W. H. THURSTON EDITOR

MOTHERS' PENSION ACT

The Mother's Allowance Act is one of the best pieces of legislation ever placed on our statute books and in the past two years has done an incalculable amount of good in the matter of keeping families together and assisting needy mothers in the care for their fatherless children.

In the last government report of the work done along this line our own county has been alive to the benefit of the Act. During the past year $7198.00 was paid out to beneficiaries under the Act in the County of Grey. Of this amount $3596.50 was paid by the government and $3736.50 was chargeable to the municipalities. But of all the sources of taxation this Act receives the least criticism. And it is not charity, which fact makes the fund more acceptable to sensitive mothers, but is looked upon as a debt that is owed by the State to mothers of families where the bread winner has been taken away for one cause or another. It is also claimed that by salving families in this manner a positive saving is derived by the state in personal care and costs in after years, through the maintaining of families intact, and in the elimination of an incentive to crime. Therefore, we say, it is one of the best pieces of legislation ever placed on the Ontario statutes, and is certainly in an altogether different category from the Pension Act, which was just as great a piece of folly as this was wise and just,

NOT A POLITICIAN

Miss McPhail, M.P. in her speech here Friday evening last, defined a politician and declared that she was not "it." Her definition of a politician was: "A man who can make a nice speech without hurting anybody's feelings and saying nothing; and I can't do it."

There seems to be a congestion in Montreal coal yards with all the Welch Coal being poured into the country. There is no congestion in this part, though, and the future prospects are seemingly not bright for even having a smell of coal here.
