In Memoriam

PARKER—In loving remembrance of our dear son and brother, Emerson Parker, who departed this life October 14th, 1948.

At night the silent stars look down
On a grave not far away,
Where sleeps a dear brother we can't forget,
And one we could not save.
The dearest brother the world could hold,
The cheeriest smile and heart of gold:
For those who knew him all will know
How much we lost one year ago.
—Sadly missed and always remembered by Father, Brothers and Sisters.

PARKER — In loving memory of our dear husband and father, Francis Emerson Parker, who left us on October 14th, 1948.

He has not died who left us
For the better land of Day,
He would not so bereave us,
He's only "just away."
—Ever remembered by Wife and Family.

"Here we go around the mulberry tree" is correct. Mulberryies do not grow on bushes.

Keep Your Supply of Cream Up

The time of year has come when the supply of cream is falling down. We wish to advise our patrons that by seeing that the milk cows are in a warm stable these cold nights, that it will help keep up the flow of cream and thus pay good dividends.

Poultry Marketing

We are paying top market prices for all kinds of poultry. Why not have your poultry custom-killed and receive top dressed prices.

Call 66 and our truck will pick up your poultry.

The Creamery open hours from now until further notice will be from 7 a.m. to 5 p.m., except Thursday, until noon.

Cures For Cancer

Science is fighting a never-ending battle to discover the causes and cures for cancer. Many types of cancer even now can be cured but better results are often possible if the disease is discovered early. Pain is not an early symptom of cancer. If you suspect . . . don't wait for pain. See a doctor—a regular qualified physician — at once. Avoid quacks and frauds.

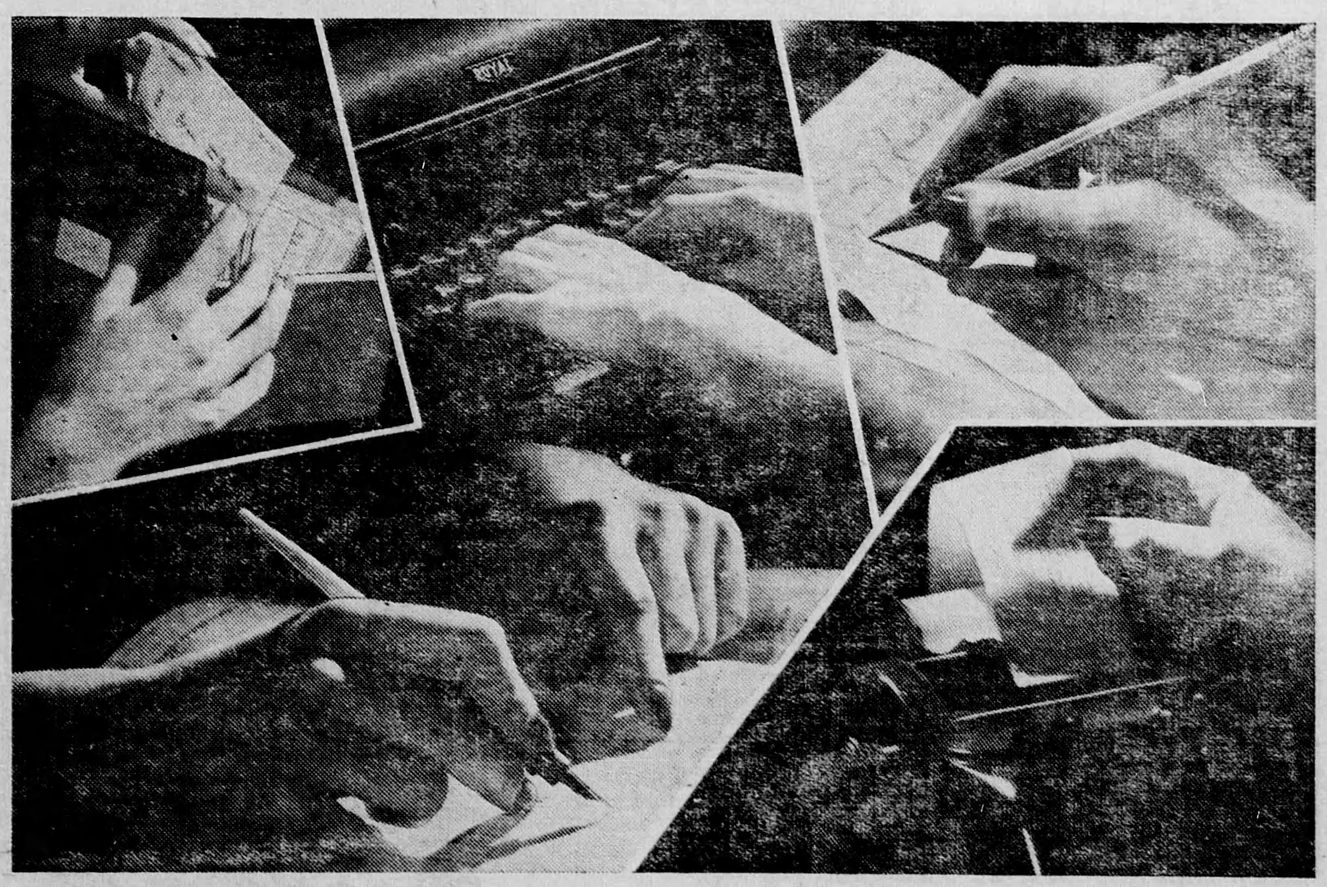
HANDS IN TRAINING...FOR ONTARIO



Learning Business Practice

IN Ontario the wheels of industry turn for the benefit of every single one of us. Our lathes, dynamos, drill presses, farm combines, tractors, business machines, etc. are producing goods and services which earn dollars. These dollars provide food, clothing, medical care and other necessities which contribute to our security and high standard of living. Every single one of us, therefore, has a very personal interest in the flow of a steady supply of trained workers to industrial plants. These workers will operate machines which are important to our way of life.

We should appreciate, then, the co-operative efforts of government, industry and labour in the field of employee training. In schools and in factories our workers, young and old, are given the opportunity to develop new and specific skills in every field of business and industrial activity. For instance, every effort on the part of office workers to become proficient in typing, filing, shorthand and secretarial work, will mean greater business efficiency—will help to make Ontario a finer place in which to live and work.

Our Way of Life Rewards Trained Hands

Ontario workers know they can earn more, have executive responsibility and enjoy a higher standard of living in direct ratio to the skills they acquire and the way they make use of them. That's always true in a free economy — that's why our competitive system will continue to make Canada great and a great place in which to live.
