checked by the prompt use of Ayer's Cherry Pectoral. Even in the later periods of that disease, the cough is wonderfully relieved by this medicine. "I have used Ayer's Cherry Pectoral with the best effect in my practice. This wonderful preparation once saved my life. I had a constant cough, night sweats, was greatly reduced in flesh, and given up by my physician. One bottle and a half of the Pectoral cured me."—A. J. Eidson, M. D., Middleton,

Tennessee.

"Several years ago I was severely ill.
The doctors said I was in consumption, and that they could do nothing for me, but advised me, as a last resort, to try Ayer's Cherry Pectoral. After taking this medicine two or three months I was cured, and my health remains good to the present day."—James Birchard, Devien Conn.

"Several years ago, on a passage home from California, by water, I contracted so severe a cold that for some days I was confined to my state-room, and a physician on board considered my life in danger. Happening to have a bottle of Ayer's Cherry Pectoral, I used it freely, and my lungs were soon restored to a healthy condition. Since then I have invariably recommended this preparation."—J. B. Chandler, Junction, Va.

COLUMN.

The above is the title of an article by John Flavelle Mines. L.L.D., in the October number of the North American Re view, which is attract ng wide attention. The writer is a well known literary man, and his statements as to the facts that drunkeness is curable are of the most positive character. He says:

"Drunkenness is Curable."

"For twenty years I have been a victim to the disease of drink. It seized me at old times, usually the most icoppor-tune, and in spite of all my struggles would gain the temporary mastery. Months of peace might pass, but suddenly the fever would break loose, and run riot in my velus, and I knew then it must have its course. I have as much will power as the next man, but my will was a straw in the grasp of this horror. Men who have not felt the clutch of drink as it sweeps through and possesses the whole system have no conception of the agony of the struggle which the victim makes. There are no grander heroes under God's sun light than the men who honestly fight

my pen, has a duty to do in this matter?"
Such is Mr. Mines' story.

Does the fact that "Drunkenness is

'Curable" afterd any reason why our posi-tion regarding the liquor traffic should be changed? Assuredly not. Because smallpox is curable is no reason why vaccination should be abolished. Because typhoid fever is curable is no reason why sanitary measures should be neglected, but rather the reverse. If drunkenness can be cured, we are not as a Christian people under obligation, so long as we continue to license the liquor traffic, to expeud the revenue we receive from that traffic in curing its victims? It is this devil's argument of revenue, growing fat on the price of blood, that blinds the peo ple's eyes io the true nature and results of that traffic. Take away that revenue, to, who, for many years, have been suffering and inflicting suffering upon others. Here is a ray of hope. What has cured

others may cure you.

Try the remedy, and then come back to fight the cause of the disease, and help us to banish it forever from our country. JAMES THOMSON,
