To Everyman

THE first and most important aim of Everyman who desires to succeed should be the same as that of successful business and financial houses—the formation of a Reserve Fund.

A reserve is not only invaluable when reverses or emergencies arise, but it is a guarantee of strength and promotes self-confidence.

THE STANDARD BANK OF CANADA

The County Finances

At the County Council last week Mr. John Parker, County Tressurer, gave a brief outline of the standing of the county as far as finances are concerned. He gave a most reassuring statement and the fact that Grey county's finances are in almost perfect condition should be a matter of gratification, not only to the members of the county council, but also to the citizens of the county. The bonded indebtedness of Grey county amounts at the present time to $335,000, and the sinking funds to cover these bonds are all in good condition. Mr, Parker gave an instance of some thousands of dollars worth of debentures coming due in 1925. The sinking fund is already equal to the amount which must be paid in 1925 and all the money in the sinking fund is bearing interest at the rate of 5½ per per cent, while the debentures only draw 4 per cent. interest. At the beginning of this year Mr. Parker has in sight the whole of the estimated expenditure for this year, which is a very pleasant state of affairs.

There are absolutely no overhangings on the finances of Grey county and the year was started with a clean sheet and all that has to be done to have this condition always is for the committees to keep within the appropriations of money given to them for the year's work. Mr. Parker stated that in 1921 it was necessary to borrow $500,000 in order to finance the work of the county until the government grants came through. This cost $8,000. Last year only $300,000 was borrowed and this year the amount will be even less. Mr Parker spoke of the cordial relations which exist between the city of Owen Sound and the county in the matter of finances. Although it is hard to estimate the expenditure in certain parts of the county work for a whole year, Mr. Parker said it was poor business to overrun the estimates. On money borrowed by the county until the provincial returns come in the county must pay 6½ per cent, which makes the borrowing of large sums expensive. On the whole the finances of the county are in excellent condition.

Markdale 9, Flesherton 6

The return game was played in Markdale Monday evening and resulted in one of the best games held for a long time. No penalties were handed out the first two periods and good clean hockey was played. Flesherton started the scoring by bulging the Red Skin's net twice in quick succession. The period ending with Markdale in the lead 4-3, which lead they kept for the rest of the game. The second period opened up fast with Flesherton attempting to regain the lead but in vain, Markdale getting three and Flesherton one. Markdale men were penalized for illegal offences in the last period but with two men off Flesherton was only able to insert the puck once, later getting another. Markdale also scored twice.

It was a good game from the spectators' standpoint, but some of the players were badly used up. The line-up for Markdale was the same as the previous game while Flesherton had, Goal, Patton; defence, Graves and Thurston, Left wing, S McTavish, centre, C McTavish, right wing P Hart, subs, H Betts, E Muir Referee, Geo. McTavish.

PRESENTED WITH TABLE LAMP

A social evening was spent at the home of Mr. and Mrs. S. E. deCudmore on Tuesday, when a beautiful library table lamp and cut glass vase were presented to Mr. and Mrs. F. J. Thurston, recently wedded. Mr. William Miller presented the article. The band rendered music at the house.

A Priceville Boy Who went West

The subject of the following sketch taken from a Calgary paper is a brother of Mrs. Richard Parks of Eugenia:

Captain McLaughlin stands second on the list so far as seniority is concerned in the Calgary fire department. He joined the force on June 12, 1893, and has seen continuous service ever since. For eighteen years he drove a team for the department, and still claims that his charges cou'd get to a fire quicker than the motor apparatus.

Born July 6, 1857, Capt. McLaughlin is 65 years of age, and is the oldest member of the department. He is still hale and hearty and carries on his duties at headquarters with a vigor which is an inspiration to the younger members. For a number of years he was a farmer at Priceville, Ont., but in April, 1890, he got the western fever and came to Calgary. Three years later he joined the fire department.

He was one of the first paid teamsters. First he drove the single chemical wagon then the old hook and ladder truck, and when the motor apparatus came in he was driving three horses on the aerial truck. He was appointed captain on February 24, 1912, and is now the senior captain of the brigade.

In the early days Capt. McLaughlin was one of the best athletes in the west. He excelled with the heavy weights and made his record in the shot put and hammer throwing competitions.

