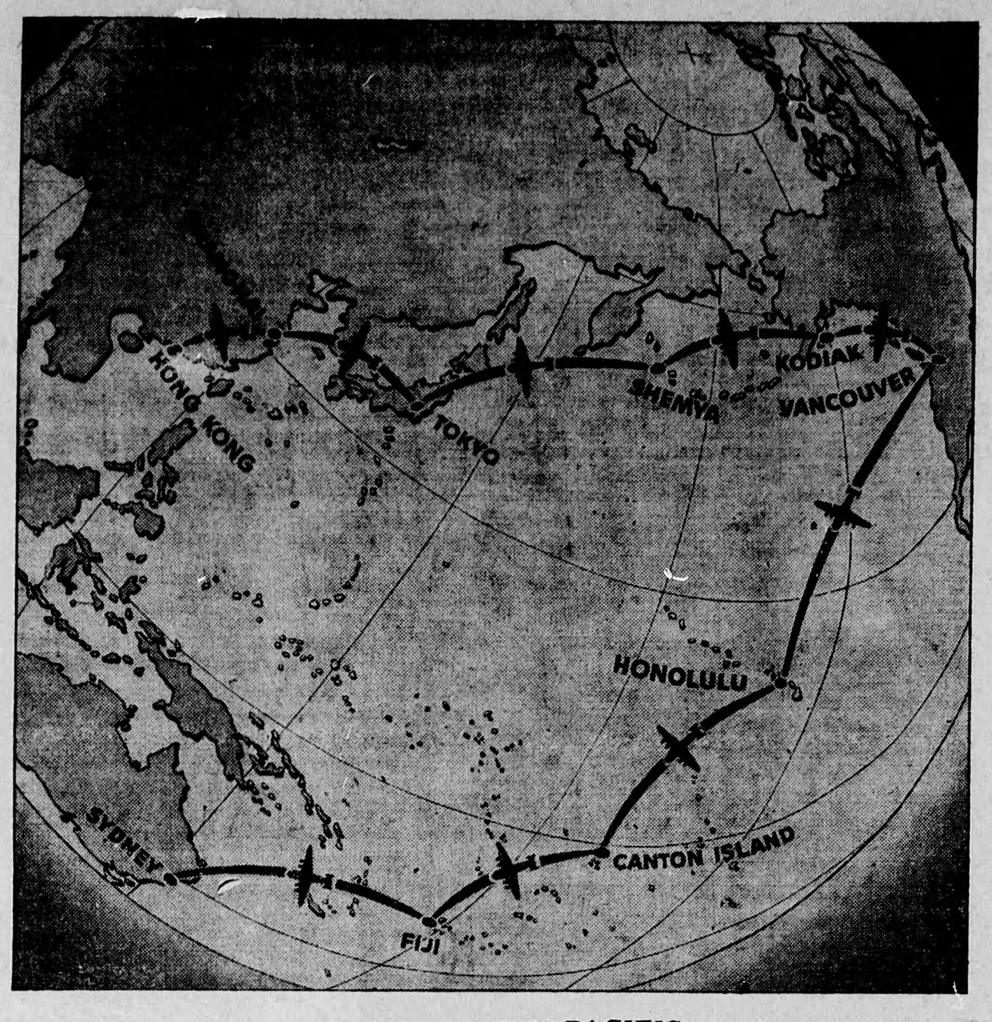
A nice crowd attended the camp meeting at Clarkbsurg Sunday.

Miss Irma Smith is visiting her aunt, Miss Maud Smith.



C. P. A. TO FLY PACIFIC

Canadian Pacific Air Lines has been granted permission for regular passenger and cargo flights on the two trans-Pacific routes shown in the above map, adding a total of 14,000 route miles to Canada's international air services. Now on order for the routes are pressurized four-engined Canadair planes, with a capacity of 40 passengers and three tons of cargo, mail or express. They will be manned by experienced trans-ocean C.P.A. pilots — Canadian Pacific inaugurated wartime trans-Atlantic bomber delivery flights in 1940 and many of its pilots later flew four years with the Ferry Command and have since returned to the company. Operational and servicing headquarters will be at Vancouver with the C.P.A.'s domestic overhaul work, now being carried on there, being transferred to Edmonton. Canadian Pacific, experienced in trans-Pacific travel since 1886, already has an extensive traffic organization in the countries the new flight will serve, which places it in a position to start operations with a minimum of delay and with no wasteful expenditure of Canadian dollars abroad. Regular flights will probably start by next summer; it is felt that an early start is essential if the Dominion's position in the field of Oriental trade, as well as international air transport, is to be developed and maintained. From Vancouver to Sydney, by way of Honolulu, Canton Island and Fiji is 7,865 miles, and the Great Circle route Vancouver - Kodiak - Shemyya Island, Tokyo, Sanghai, Hong Kong is 6,555 miles. New Zealand will be served with a branch service joining through Vancouver-Sydney route to Fiji Islands.

YOUTH ORGANIZATIONS

Organizations whose purpose is to Provide training, development and recreation for girls and boys, perform a service of very high value. It is a fine thing for the young folk when they become interested in such groups, and join and work with them

They gain the opportunity to develop their powers and accomplish important results. They form friendships with the young people whom they meet in these activities and they have no end of fun and enjoymen in the pleasant life of these organizations. They become interested in ideals of patriotism and citizenship and religion and education. Their ambition is stimulated to make the best use of their powers and opportunities and doors of opportunity are opened to larger achievements.

CREAM

Cream production is good as we are approaching the time of year when cream production starts to go back. We advise you to start feeding the cows extra, as butterfat is going to be a good price during the fall and winter months.

EGGS

Eggs are now a good price, but declining in quality due to warm weather. Cutting down on the grazing period, more frequent colllection of eggs and rapid cooling of same is, in our opinion, the best solution for a better grade.

POULTRY

We are in the market for poultry at all times and can pay good market prices.

For your convenience the Creamery will be open Wednesday and Saturday evenings testtng cream unutil 10 o'clock.

The Best banking system

CANADA has a banking system which, for efficiency and dependability, is unsurpassed in the world. Competitive, flexible, adaptable to the changing needs of the country, it serves Canada's producers, her industries, her traders—and it serves your personal needs, too.

No customer has to fear for the privacy of his regular banking transactions. This privacy is completely free of political pressures or considerations—it is rooted in Canadian banking practice and tradition.

Contrast this Canadian way with conditions in lands where freedom is denied—where every bank is a political tool, every banker a State official! State monopoly of banking, proposed by Socialists here, would fasten the Marxist foreign pattern on you.
