Mrs. Kerr of King is spending a few days with Mrs. O'Dell.

Card of Thanks

I wish to express my sincere thanks to friends and neighbors who, with their many treats, cheerful cards and letters, helped pass the time and brighten the days during my illness. Special thanks to the Ladies' Aid and the Women's Institute for their boxes of treats. — Angus Morrison.

ACHESON REUNION HELD AT DUNDALK PARK

The Acheson reunion, held recently in the Dundalk Memorial Park, was a real success, 186 names being registered. The president for the year, James F. Acheson, was not able to be present due to the illness of his wife, and Edwin Taylor of Toronto presided. Edwin is one of the in-laws and we are very proud of him.

The sports were exciting and the program in the evening was greatly enjoyed. Two of Russell Patterson's boys rendered a duet and were heartily encored and they very ably responded. Little Jimmy Acheson, son of Stanley Acheson, rendered a solo and also gave an encore. Little Catherine Foster, daughter of Kathleen Hutchinson of Mt. Albert, sang very sweetly "For God so Loved the World." Mrs. Gordon Acheson also sang a solo. A number was given by Joan Foster and John A. McMillen, and a very interesting reading was given by "Aunt Rachel," Mrs Jos. McMillen, and "Aunt Kate' Mrs. G. A. Hutchinson recited two poems A sing-song near the last, with one of Stanley Acheson's daughters at the piano, was to me very wonderful. Last, but not least, were the moving pictures given by Lloyd Acheson, some taken in dear old Ireland and some taken at former reunions.

So there came to a close another happy reunion. A number who were so ill in the winter were able to attend the gathering.—Contributed.

CEDARSIDE BAPTIST CHURCH
Rev. Wm. Alton White, E.D.

Services in Cedarside Church at 11 a.m.; Church School at ,2 noon.

ROCK MILLS worship at 3 p.m. Chucrh School at 2 p.m.

We welcome you to all these services.

Hello Homemakers! To live in the vicinity of a commercial freezing locker or to own a home freezer is a great convenience. Moreover, it means your family will be able to enjoy fresh, delicious fruits and vegetables out of season—without strain on the family budget. You will find that freezing fruit is far simpler than canning and is even easier than freezing vegetables. By organizing the work before starting, a quantity of fruit can be prepared, packaged and stored in the freezer within a couple of hours.

Certain varieties of the following fruits are excellent when frozen—blueberries, cherries, gooseberries huckleberries, raspbrries, strawberries, rhubarb, peaches and fruit juices. (We will mention apple pie fillig later—made with fall varieties). It is wise to select particular varieties since some types are not adapted to freezing. Notice that we do not suggest freezing very seedy fruit — black berries and black raspberries.

VARIETIES OF FRUIT RECOMMENDED FOR FREEZING

Raspberries—Cuthbert Viking.
Sour Cherries — Early Richmond, Montmorency.
Currants—Black and Red.
Strawberries—Van Rouge.
Gooseberies—Poorman, Chief.
Grapes—Concord, Niagara, Cayuga Lindly and Hungarian.
Peaches—Elberta, Vedete, Valiant and Veifreze.
Plums—Claudé, Grande Duke, Fair-Pond, Pacific, Washington and Italian Prune.

STEPS IN FREEZING FRUIT

Little equipment is needed. All your require are two large mixing bowls, two trays, a funnel, clean towels, measuring cup and spoons, electric iron and cardboard shield.

1. Purchase cartons with a cellophane lining or heavy waxed coating.
2. Harvest full matured and firm fruit of the variety reocmmended for freezing. Sort the fruit to remove any blemished or overripe pieces.
3. Prepare to package fruit immediately after it has been sorted.
4. Wash fruit quickly in cold water with as little handling as possible. Drain on trays lined with paper towelling or cloth. Pit or peel such fruits as cherries and peaches. Cut or crush fruit, if desired
5. (a) Alternating layers of fruit and sifted sugar right into the container known as the Dry Sugar method. You should know how much fruit the container hold, then estimate amount of sugar required for each container. For example, in the case of strawberries, using 4 pounds (12 cups) of prepared fruit to 1 pound (2 cups) of sugar, a container holding 2 cups of fruit would require one-third-ucp of sugar.
   (b) A thin syrup is often poured over fruit to within ½ inch of top of cartons. To make syrup: add 1½ cups warm water to 1 cup sugar, stir to dissolve, and chill. This is sufficient for 2 pint cartons. Add 1 tsp. lemon juice to the above for peaches and pears to prevent discoloration. Make sure pieces of fruit are covered with syrup.
   (c) Fruit for pie filling may be packed without sugar or syrup but we prefer the sugar method.
6. Before sealing the package try to exclude as much air as possible If the liner can be heat sealed use a warm iron to press the ends quickly. Label with black crayon
7. Keep packaged fruit in the electric refrigerator until all cartons are ready then take to locker in an insulated box.

PLANING AND CHOPPING CLOSED WEEK OF AUG. 1-7