This veteran fireman can tell many interesting stories of the early days of the fire department. With his 20 years of continuous service he has seen many changes, not only in the department but in the city and district.

Flesherton 7, Markdale 7

Markdale seniors played their first game on Flesherton ice on Friday evening of last week in which they were able to hold the Flesherton crew to a 7-7 tie. How the tie was counted is a mystery to us, as our eagle eye only counted six of Markdale's goals. The The first period ended with the locals in the lead 3 2, the second Flesherton scored four to the visitors one and in the third and last period the red skins tallied three. If that score reads seven we'll have to go back to school again. Maybe we were mistaken in the goals that went in but we have our doubts on that. The game from beginning to end was fairly rough, although no serious casualities resulted. Penalties were freely given on both sides by referee Ridley of Dundalk who was a good ally for the visitors.

The line-up for each team was: Markdale—Stoddard, goal; defence, M Henry, H Beard. R wing, B Hamilton, centre, P Kelly, Left wing, H York, sub, McInnes.

Flesherten—Goal, Patton; defence, Graves, G McTavish, right wing, P Hart, centre, C McTavish, left wing, S McTavish, subs, Thurston and Armstrong.

Mrs. Rebecca Cleland

Messrs. John and Joseph Blackburn of Flesherton and Mrs. Walter Simmons of the 4 h line met with bereavement last week by the death of their eldest sister, Mrs. Rebecca Cleland of Stonewall, Man., widow of the late Samuel Cleland, who died at the home of her daughter, where she was visiting, at Cypress River, on January 21st in her 81st year. Her husband died twelve years ago and was buried at Stonewall where her remains were also taken. Five daughters survive her. The late Mr. and Mrs. Cleland were residents of Artemesia on the east back line fifty years ago, but about ten years later moved from Luther township to Manitoba.

Flesherton L.O.L. 2855 is holding a box social on Thurs. eve., February 22. Full particulars later.

Ambrose Saigeon Was Electrocuted

Former Resident of Osprey Instantly Killed

A despatch from Chilliwack, B. C., gives the following particulars of the death of Ambrose Saigeon, a late resident of Osprey township:

Chilliwack, Jan. 13—Ambrose Saigeon of Sardis was electrocuted last evening when he picked up a live wire carrying 2200 volts. He was killed instantly, the body being badly burned.

Mr. Saigeon had returned home from fishing and on finding there was no electric current in the house started to look for the cause. About 5 30 on his not returning to the house, search was made, his body being found near the stream of water which runs in front of the property, which is known as the Stuart place.

He was about 50 years of age and with his wife came here about two years ago.

A Snow Automobile

Mr. Geo. Brackenbury, head mechanic with D. McTavish and Son, has evolved a snow automobile that appears to solve the problem of snow travel by auto. This machine has made 30 miles an hour over the snow, and will maintain an average of eighteen miles. It can be turned anywhere on the road, in fact where a car in summer would not attempt to turn. It will mount and pass over snow drifts or pass through two feet or more of loose snow. These facts prove it to be of practical value.

The machine is built on a Chevrolet small truck body, but Mr. Brackenbury purposes converting it into a coupet. The sills are of maple. There are double tires behind with specially built chains and drum wheels with deep flanges outside the tires. The front is held up on two runners, outside of which hang two 16 inch toboggans capable of being raised or lowered by the driver. The ordinary steering gear is used. The two outstanding features of this car, which make it a decided success, are the drum flanges on the hind wheels and the narrow toboggans in front.

The car has attracted a great deal of attention as it travelled the roads, passing teams with as great ease as in summer time, and even on its first try out did not develop any weakness of any account that had to be remedied, which fact is solid proof of George's mechanical ability.

Latimer -- Richardson

A quiet wedding took place at the Boon Avenue Baptist church, Toronto, on Thursday, Jan 25th, when Rev. W. F. Roadhouse united in marriage Miss Josephine N. Richardson, youngest daughter of the late W. E. Richardson, and Mrs. W. E. Richardson, Flesherton, to Mr. John Lattimer of Toronto, Miss Christeen McKinnon of Priceville and Mr. George Richardson, Toronto, in attendance.

The Advance wishes the happy couple abundance of happiness and prosperity, and a long life to enjoy it.
