Priceville Women's Institute

The August meeting of the W.I. was held in the hall, with Mrs. R. H. McConkey as hostess, with a good attendtnce of members. The president, Mrs. M. McLean, presided, and the roll call was answered by naming your favorite vegetable Mrs. J. C. Harrison gave the topic "Redeeming Time." The program was then turned over to the girls and a violin selection was given by Miss June Meads, with Reta McKeown at the piano, and Shirley Whyte gave a reading "It Can Be Done." Dorothy McMillan also gave a reading "Friends in the Garden" with a trio by Helen and Reta McKeown and Eleanor McArthur. Piano solos were given by Reta McKeown and Eleanor McArthur. The girls of the Garden Club had been organized last Spring, with Mrs. Wm. Meads as leader. The girls gave a movie of the work they have done and are doing, with their gardens and will compete at the Fall Fairs. All wish the girls success with their undertaking, as some of the girls reside in Glenelg and Artemesia. The name Glen-Arta was chosen for their Club.

The September meeting will be held at the home of Mrs. Leonard McKeown and an invitation has been accepted from Flesherton to be their guests this Thursday evening.

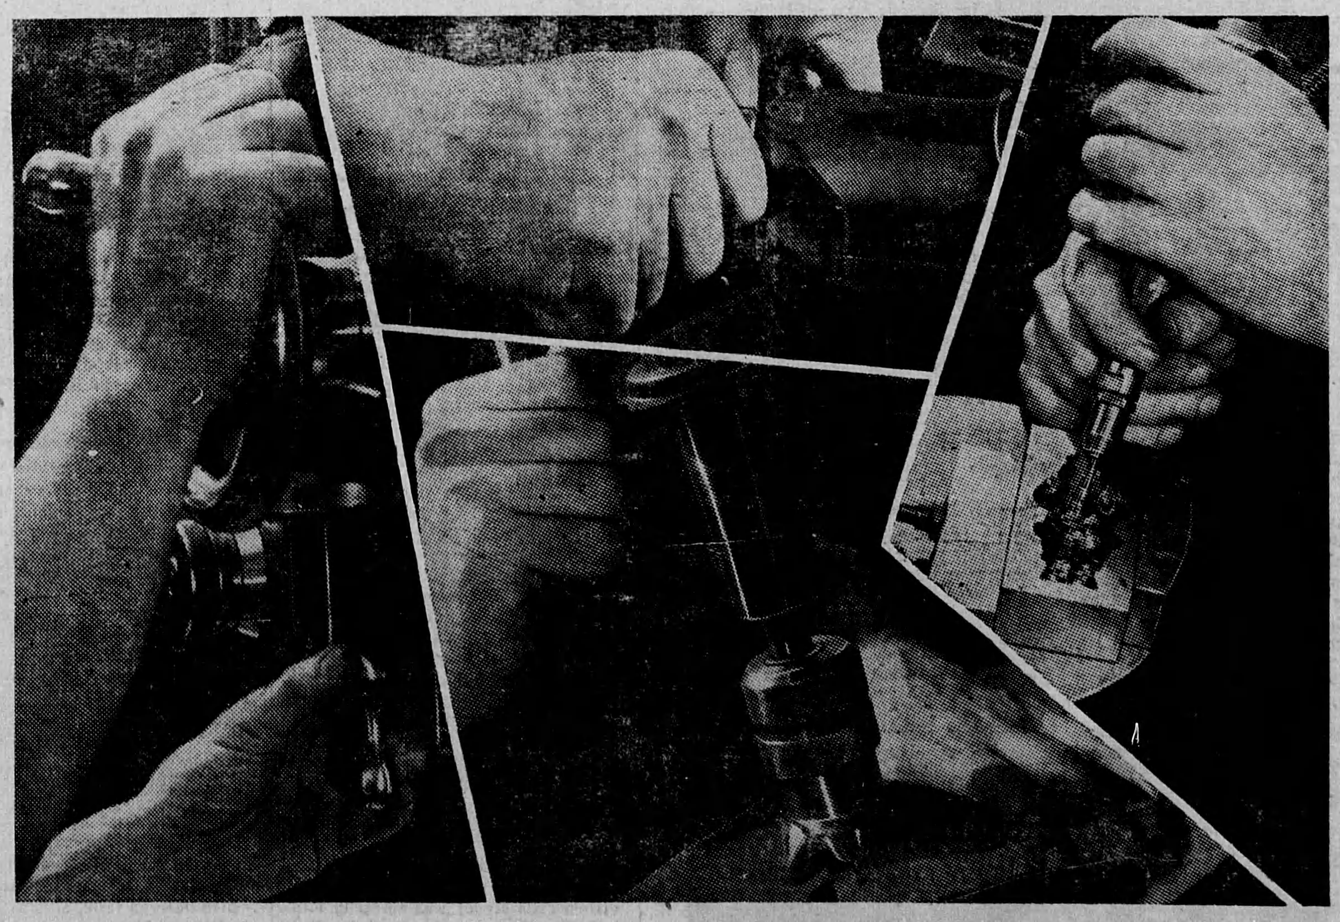
HANDS IN TRAINING...FOR ONTARIO



Learning to Make Plastics

IN Ontario the wheels of industry turn for the benefit of every single one of us. Our lathes, dynamos, drill presses, farm combines, tractors, business machines, etc. are producing goods and services which earn dollars. These dollars provide food, clothing, medical care and other necessities which contribute to our security and high standard of living. Every single one of us, therefore, has a very personal interest in the flow of a steady supply of trained workers to industrial plants. These workers will operate machines which are important to our way of life.

We should appreciate, then, the co-operative efforts of government, industry and labour in the field of employee training. In schools and in factories our workers, young and old, are given the opportunity to develop new and specific skills in every field of business and industrial activity. For instance, as in the pictures shown here, every effort of Ontario's newly-skilled plastics workers will mean better plastic products — will help to make Ontario a finer place in which to live and work.

Our Way of Life Rewards Trained Hands

Ontario workers know they can earn more, have executive responsibility and enjoy a higher standard of living in direct ratio to the skills they acquire and the way they make use of them. That's always true in a free economy — that's why our competitive system will continue to make Canada great and a great place in which to live.

THE BREWING INDUSTRY (ONTARIO)
