You and Your Bank

How much you borrow, how much you save ... how much you put in, how much you take out ... that's *your* business. Your right to keep your private affairs *private* is a cherished principle of Canadian banking.

NEXT time you are in your bank, notice how many people keep their cheques face down ... just like you ... while they make out their deposit slips. Notice how they close their passbooks before handing them in—and get them back closed too.

Canadian bank service is recognized by everyone as confidential. Every employee, when he came into the service of your bank, took a solemn declaration of secrecy. Your relationship with your bank is the most vitally confidential business relationship you have.

Contrast this Canadian way with conditions in lands where freedom is denied—where every bank is a political tool, every banker a public official working for the State! State monopoly of banking, proposed by socialists here, would open your banking transactions to political intrusion.
