Two buildings were struck by lightning in Dundalk Tuesday afternoon. A chimney on Hill's store was hit and a wall of the old Morgan block slightly damaged.

Rev. H. Eaton On List For Flesherton

The first draft of the stationing committee for the Owen Sound district of the Methodist church was published on Wednesday and gave the name of Rev. H. H. Eaton of Chatsworth for a move to Flesherton. Rev. Eaton has been in Flesherton several times, is prominent in Boys' Work and would be a welcome citizen in town. The list included :

Owen Sound (First) John Locke.
Owen Sound (Westside) R. Nicholson.
Markdale—F. N. Bowes, B.A., B.D.
Flesherton—Howard H. Eaton.
Dundalk—Robert A. Spencer.
Chatsworth—Chas. J. Bailey.
Holland Centre—H. J. Hunt, B Sc.
Kimberley—John S. Veals, B A.
Walters Falls—Edward M. Burgess.
Priceville—Albert Bushell.

At Niagara Camp

The military camp at Niagara is not as large this year as formerly, as only 115 officers, N.C.O.'s and men from the Grey Regiment will make the trip. Lieut. A. E. Bellamy, W. Turney, C. Humberstone, H. Bowers and V. Ford, from Flesherton and vicinity left on Tuesday morning for Toronto, from where they took the boat to Niagara. Col. G. D. Fleming is in charge of the Regiment with Major H. E. Pembroke as second-in-command. The time at camp will be taken up mostly by courses in the various branches of military studies, including Lewis Gun, Signalling and Bombing.

A—H Croft, H McKillop, E Talbot, D McKechnie, O McNally.

Geo. M. Leeson Is Again Candidate

A unanimous nomination was tendered George M. Leeson, ex-M. L. A. for South Grey, by an enthusiastic U.F.O. convention on Wednesday, of last week. No other name was mentioned. Despite a splendid working day, in a late season, farmers from all parts of the riding crowded the hall to overflowing and many ladies also attended.

President W. A. Amos, of the U.F.O gave a stirring address, in which Wellington Hay, Liberal leader came in for strong criticism. He had tried to flirt with and woo the U.F.O., never raised his voice against them in divisions of the House, but being turned down now was bitterly attacking the Government. Hay had carried on a whispering campaign when he beat the speaker in 1919, and later admitted to him that he had received the wet vote.

Hon. Howard Ferguson also was attacked on his timber deal and other shortcomings. Both old party leaders had been wobbly on the temperance issue and they wouldn't be so mealy-mouthed now if ladies hadn't the vote.

The candidate gave an able address on his stewardship as late member and made a strong defense of the Government's expenditures and policies.

Other speakers were Harry Shaw, of Artemesia, and Thomas H. Binnie. Joseph Goodfellow, president of South Grey U.F.O., was in the chair.

The 4th at Flesherton

The baseball boys put on a good day of sports Monday and a good crowd was present in the afternoon. The procession in the forenoon was rather a disappointment, there not being sufficient interest taken in it.

The afternoon included a baseball match between Owen Sound and Flesherton which was won by the home team with a score of 14 to 5. A local horse race was an interesting event between Luther Love's and R. Clark's horses, the latter winning. A basketball game was played by two local ladies' teams. Feversham and Priceville were to have played football but the latter defaulted and Feversham carried off the money. There were also foot races, putting the shot, and other events. Space will not permit of an extended report. The concert at night was well attended and the program was a good one. Receipts for the day, including concert, amounted to a little over $300.

Home From the South

Dr. Thos Henderson of Toronto visited friends here for a couple of days last week. The Dr. and family spent the past winter at Los Angeles, California, and he has an interesting story to tell of the wonderful new oil field that has been recently tapped near that city. He says the gushers there are produced at a depth of from three to four thousand feet, and he believes that had the Flesherton field been properly developed it would have delivered the goods. Hundreds of people who lived in shacks around Los Angeles have been made rich over night. He himself has an interest in a big producer. No, he is not selling stock, but he came direct from the scene of actual operations and states that the excitement in Los Angeles and surrounding country is at white heat, while the production is amazing.

Times Have Changed

From the Orangeville Sun

In several of our exchanges we notice that candidates for the Legislature are using a great deal of space to place their views before the electors. Only a few years ago the editors of these very same papers did all the boosting in the editorial columns. Today the editorial columns contain other matter. This shows the great change that has taden place in the newspaper business all over the country in a few short years. Until recently the newspaper game was not really a commercial enterprise, but ever increasing cost of production has changed all that and ushered us into a new era, and political boosting has passed forever from the editorial into the advertising columns.

Added 26 Names To List

The court of the revising officer for the revision of the Ontario Voters' Lists of the village of Flesherton, electoral district of South Grey, was held in the town hall on Saturday last before Magistrate Creasor of Owen Sound. Some 26 names were added to the list. The sitting for the revision of the Artemesia list will be held in the town hall this Thursday afternoon.

Ontario Railway Board Meets In Flesherton On June 14th

The Ontario Railway Board will meet in the Town Hall, Flesherton, on Thursday, June 14th, for the purpose of advising with regard to the Osprey telephone rates.

Fireworks Display On Hydro Line

A bright display of hydro fireworks occurred on Sunday morning about 3 a m at the switch on the hydro line on Toronto street, when an insulator developed a leak and allowed the current to escape down the ground wire. The wire became red hot and began to burn the pole from the ground up, meanwhile the sparks and fire coming from the wire lit up the whole street for rods around. Mr Andrew Gilchrist was awakened by the noise, and grabbing a pail of water threw it onto the blaze at the base of the pole, and when doing so suffered a severe shock, the electricity having travelled back along the stream of water. The display only lasted a few minutes when the insulator exploded with a noise that could be heard all over town. Hardly any damage was done except to burn a hole in the pole, and the broken insulator. Hydro linemen and R. Down of town had the line repaired again by 6 o'clock in the morning.

Artemesia Pioneer Passes Away In His 81st Year

Another old pioneer of Artemesia passed to the Great Beyond on Monday in the person of Mr. George Moore of Victoria Corners. The late Mr. Moore has resided for some years with his son, Charles, at Victoria Corners and was eighty years of age. His son, Robert, wife and little daughter of Newberry, arrived home on Monday by a hurried call. The funeral takes place to Flesherton cemetery this Thursday afternoon. Service at the house at 1 30 o'clock p.m. We expect to have full particulars for publication next week.

Pigs Profitable When Cared For.

Swine are profitable when given abundant sunshine and exercise, fed on well-selected feeds, gently handled, given proper sanitation and housing, kept free from worms and lice, and protected against cholera and other diseases. Quite a lot can happen a pig between birth and old age, but it is an easy animal to keep in the straight and narrow path leading to successful and profitable development if you go the right way about it.

Pigs frequently suffer more from the heat of the sun during the summer than they do from the cold of the winter period. If possible, make full use of any available shade trees when making your plans for swine pastures, feed lots or colony house locations.—L. Stevenson.

Is farm life worth while? Not if it is one continual round of drudgery, 365 days in the year, without conveniences or any playtime. Nor, for that matter, is life carried on that way anywhere of much value. Conveniences, a garden, flowers, playtime, and some time given to neighbors, make life more worth while.

If farm operating equipment must be left outdoors for any length of time, it is a good idea to protect it from contact with the ground. Run it up on stones or boards.

The most profitable use is made of beet tops when they are siloed and fed with alfalfa hay or other forage and possibly supplemented with grain or concentrate feeds.

The chief value of cowpea hay lies in its high percentage of digestible protein. This has been verified by numerous feeding tests.
