FROM BED TO WORK IN THREE WEEKS

DRECO HELPS PUT WM. WALKER ON HIS FEET AND ENABLES HIM TO RETURN TO WORK.

"For the past year my husband has been a sufferer from ulcers of the stomach," says Mrs. William Walker, of 158 Eileen Ave., Toronto, Ont. "His food lay on his stomach and would not digest and he frequently had severe vomiting spells. He was on a diet most of the time. This sulted in his entire system becoming run-down. He had chronic constipation and was very restless and nervous.

"About three and a half weeks ago I brought him home a bottle of Dreco. He tried it and said that the first dose seemed to give him relief and eased his stomach of the terrible pains that gripped him. His bowels became more regular.

"We are both greatly pleased with the benefits Dreco has already produced. My husband's system is improving generally and after the severe trouble he has passed through, he was able to return to work in three weeks' time

"Mr. Walker is feeling very much stronger and I want him to continue this good medicine, as it is the first medicine we have found that goes right to the root of his troubles."

Dreco's beneficial action on the digestion is remarkably quick and thorough. No matter how severe the case or how long standing, Dreco will help. This remedy contains no mercury, potash or habit forming drugs. It is made solely from herbs, roots, bark and leaves and has established an enviable reputation, earned only by genuine merit.

Dreco is being specially introduced in Flesherton by C. N. Richardson and is sold by a good druggist everywhere.

SOLD TWO OF HIS FOXES TWO THOUSAND DOLLARS

Mr. James Dargavel of the Rock Mills fox farm sold two pairs of pups last week for two thousand dollars. These little animals were pedigreed. Mr. Dargavel is making a success of raising these valuable fur-bearing animals.

LEAGUE WAS TIED WHEN VANS WON

Double-Header On Monday Flesherton Meets Dundalk This Thursday

Flesherton went down to defeat at he hands of the Vandeleur squad here on Monday afternoon and the 2nd section of the C.G.B.L. was tied with all three teams together. Flesherton was unable to connect very solidly with Buchanan's offerings and lost 9 to 5. This win for the Vans necesssitated a sudden death game in which the winner would play with Dundalk for the honors of the 2nd section. Flesherton won this game 15 to 9, and thereby will play with Dundalk this Thursday afternoon. If the lads down scuth of us win the first game they have got the cup sewed tight to their pants, therefore the game is sure to be a real race. If Flesherton wins this game there will be another game pulled off the same afternoon.

Indians Tie Football Game

RED AND WHITE'S CLASH ENDS IN DEADLOCK

....The popular Christian Island Indians and Feversham's crack football team once more met on the field of battle. Due to the unbroken tie created at Collingwood, considerable excitement was manifested, which gradually developed to a white heat as the game continued. Feversham scored the first goal five minutes after the first kick-off. The Indians retaliated in the second half, again tieing the score . Both teams concentrated their strength and energy in the effort to break the tie, but all attempts were fruitless. The game ended in atie of 1-1. Over five hundred spectators attended the game. A slight rain had a tendency to make the ground a trifle slippery and uncertain, however both teams offered a fine exhibition of football and the game fans are looking forward to the final, deciding game.

MUCH DISSATISFACTION

There is much dissatisfaction in respect to the examination system of the Department of of Education. The Walkerton Telescope which is well versed in matters pertaining to education says: "The new Provincial Government will render the Province a real service if it substantially curtails the elaborate system of examiniations which haunts the children in our primary and secondary school. At the present time children cannot enter the High School without running the gauntlet of the Entrance Examination and continuing the nightmare all the way through High School. Four subjects must be passed at the end of the first year, four at the end of the second year, four more at the end of the third and the accumulation at the end of the fourth. The cost of failures and unexamined subjects of examinations which have been itensified under the late Government, has become enormous. A fairer, more just and less expensive way would be to lean more on the monthly examinations and rate each pupil's work by his general showing throughout the year, sparing the children the nerve racking test at the end of the year which is made of supreme importance at the present time."

The following are some more of the results of the mid-summer exams. of the Flesherton High School. The Upper School subjects were extras taught by hte pricipal:

We understand that the Attorney-General of Ontario has sent out instructions to County Constables to insist upon a more rigid enforcement of the Motor Vehicles Act, having special reference to persons under 18 years of age being allowed to drive cars. Recently a father of a lad of 17 who took a man into Walkerton, in his car, was fined $5 and costs, amounting in all to $10.10. Parents who permit boys and girls under 18 to drive cars would do well to make note of the fact.
