VANDELEUR

Mr. and Mrs. J. J. McGee and daughter, Doris, also Mr. and Mrs W. Ratcliffe and little babe, spent the week end with friends at Eugenia.

Mr. and Mrs. Bert Graham and son of Toronto, also Mrs. McMullen of Eugenia, spent a day with Mr. and Mrs. L. Johnston a short time ago.

Mrs. Will Hutchinson spent the past week in Toroto.

Miss Peters attended the Teachers' Convention in Toronto and also spent a few days at her home at Weston last week

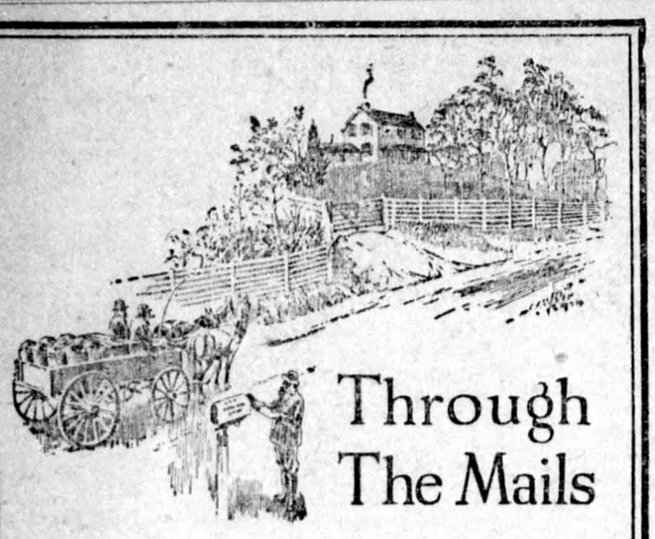
Mrs. Sinclair of Owen Sound is visiting with Mr. and Mrs. S. H. Buchanan.

Mr. and Mrs. Ed. Baker spent a couple of days last week with friends in Collingwood.

Mrs. Sam Warling of Holland Centre is visiting with Mr. and Mrs. Geo. Warling and other friends.

The Woman's Institute will hold their October meeting at the home of Mrs. H. Baker on Thursday afternoon of this week.

Anniversary services were held in the Ebenezer churchc last Sunday. Rev. F. N. Bowes preached excellent sermons, both afternoon and evening. The choir, which gave special music, was assisted by a quartette from Markdale in the afternoon, and the Markdale orchestra assisted at the evening service.



Through The Mails

The service of the Bank of Montreal is as wide and comprehensive as the postal system itself.

This service enables customers living in remote districts to transact their banking by mail as satisfactorily as if they could make personal visits.

Write for our folder, "Banking by Mail."

Doris Tayler's Speech At Osprey School Fair

The following speech was given at the rural school fair at Feversham on Saturday, October 6th by Doris Taylor, a pupil of Singhampton public school :

Mr. Supervisor, Ladies and Gentlemen, Boys and Girls :—The subject I have chosen for this afternoon for my address is a very familiar one and very suitable, I think, for this, our first rural school fair in Osprey Townhsip.

"The benefits of Rural School Fairs."—To my mind the benefits are many, especially to the pupils of the various schools that take part, First, it furnishes a practical means of education, or rather, shall I say, a means of practical education to the pupils in creating in them a desire to acquire knowledge in the various branches of agriculture and horticulture.

You know we boys and girls are always eager and delighted to receive prizes. For that means pay or money, and by getting ready our product, whcih we have to grow, we require to study the method and means for the growth of our grains, roots and seeds which is of vital importance to the Canadian farmer. We study the soil, the method of planting, cultivating, fertilizing for our grain and roots.

Then, too, our gardens need attention, so we study horticulture. We should have a school garden, but if not, a home garden will suffice. We need to beautify our lawns with flowers, then our aesthetic tastes are cultivated.

Our domestic animals are taken care of, or should be. We study our stock—the colts, the lambs, the calves the chickens—all receive a share of our attention, or if they do not—well, I am soory for that pupil who does not give some attention to same.

