Cream

Since we are approacring the peak of cream production and the warm weather, we advise our patrons to deliver their cream at least twice a week and eceive the highest returns. We are paying 2 cents above truck prices for delivered cream, so why not deliver your cream to the Flesherton Creamery, where you are guaranteed service and highest market prices for your prodcct.

Now trat the Egg production is falling off, we advise you to cull your flock and market those hens that are not laying, and cut down your feed expenses. We are paying top market prices for fowl, either alive or dressed.

The Progressive Conservative Party's Declaration of Policy —Drafted and Approved by Canadians from every Province—Representing Every walk of Life

George Drew

Since Parliament dissolved a few weeks ago, Progressive Conservative Leader George Drew has visited all ten provinces. He and the Party he leads, as a result of this tour, are convinced of one thing:

It's Time for a Change!

The important thing is for all Canadians to decide between now and June 27th is what that change will be.

With this thought in mind the Progressive Conservative Party takes this opportunity to present some of the major items of its Declaration of Policy. This is no hastily-drafted election manifesto, nor is it the opinion of one man. It expresses the unanimous opinion of delegates from every province who met in Ottawa from September 30th to October 2nd last year.

The importance of many of our statements of policy has been greatly emphasized by the conduct of the government during the recent session, but the policies themselves remain unchanged. They were prepared in the belief that they will serve the best interests of all the people of Canada. It is one statement of policy for the whole of Canada. The purpose of the undertaking we give to Canadians can be broken down under three headings: Opportunity, Security and Freedom.

OPPORTUNITY

The Progressive Conservative Party will assure opportunity to all our people by a bold and progressive national development program.

Canada stands on the threshold of her greatest period of development. A vigorous Progressive Conservative government with faith in the future will bring into production the immense resources which we possess in every part of Canada.

There is no part of Canada where there are not new opportunities of development if we provide the electric energy and other sources of power to encourage new industries and new types of agricultural production.

The Progressive Conservative national development program will cover development of power, oil, coal mineral resources and the transportation facilities for their full use.

We will:

(a) Establish a National Development Advisory Council in co-operation with the provinces.

(b) Establish a National Power Authority to co-operate with the provinces in the technical examination of possible power developments and in the actual development of electric power at cost.

(c) Undertake the commencement of a joint conservation, irrigation and power project on the Saskatchewan River.

(d) Encourage the development of power in the Maritime Provinces from coal as well as other means.

(e) Promote the development of the great iron ore resources of Canada and the establishment of greatly expanded steel industry.

(f) Stimulate the development of petroleum and other mineral resources in co-operation with the provinces, by taxation and fiscal policies to encourage the investment of risk capital.

(g) Institute a vigorous program of water conservation, reforestation, flood control, irrigation and drainage schemes throughout Canada, for the reclamation of unproductive land and the preservation of our soil.

(h) Establish a positive program of marshland reclamation and development.

(i) Take effective steps as soon as possible to co-operate with the provinces in building the Trans-Canada highway and feeder roads, to not only greatly increase our transportation facilities, but also to develop Canada's tourist business.

(j) Remove the discrimination in freight rates between different areas.

(k) Deal effectively with the special transportation problem of Prince Edward Island, Newfoundland, Cape Breton and Vancouver Island.

(l) Take the necessary steps to proceed with the development of the power and waterways project on the St. Lawrence River.

Expansion of Trade

The Progressive Conservative Party will adopt every practical means to expand our external trade with the U.S., and all other nations. Specifically we will:

(a) Promote and expand overseas trade through reciprocal trade agreements.

(b) Remove all abnormal trade barriers imposed by way of license, quota or embargo.

(c) Remove the arbitrary provisions of the Foreign Exchange Control Act.

(d) Re-value the Canadian dollar within the limits permitted by the Bretton Woods agreement to assist our external trade.

(e) Open negotiations to make the dollar and the pound convertible, to regain our markets in the sterling area

Reduction of Taxes

Sweeping reforms in our taxation system and reduction of taxes are necessary to encourage initiative and reward hard work.

The Progressive Conservative Party will:

(a) Increase exemptions to at least $2,500 for married people and $1,250 for single persons.

(b) Increase the exemption for dependent children by $200.

(c) Lower the general rate of personal income tax.

(d) Allow deductions to farmers for work done on the farm by members of the family.

(e) End the persecution of our people by tax-collectors acting under arbitrary powers.

(f) Encourage development of small business operated by the owner, by allowing proper exemption for money re-invested in the business and not paid out in profits.

(g) provide for a graduated reduction in taxes on other small businesses upon the portion of the income left in the business for further development.

(h) Abolish nuisance taxes and make substantial reductions in general sales and excise taxes on necessities.

SECURITY

Security of Employment

The Progressive Conservative Party assures security to all Canadians by the following Declaration of Policy.

