DROWNED

While Trying to Save Others

John Hemphill Drowned In Wilcock's Lake While Bathing.

Flesherton citizens were shocked on Tuesday evening when word came over the wire from Ceylon that John Hemphill, eldest son of Mr. Sangster Hemphill, had been drowned in Wilcock's Lake a mile and a quarter south of Flesherton station.

On Tuesday evening after supper a number of Ceylon young men and women went down for a bathe and swim in the south arm of the lake, where there is a nice pebbly beach. A couple young women got into difficulty and called for assistance, when Eldon McLachlan and the deceased went to their aid. The latter is a good swimmer. McLachlan assisted the girls to shore, then thought of Hemphill, and on looking saw his head disappear, without any outcry, and he was not seen again. The alarm was given, but it was over two hours before the body was recovered in about ten feet of water, some forty feet from shore. Although attempts at resuscitation were made they were futile, as life was quite extinct. The young man was twenty-seven years of age.

The deceased was an exemplary young man, a member of te Flesherton Methodist church and actve in church work. He served overseas for nearly two years and was wounded while fighting. His death in this manner is a terrible shock to his father, with whom he was associated in business, and his brother and sisters and much sympathy is extended to them by everybody, while regret for the terrible fatality is universal with all who knew the young man.

Car Ditched Buggy

Another automobile collision occurred on Thursday night of last week on the flat this side of the cemetery when a buggy, occupied by Mr. Jack Neilson of Proton Station was overturned into the ditch. He was coming into town and a car, driven by two Markdale young ladies, came up behind and attempted to pass on the wrong side. Mr. Neilson did not hear the horn when they tooted, but when the car started to pass in the narrow part he pulled over to the right side of the road and the car struck the buggy. When both the car and buggy came to rest they were both in the ditch, one on each side of the road, but ,fortunately, nobody was hurt. Both the occupants went on rejoicng that the accident had been no worse.

BORN—To Mr. and Mrs. Charles Chislett on Monday, July 30, a daughter. Congratulations.

Mr. H. Piper is spending a few days with his daughter, Mrs. Torrey, at Lauriston.

The Durham Furniture Co. has sold thir mill here to Mr. Vassey of Lauriston, who recently lost his mill by fire. He has men busily engaged tearing it down and moving the material to Lauriston.

Big Crop In West

Mr. J. D. Clarke of the Department of Justice and Mrs. Clarke, who have been on a visit to their son, George, in the Province of Alberta, where he is engaged in banking and ranching, arrived in Flesherton on Saturday. Mr. Clarke returned to Ottawa yesterday, but Mrs. Clarke will visit with her sister, Mrs. F. H. W. Hickling for a week or two. The crops in the Prairie Provinces are reported by Mr. Clarke to be in splendid condition. There has been plenty of rain, with intermittant warm sunsine, and even the usually dry southern regions will likely give ample returns. It is true that some districts have had hail storms which caused loss to grain growers to a greater or less extent; but that loss is in the large majority of cases, covered by insurance. As a whole, the yield will be a bumper one—probably approximating that of 1915, which was the most prolific known in the history of the West. Farmers generally, as well as businss men, are therefore optimistic as to the future, but state that they will combine to agitate for more advantageous freight rates and the widest possible market for their products.

OSPREY U.F.O. PICNIC

The Osprey U.F.O. club is holding its annual picnic on the agricultural grounds, Feversham, on Monday, August 6th. Mr. J. J. Morrison and Miss Agnes McPhail and other speakers will be present. Speaking to commence at 2 p.m. A ball game and other sports will be provided. Everybody welcome.

A unique tribute is being paid to Dr. F. G. Banting, the youthful discoverer of the insulin cure for diabetes. He has been invited to open the Canadian National Exihbition at Toronto, and has accepted, though much against his will, for he is very reticent about public appearances In his honor it is to be International and Science year, and the Dominion will be invited to meet him on opening day. He is at present in Great Britain.
