Rhys Bacher Robert Timbers Wilbert McFaddin Alvin Mark

Five Ontario farmers will sail January 15 for the British Isles where they will represent Canada at the International Plowing Match to be held at Saint's Field, County Down, Northern Ireland.

Members of the team include Rhys Bacher of Hagersville and Robert Timbers of Stouffville, winners in the Esso Tractor Class at last year's International plowing match at Lindsay, Ont.; Alvin Mark of Cameron and Widbert McFaddin of Millbank, the Salada Tea champions, and Elliott Moses of Ohsweken, a director of the Ontario Plowmen's Association and team manager. Mr. Moses is a member of the Delaware tribe of the Six Nations.

The men will sail from New York on the new liner "Caronia" for a month's tour of the British Isles as guests of Imperial Oil Ltd. and the Salada Tea Co., Ltd. As well as participating in the plowing matches they will study British methods of agriculture and will visit many places of historical interest.

Although the Canadian farmers have never been abroad, when they visit Northern Ireland they will see old friends made last October at the International Plowing Match at Lindsay. It was the first time that a team from the British Isles had ever plowed in Canada and the Irish plowmen were a feature attraction of the match.

PRICEVILLE

The Federated Farm Women met Wednesday afternoon at the home of Mrs. Donnie Whyte, with a good attendance and Mrs. Cecil Fawcett presiding. Several letters of thanks were read by the secretary, Mrs. Bradey Irwin, for treats and gifts received at Christmas. Mrs. I. B. Whittaker conducted a quizz contest and the prize was won by Mrs Bradey Irwin and Mrs. C. Fawcett. Mrs. Dan Campbell and Mrs. B. Irwin each gave readings, while Mrs. Edgar Patterson gave a well prepared paper "Canadian Industries." Roll call was answered by naming a bird, using last letter of your name. Dropping pennies was sung and the birthday box was enriched by the pennies of three members. The hostess donated an article on which tickets were sold and Mrs. Bradey Irwin held the lucky ticket. A delicious salad plate luncheon was enjoyed at the close.

"No, he swore every time."

Everything about the air force interested the American visitor who never ceased to ask questions.

"Say," he exclaimed at last, "how is it that there seem to be so many Scotsmen among the fliers?"

The guide, a bit fed up, scratched at the chance.

"Well, sir, since the Scots found out every cloud has a silver lining, we just can't keep them out."

About Quietness

Something should be said about quietness. In an age that is loud with pleasure and pain, it is something to be sought for. Scripture says the Lord was not in the wind, the earthquake nor the fire, but in the still small voice. Not in turbulance, fury and chaos in reality found. The petals of the rose unfold in silence. Soundlessly the unfold in silence. Soundlessly the stars come out. In quiet dawn floods the new-born east. Silently the snow descends, mists rise, clouds part and gather, sunset deepens and seasons bring each other in. Only in quietness can one sense the rhythmof the universe. Only when noises are hushed — loud outward sounds and inner turbulance of thought—is harmony felt and known. Only then is there assurance of irreversible good and abiding, indestructible peace. — Hanover Post

The deal was completed on Tuesday morning of this week. — Markdale Standard.

Beef Prices Fair

Beef cattle prices in Ontario states an official report, are now five times the prewar level. That is quite true, but, points out the Financial Post, sensational information of that kind is hardly fair to the farmer without the explanation that in years just before the war, prices were abnormally low. During most of the thirties beef cattle prices in this country were at the lowest level in 25 years. Conditions started to improve with the first reduction in U. S. tariffs in 1935, but it was not until fairly well into the war period that farm prices generally approached normal levels. No matter what consumers may think of the enormous increase in those levels since that time, in fairness to producers they should remember the vastly different situation that prevailed not so many years before. —
