FRIDAY, JUNE 25, 1886.

Country Life.

Dear country life of child and man!
For both the best, the strongest,
That with the earliest race began
And has cultivated the longest,
Happy the man who tills the field,
Content with rustic labor;
Earth does to him her fullest yield
Hay what may to his neighbor,
Walls, sound nights—O, can there be
A life more rational and free!

The Stream in the Woods.

Bright stream, that wanders here and there,
Laughing the whole day long,
Your voice across the woodland calls
Like a remembered song.

Now, as of yore, the beeches spread,
And grass and flowers are sweet,
Where of your hasting waters ran
Across my childish feet.

A golden time! I knew it not
In those far days of old;
But left the mill and left the stream
To seek for other gold.

O, dear to me your sunlit wave,
And dear the leafy shore;
But you have borne upon your tide
That which returns no more.

Farmstead Note-Book.

Clover put into the silo alone
produces a putrid liquor at the bot-
tom of the silo.

In transplanting or setting out
rhubarb plants care should always
be taken to keep the roots moist.

There are fewer cows in propor-
tion to the population than there
were 35 years ago.

Blackberries are not always ripe
when they are black. Leave them
until they turn red.

It is not safe to turn cattle into
pasture upon wet clover, as it pro-
duces in them indigestion, which
sometimes proves fatal.

Never purchase a brood-sow the
immediate progenitors of which
have been prepared for a show
ring. She will lack a strong con-
stitution.

For the currant borer out off and
burn the branches upon which they
are settled. This is the only
remedy, and the work must be
thorough.

J. T. Sheild, of Fairfax, Vt., re-
ports that he owns a sow that has
littered 53 pigs in three lit-
ters within twelve months, 13, 20
and 20 respectively.

There is little doubt that in the
future cold storage houses
will be considered as almost as in-
dispensable to the fruit grower as
the house is now to butchers and
farmers.

It is suggested that if honey
be put in quarter-pound packages
and sold to children and others
individual consumption, it would
seriously increase the aggrega-
tion of sales.

How should never be allowed
to milk, as the retention
of a volume of milk in the
udder will inflame it and injure
the quality of the milk, and per-
haps the udder also.

Not to let sheep, distemper in
cattle, cough in pigs,
and a score of other ailments arise
in filthy barnyards in winter and
spring. Prevention is better than
cure in these cases.

A recommended preventive of
distemper: Construct a long, deep
trough, keep it supplied with
water, and with a seasonable
amount of salt, and attract the hogs
to it by slopping them there.

In England the Shorthorns are
ranked as excellent dairy cattle,
followed by the Ayrshires. In
Ireland the Kerry cow is the favor-
ite, while in this country the Hol-
stein is considered the heaviest
breed. The Jersey and Guernsey
are regarded as superior but-
ter-producers in America and
Europe, the Devon make the best
steak, and the Herefords Shorthorns,
and Galloways the greatest
portion of beef.

When corn is but a few inches
tall, before the roots have had
time to spread, deep plowing with
mole-plow may be beneficial;
after the roots have become firm
and cultivation with a culti-
vator or harrow should be resorted
to on either surface of the soil.

Plank floor is not good for
hogs, as they are liable to slip on it
and injure themselves, so that they
are liable to be killed. Hogs will
not stand on a plank floor, on ac-
count of slipping, and this want of
firmness will help to bring on con-
sumption.

As a rule, the most intelligent
farmhands, those who
understand the highest wages, will
be much more profitable than
those who can be hired for little
pay. This is particularly true
of those whose care is intrusted
with the feeding and management
of the stock during the winter.

The most successful farming of the
present seems to have been
done by men who had little land,
were able themselves, with
families, to do the greater part
of the work, with little expense for
hired help. To such farmers
growing of small fruits on a
scale generally pays well.

The evolution of the tomato in
many years ago the fruit was

mostly skin and seeds, but the new-
est varieties are almost solid pulp,
with very few seeds. Possibly as
in the case of bananas, the seeds
will yet disappear altogether, and
the plants will have to be propa-
gated by cuttings.

