HAVE YOU $10 in U.S. FUNDS?

If you have more than $10 in U.S. cash you should turn it in to your bank, in exchange for Canadian dollars, without delay. Existing regulations make it illegal for any Canadian resident to retain in his possession more than $10 in United States cash.

HERE'S THE REASON

Canada must have the U.S. dollars spent here by tourists in order to make them available for the payment of imported goods and services needed to keep production and employment at a high level.

RELIANCE PRODUCTS
"YOU CAN RELY ON RELIANCE"

...well practically unanimous

YOU CAN still find people who "don't believe in banks"... who keep their cash in old coffee pots, or hide it in the woodpile, or carry it around.

But most folk nowadays keep their money in bank accounts. They can get it whenever they want it; and they can pay their bills by cheque. Canadians have more than seven million such deposit accounts. In terms of Canada's adult population, that makes it practically unanimous.

The banks, in turn, know they must earn this confidence by giving you the best service they know how.

Today you can take your account to any bank you choose. And what is in your bank book is strictly between you and your bank. It is your own private business.
