Hallowe'en Party

This Week's Items

The Hallowe'en party given by the teacher, Miss Jean Wright, and her pupils, and the people of the section, on Friday night, was unique in every detail and much fun and laughter was indulged in by all. As the guests arrived at the school they were received by a witch who directed them downstairs. Here they found that the basement had been turned into quite a festive place, the decorations being of corn, cats and apples. From secluded corners witches revealed the future to the people, while ghosts bade them take part in the usual Hallowe'en games of blowing out candles, bobbing for apples in a tub of water, and capturing apples from strings suspended from the ceiling. Both old and young participated in the games and there was much jollity. At 9 o'clock the guests were invited to the schoolroom, which also wore a holiday garb. The decorations were carried out in orange and black, with black cats and witches, and pumpkin faces furnished the light. Everybody joined in some community singing. Then there was a short program by the school, probably the most noteworthy being a witch and ghost drill. A guessing contest in the form of a musical romance then took place, Ern Morgan and John Campbell carrying off the prizes. The party ended with refreshments nicely served. A collection was taken in aid of the fire sufferers amounting to $21. The teacher deserves a great deal of credit for the undertaking which will be long remembered by all who attended.
