Both Can Vote Now

At the last session of the Ontario Legislature, an Act was passed by which the wives of those having property enough for two to qualify on were given the municipal vote. In case the property is in the wife's name then the husband can qualify for a municipal vote on the wife's property. The name of husband and wife are bracketed on the voter's list. Only one of the names count when it comes to the reckoning the number of municipal electors so that there will not be any interference with the County Council act which says there shall be one representative from each municipality "which has less than 1,000 voters and an additional representative for every municipality with an additional thousand names. This act giving wives equal municipal rights with their husbands comes into force on Jan. 1st, 1923. This will mean at least half as many more names on 1923 lists as on previous voters lists and will add considerbly to the cost of municipal printing next year. When assessors begin their work in 1923 they are compelled by statute to add the names of married women. Spinsters, widws and married women with property in their own names have had the municipal franchise for many years now. Women are eligible for trustees who are 21 years old, British subjects and are entered on the assessment roll.