Most crops, excepting clover, de-
rive their food mainly from the
first five or six inches in depth of
the soil. If we can keep the sur-
face fertile, nothing more is needed.
Pulverizing the sub-soil by the sub-
soil plow is useful mainly to enable
it to hold more moisture and to
open it so that roots may go down
in search of it.

Omamee.

[From the Omamee Herald.]

To the Editor of the Herald.—
Dear Sir,—The Orangemen, and O.
Y. B's of the Emily district were
requested to attend the funeral of
their late brother Mr. Jos. Sander-
son, whose death took place on the
9th of June, at the ripe age of 99
years. Deceased had been con-
nected with the Orange Order, for
over seventy years, and up to the
time of his death still in good stand-
ing of his lodge. I have had the
pleasure of meeting with him in the
lodge room for over 32 years, and
all that time he was present at
every meeting of his lodge, and was
only absent one 12th of July walk-
ing in procession. The attendance
at the call of the Worshipful D. M.
Bro. Wm. Adams, was well re-
sponded to, as the funeral was one
of the largest that ever passed
through Omamee, there were over
one hundred carriages and vehicles
in the procession, while the mem-
bers of the different lodges with the
Orange Young Britons marched
over five miles on foot, headed by
the Omamee brass band which
played appropriate tunes, for the
occasion. The Rev. Bro. Dr.
Smith read the beautiful church
of England service at the grave,
after which the brethren formed
around the grave and deposited
their roses, when Rev. Dr. Smith
read the service in Orange Or-
der as Grand Chaplain. Our de-
ceased brother, Jos. Sander-
son, came to this country in 1827
from the county Cavan, Ireland. His
certificate from L. O. L. No. 845
held in the town of Burke county
Cavan, in 1827. You will see that
he has been over seventy years a
working member of the L. O. L.
In politics he was a liberal conserva-
tive and ever ready to uphold the
union of the realm. His private
life was ever and always marked
with industry, honesty and good
will to all men. He leaves a large
family to mourn his loss, six daugh-
ters with large families, and three
sons who are members of the lodge
from which their father was sum-
moned we hope to the Grand Lodge
above. In behalf of my lodge I re-
turn thanks to the brethren who
responded to the call of the D. M.,
and the band for the services ren-
dered on the occasion, and I am
sure the inhabitants will long re-
member the largest funeral that
ever passed through the village.
Yours respectfully, THOS. STEPH-
ENSON, W. M. No. 114.

Omamee, June 17th, 1886.

Swipes Again.

To the Editor of the Warder.

In my last letter reference was made to
the license inspector, as member of the
school board, voting money to himself.
A little further explanation of the matter
may not be out of place. It appears that
this gentleman is also secretary of the
board, and was appointed auditor with
Mr. Peter McIntyre, another member, to
audit their own accounts, and at a subse-
quent meeting of the board a resolution
was moved that the auditors be paid for
their services the usual fee, as will appear
by the following. The secretary, who by
the way is a very remarkable person, very
imaginative, very officious, and always
ready to move, by Mr. McQuesten, by Mr.
Donald Grant, and seconded by Mr.
Peter McIntyre, that the treasurer be in-
structed to pay the auditors the usual
remuneration of one dollar to each.

After the reading the parties were asked
if that which had been read by the secre-
tary was their motion, and we are in-
formed that they replied in the negative,
but it remained all the same upon the
table for consideration. Mr. Wm. Smith
then moved in amendment, seconded by
Mr. Norman McLeod, that the resolution
be amended, so that the auditors be paid
on account of their services, on account of its il-
legal nature. We cannot say what discus-
sion was had upon the motions, but
when submitted to the meeting the
amendment was lost, and the one read by
the worthy secretary, though disclaimed
by the mover and seconder, carried.

This is a sample of the way the Wood-
ville school board transact business, and
though it may be very satisfactory to
them, we doubt if it will be so with the
ratepayers when everything is considered.

