The sixth member of the family

THE average Canadian Family consists of five persons.

The new low price of Ford Cars makes it possible to add the sixth member to it.

You are considering the purchase of a car—of a Ford Car. You have realized that the man—the family—without a car is at a disadvantage. You have also realized that Ford Cars are now so low priced that it is possible to give yourself and your family what others have.

A Ford Car fits into the family routine—does your work and that of the family—makes the family routine unhurried and unworried—makes it possible to save some time for recreation—to visit friends—for the country dweller to get into town—for the town dweller to get into the country.

The sixth member of the Canadian Family—the FORD CAR.

The Price of the Touring Car is $445—Freight and Government Taxes Extra.

And it can be bought on a Monthly Payment Plan

An Explanation From Miss McPhail

Editor Advance:

I want the readers of your paper to understand what happened the resolution asking for a 12 per cent cut in the indemnities of members, senators and cabinet ministers.

Early in the session Mr. Leader and I put a resolution on the Order Paper in Mr. Leader's name. I was to second it. This resolution was reached on a Monday, which is the most favorable day for Private members resolutions, but I was sick in bed with the flu, and it was passed by at Mr. Leader's request. The next week-end I got word that my people were sick with the flu. I thought I would like to go home, but to make sure that the resolution was not coming up, I went to persons of authority, to find out what was on the Order Paper for Monday, and was assured by the movers of the resolutions likely to come up, and by our whip, that my resolution would not be reached Monday. On this assurance I went home Friday night. After I had gone, unexpected illness of relatives called Mr. Graham, Acting Minister ot Railways, away from Ottawa. thereby preventing the Hudson Bay resolution from coming up. Others were not ready and ours was called. I again was out of the House for the reasons given above. Then yesterday, March 14th, which is only a half day, the house adjourns at six o'clock on Wednesday, our resolution was called at five thirty. Mr. Leader who did not intend to go on with it at that late hour, rose to explain, the resolution was called and unexpectedly the debate was on. It came my turn as seconder of the resolution to speak at one minute to six, and I adjourned the debate, thinking I was doing the best thing under the circumstances. I should have gone on speaking and then the speaker would have had to interrupt me to adjourn the House and my speech would have been the first thing on the Order Paper today. I regret the mistake exceedingly. It is a nice point in rules, and I suppose very few new members knew of it, but I want the entire blame for the blunder to rest on me. I feel this explanation is due to the people of Ontario. It now goes to the bottom of the Order Paper and will not likely be reached again this year.

I think the manner in which the House of Commons received Mr. Leader's speech was no credit to the House, and to the Government particularly. To say the least it was far from respectful.

Yours in cause of better conditions for agriculture. Sincerely,

—Agnes C. McPhail.

Mrs. Jane McCormick is suing the township of Caledon for $5,000 damages for the death of her son, who was killed in an automobile accident about a year ago. She claims that the roadway was in bad condition. The case will be heard at the Spring assizes this week.

Digging in the ruins of his home at Whitby, Ont, which had been destroyed by fire, a man found a pocket from a pair of trousers left intact. By pulling away the scorched cloth he found a ten dollar gold piece, several bills and some silver. The water had struck it just in time to save the money which was unharmed.

Seed Grain Cleaned

The past two months have offered several stormy days' opportunities to get your seed grain cleaned. How many are ready in this respect? It is well to clean it at once before the best is fed.

Some may feel that cleaning seed will waste a large amount of grain so much is blown over the back of the fanning mill. Considerable is blown over but can be saved and fed to the sheep or, better still, buy a few bags of corn and mix it with the screenings. It will make good chop for the cattle. When the screenings are used thus, there is not waste so open up the sides of the fanning mill giving it a large volume of draft and blow all the dirt out of the seed. It will pay you. We want more clean seed in Grey County in 1923 than ever before.

Maxwell U. F. Y. O.

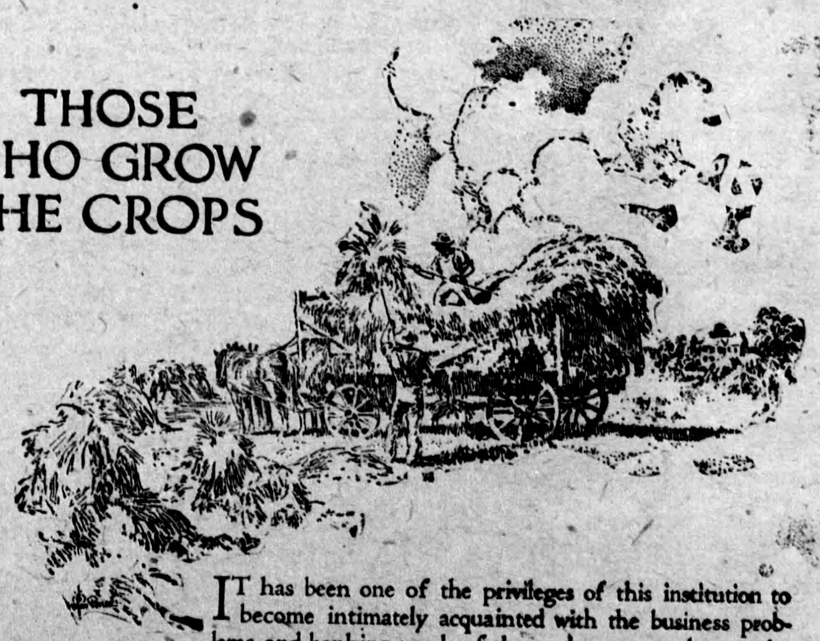
On account of the storm there was no meeting on March 9th. The next meeting will be held on Thursday, March 22, at 8 p.m. in the Methodist hall, the program to consist of a debate to prove "That the city depends upon the country to a greater degree than the country upon the city." This will be followed by a weiner roast.

Get Ready For Spring

Farmers are your implements ready for spring? How are your harrows? Are the teeth sharpened? Is the disk tightened? How about the loose plowshare? There is more in preparedness than in rush. Get your implements ready.

It has been proven at the O.A.C. that every day's delay in seeding after the land is ready means a loss of one bushel of oats per acre. Can the farmer afford that? You can avoid the loss by having everything in readiness.

THOSE WHO GROW THE CROPS



IT has been one of the privileges of this institution to become intimately acquainted with the business problems and banking needs of those who grow and move the great crops of this country.

There is a Branch of the Bank of Montreal in your vicinity. If you are in need of banking or business advice or desire to open a checking or savings account, our manager will be pleased to have you come in and consult with him personally.