Second, we profit by organization. We have a president, vice-president, secretary, treasurer and various committees, all of which is an education leading to the parliamentary system of government. Surely some one of us may be Premier, M.P. or M. P.P., and we want to prepare ourselves for such events.

Third, we have the beautiful study of nature—the bees, the birds, the insects, the woods, the weeds.

"In reason's ear they all rejoice
And utter forth a glorious voice,
Forever singing as they shine
The hand that made us is Divine."

A wonderful opportunity of getting near to nature's heart and studying the wonderful majesty and power of our Creator.

Fourth, Then we girls study domestic science, in which we are all so much interest. You know we girls mean to be good cooks and we are learning now. If you do not think so, just try some of our cakes and pies.

Fifth, the boys, as well as the girls, are busy with their manual training. They are making model hay racks, gates, stepladders and many other conveniences. Why, I do believe some of them will build houses some day. Will not that be fine?

Now, not only do we educate ourselves in these ways, but we help the community. We are an uplift to the community in which we live. They are bettered because we tried to make them so.

Then that leades us into our country.

Our country is made up of communities. Our communities are made up of individuals and those individuals were once boys and girls. This shows our importanse—our need be trained properly—not only in "readin', 'ritin', and 'rithmetic", sung to the tune of the Hickory Stick, but in the principles of true manhood and womanhood, because we boys are the future of Canada, hence the future of our country depends on us.

The rural element needs proper training as well as the urban centres, let us do our best to make the school fair of Osprey one grand success.

Now I have tried to tell you some of the benefits of rural school fairs. There are many more, of which we have not time to speak. But we need the co-operation of the parents and trustees.

Hen Burned Barn

Cargill, Oct. 14—A fine large barn on the farm of Archie McCurdy, lot 11, con. 4, Elderslie, was totally destroyed by fire, together with 40 tons of hay, 1,000 bushels of grain, some machinery and all his poultry.

In removing some machinry from the burning building before assistance arrived, Mr. McCurdy had a narrow escape from being burned to death. His clothing caught fire, but he succeeded in extinguishing the flame sby rolling on the grass.

The fire was caused by the explosion of a lantern. Mr. McCurdy left the lantern on a beam while he was getting hay out of the mow. A hen resented the idea of being disturbed, flew against the lantern, knocking it down against the mow, and in a few minutes the whole building was in flame.

Held Meeting To Discuss Church Union

A very harmonious meeting of the officials of the Presbyterian and Methodist churches here was held on Tuesday evening, when these churches were fully represented, the object being to discuss the question of church union and its possibilities here. Rev. Eaton, Methodist pastor, was in the chair, and the Moderator, Rev. Shannon of McIntyre, was also present.

Many of those present did not appear to fully understand the proposed basis of union and an educative campaign will have to be inaugurated. With that end in view a strong commitee was appointed, and their recommendations will be presented to a joint meeting of the Boards The committee is composed of the following gentlemen : T. R. McKenzie, Jos. McKee, G. Cairns, F. Chard, Frank Cairns and the Moderator, Rev. Shannon.

Fo rthe Methodists—W. H. Bunt, F. H W. Hickling, R. G. Holland, Dr. Murray, Jos. Blakely H. Down and Rev. Eaton.

Eugenia Hydro Works

Work on preparing the right of way for the new pipe line at the Hydro works north of Eugenia commenced a couple of weeks ago, and already considerable has been done. About sixty men and twenty-five teams are emyloyed in grading, etc. The Hydro Commission expected to have the new line in operation by the 29th of December of this year, but it it isn't likely that it will be going until sometime in March. A new surge tank will have to be built beside the one which is there now and this will take some time to erect. The new line will be similar in construction to the one already in operation.

WIDOW SUES FOR $40,000

On behalf of herself and her four children, the oldest seven years old and the youngest born two and a half months after its father's death, Mrs. Lillian Semple has entered action against the Canadian National Railway to recover $40,000 damages for her husband's death. He was killed in a level crossing accident at Varney, Ont., on June 15. He was engaged at that place at the time as engineer on a steam shovel. The defence alleges that the automobile approached the crossing without reasonable precaution. The case is ready for trial at the October sittings in Toronto.