The first very disinterestedly appoint-
ed auditors from among themselves to
audit the accounts and the majority of
the board, and that their accounts are all cor-
rect. As a matter of course they found
everything all right. They knew that be-
fore they began, they had every chance
to know, but they did their duty like
little men; went through the whole
business and made a report of it. They
are the next place very generously and
honorably paid themselves out of the
people's money. Who cannot see wisdom
and goodness combined in this exemplary
school board, managed and directed by
their candid, reliable and ingenious secre-
tary? It is to be hoped that all those
who have disqualified themselves by
voting in this manner will have wis-
dom to resign before they are removed
by the school inspectors, whose duty we
believe it is to clear the board of such dis-
graceful members. As for the secretary,
he is just now where he ought to be. He
has found his occupation at last; he has
found a power of hate that would shame
the devil. If he should not meet the fate
of Moses and others he will no doubt
score another success for Mr. McQuesten.

SWIFTER,
June 14th, 1886.

Keep Your Boys Clothed!

BOYS' CLOTHING.

Just received, another assortment of
We have aimed to outstrip all honest competition. Our assortment is a complete col-
lection of all sizes and qualities. We can clothe your boys neatly and substantially
at a figure astonishingly low. Also great bargains in Men's Suits and Gents'
Furnishings. Hats, Shirts, Collars and Cuffs to suit everybody.

Lindsay, May 29, 1886.—22-20

I ARISE

To Enquire

If you are aware that
on the Roman Plan,
adopted by the FED-
ERAL LIFE, you only
pay the actual cost of
carrying the risk from
year to year with an
expense charge of 35
per cent. added. On
this plan you can in-
sure your life for \$5000
for \$4000 for the pre-
mium usually charged
for \$1000. The advan-
tage over the assessment plan is that the Federal
Life is a stock company, and its policies are all
backed up by its capital of \$700,000, \$54,000 of
which is deposited with the Government as se-
curity for policy holders.

Call for Circular.

S. CORNELL.

THE CANADA LIFE

ASSURANCE CO.

ESTABLISHED 1847.

The oldest and the Leading Life Office in
the Dominion.
Capital and Assets as at the 30th of April, 1885,
over \$8,000,000.
Annual Income for the year ending 30th April,
1885, \$1,336,680.
Amount of new business for the year ending 30th
of April, 1885, \$2,248,407.
The profits of this old and reliable Company
are larger than any other Life Office doing busi-
ness in the Dominion, and its ratio of expenses
to income are less than that of any other Cana-
dian or British office. The policies of this Com-
pany are indelible on any ground whatever
after two years, and Policies becoming claims
are paid at once. The rates charged by this Com-
pany are as low as any first-class office. All
forms of policies are issued.

ODDS AND ENDS.

Latest Facts, Fun and Fancv.

C. C. Jacobs, Buffalo, N. Y., says:
"Dr. Thomas' Electric Oil cured him of
a bad case of piles of 8 years standing,
having tried almost every known remedy,
besides two Buffalo physicians, without
relief; but the Oil cured him, and he thinks
it cannot be recommended too highly."
These being imitations on the market of
Dr. Thomas' Electric Oil, customers will
see that they get the genuine.

Mrs. D. Morrison, Farnham Centre, P.
Q., writing about Dr. Thomas' Electric
Oil, says: George Bell used it on his son,
and it cured him of rheumatism with only
a few applications. The balance of the
bottle was used by an old gentleman for
Asthma, with the best results. It acts
like a charm.

The face wears a yellowish hue, pimples
appear upon it, sick headaches, vertigo,
morning nausea, and pain in back, side
and shoulder blades, are experienced when
bile enters the system and poisons the
blood. Expel it from the circulation,
and direct it into its natural channel,
the bowels, with Northrop & Lyman's Vege-
table Discovery and Great Bile Purifier,
which has widely superseded all other
drugs having a dangerous reaction. In-
digestion, Constipation, Impurity of the
blood, and Kidney complaints entirely
overcome by its use.

Mr. John McCarthy, Toronto, writes:
I can unhesitatingly say that Northrop
& Lyman's Vegetable Discovery is the
best medicine in the world. It cured me
of heartburn that troubled me for over
thirty years. During that time I tried a
great many different medicines, but this
wonderful medicine was the only one
that took hold and rooted out the disease.

A Growing Evil.

Scrofula, or King's evil, as an enlarge-
ment of the glands of the neck is termed,
may be called a growing evil in more
than one sense. Mrs. Henry Dobbs, of
Berkeley, was cured of enlarged glands
of the neck and sore throat by the inter-
nal and external use of Haysard's Yellow
Oil.—26-2.
