if every man were his *own bank*...

SUPPOSE you had to cart cash around to pay your bills. Pretty risky business. Hard on shoe leather, too.

You don't do it that way, of course. Like everybody else with a bank account — there are seven million of them — you simply get out your pen, write cheques and leave all the bookkeeping to your bank. That's the modern way . . . easy, simple, safe.

Handling and recording your chequing transactions is an important job. Your bank must do it right — or a competing bank will. *You'll* see to that!

Suppose there were no competition . . . Could you expect the same efficiency, courtesy, eagerness to earn your goodwill?