In co-operation with the various provincial governments we will explore every possibility of expanding the opportunities for work by encouraging new types of production. We believe that the greatest security for employment in Canada is based upon the fullest development of our resources which will create new employment and increase domestic markets.

Contributory Social Security Program

This plan will provide the following benefits:

(1) Old-age pensions at 65 *without* a means test.

(2) Unemployment Insurance benefits to be extended to include payments for time lost due to accident or sickness.

(3) Adequate medical and hospital care to be provided under a national health program which will include the most extensive preventative health services.

(4) The same family allowance for every child, regardless of the number of children in the family.

These and other provisions in our program will be worked out in co-operation with the provinces

An Effective Program for the Construction of Houses

1. Loans and priorities will be made available to those who desire to build their own homes.

2. Low-cost housing will be provided under plans jointly-approved by the Dominion, Provincial and Municipal governments. These plans will be administered by the municipalities.

3. New types of construction will be encouraged to reduce building costs.

4. Restrictions on building supplies will be removed.

Security for Farmers

The Progressive Conservative undertakes to:

1. Enact floor price legislation based on the following principles:

(a) A definite formula in the Farm Prices Support Act for arriving at floor prices. (b) The formula will allow for variations in production and demand. (c) Floor prices will be announced well in advance of the production period. (d) Floor prices will be arrived at in consultation with representatives of the producers.

2. We favour the restoration of the Canadian Wheat Board Act of 1935 to serve as a marketing agency for wheat producers.

Coarse grains as well as wheat will be handled on a voluntary basis by the Wheat Board

The producers themselves will decide the method by which their wheat will be handled and sold.

Marketing boards and representatives of the producer organizations should and will determine their own method of marketing.

3. We will establish a board of livestock commissioners.

4. We will extend the activities of the Federal Farm Loan Board, so that farmers can take advantage of long-term, low-interest rates.

5. We will increase the facilities for agricultural research to find new uses for agricultural products.

We will in cooperation with Provincial Departments of Agriculture, conduct thorough studies of contagious animal and plant diseases to reduce the heavy annual loss from these causes.

6. In determining agricultural policy, we will enlist the cooperation of farmers' organizations throughout Canada.

The best interests of agriculture can be served under the guidance of those with practical knowledge of each phase of agriculture

Security for Labour

Good working conditions for our people and friendly relations between workers and management, are not only in the best interests of the workers, but also in the best interests of the country.

The security and happiness of all our workers must be protected by legislation providing for effective collective bargaining, the determination of mutual rights, as well as conciliation and settlement of difficulties which may arise.

(a) We will establish a National Labour Council with equal representation from labour and management. This council will examine causes of labour disputes and propose solutions.

It will conduct research to improve labour relations.

(b) We will provide for greater labour representation on government boards, commissions and agencies.

(c) We will encourage profit-sharing plans, through adjustments in taxation.

(d) We will improve legislation providing for compulsory collective bargaining; certification of labour organizations after a majority vote; machinery for conciliation of disputes; fair and adequate wages; standard hours of work, keeping in mind the industry concerned; holidays with pay.

Security for Veterans

(a) We will establish a standing committee of the House of Commons on Veterans Affairs to regularly review veterans problems; (b) to retain and constantly improve all veteran legislation; (c) to eliminate all unnecessary delays in dealings with veterans and to simplify procedure; (d) to extend pension benefits to the members of the merchant navy; (e) to accept the medical category recorded on enlistment; (f) to stabilize pensions of First World War veterans, providing for upward revision where the disability has increased; (g) to increase and extend provision of war veterans' allowances—with an increase in the amount that a veteran may earn above the allowance paid.

FREEDOM

The Progressive Conservative Party pledges itself to terminate bureaucratic action by government-order-in-council, ministerial proclamation and departmental regulation.

(a) We will restore responsible government answerable to the elected representatives of the people.

(b) We believe in the widest possible measure of personal freedom consistent with law, order and the general welfare.

(c) We are opposed to powers which give the government control over the rights of the individual.

(d) We will restore the full supremacy of the law and the equality of every citizen under the law.

(e) We will conserve the authority of the provincial and municipal governments over local affairs.

(f) On assuming office we will convene a Dominion-Provincial conference.

(g) We believe that national unity depends upon respect for the federal constitution and the clear definition of the responsibilities of the Dominion, Provincial and Municipal governments, with assurance of adequate financial resources to carry out those responsibilities.

(h) We undertake to restore freedom of speech over the radio and to place the supervision of all Canadian broadcasting under an independent administrative body.

(i) We will abolish the license fee on radio receiving sets.

(j) We give our unqualified support to the North Atlantic Security Pact.

I believe this statement will provide convincing reasons why you should cast your ballot on June 27th for the Progressive Conservative candidate in your own constituency so that the public business of this great country will be handled by a strong, vigorous and progressive government in the years ahead.
