age, a married man, and leaves a wife and three children in Port Hope, his home.
