TEAM WAS "WATCHED"

That great junior hockey aggregation of Owen Sound which won the junior championship of the world at Winnipeg, arrived back in Owen Sound to-day, Wednesday. A civic reception is to be tendered the boys on their arrival and gold watches will be presented to them on behalf of the city. It is the first time that an Owen Sound team ever won an O.H.A. junior championship, much less the world honor. The team has had a great scoring record for the year. They lost two games, tied two and won 22 during the season, with a total of 204 goals to their credit, to their opponents' 69. We are all proud of the Greys for the achievements they have attained.

Good prices will be paid.

HERE'S A GROWL

In about three months the period of school examinations will be with us, and we will be faced once more with a large number of teachers at considerable salaries attached to jobs at once and drawing the very frills permitted by our educational both of them. This is one of the friells permitted by our educaional system, the cost of which has increased to such enormous proportions in recent years. The justice of employees of the public engaged to give their time to certain school duties during the school term leaving their posts and going elsewhere to act as presiding examiners at more per day than ninety per cent. of those who have to pay the cost have ever drawn in their lives, has never appealed very strongly to the public. There are indications that the public here and elsewhere throughout the province including those in charge of legislative halls, are alarmed at the easy way in which some educationalists make heavy demands on the municipal purse, and there is such a thing as killing the goose that has been laying the golden egg.—Walkerton Herald & Times.

JOS. SURRACE WAS ARRESTED BY POLICE

One day last week a bailiff came up from Hamilton to Dundalk and with the assistance of the local bailiff succeeded in capturing Dundalk's noted mercantile Mussolini, who has for some time been doing business there as a general merchant. The arrest was made at the instance f a Hamilton firm who had flirted with him not wisely, but too well. There are also a lot of other firms standing shoulder to consider with the Hamilton firm in an effort to get what is due them. The stock remains intact and they cannot get at it. Sheriff Wilson of Owen Sound has a prior claim. It is said that some thirty executions are out against Surrace. For a long time Surrace has been fighting an uphill game but it looks now as though he had reached the apex of his ambition. It is said that Surrace put up quite an argument when arrested —in Italian. This argument has not been interpreted, but probably consisted mostly of expletives against the blankety blank Canadian laws.

OFFICERS OF W.M.S.

At a special meeting of the W.M.S. of the Methodist church held at the home of Mrs. F. H. W. Hickling on Tuesday evening of this week the following officers were elected: Hon. NITRO-CULTURE

Grey County farmers can secure one bottle of Nitro Culture Free of Charge in 1924 as they did in 1923. This information was recently received by the Department of Agriculture, Markdale, and it is passed on to our farmers.

Nitro Culture is a preparation of a vegetable gelatine in which are placed the bacteria calld Pseudomonas radiocoli. These bacteria live in the little nodules or knots which are found on the roots of all alfalfa clovers, peas and beans which are the legumes. These bacteria have the power of withdrawing the nitrogen from the air and changing it into a form in which the plants can use the nitrogen in building up the plant.

The value therefore of Nitro Culture rests in the fact that the bacteria which are applied to the seed are present when the sed sprouts. The young plant will at once have all the aids in securing nitrogen at hand so that growth will be hastened.

Farmers have reported success with its use. It is worth trying especially as failures in growing clovers have been encountered. Try it this year.

Any farmer wishing the culture must kep in mind the fact that the orders must be sent away. The material is not kept on hand in the office, consequently late orders may not be filled in time. Every farmer knows how much clover he will sow. One bottle does one bushel or fraction thereof. Be sure you name the kind of clover as each requires a different culture. Who will send the first orders to the Department of Agriculture, Markdale?

PLOWING MATCHES

Previous to the annual meetings of the Agricultural Societies a letter was mailed to the Secretary asking them to consider the advisability of holding a plowing match in their district. With that letter was sent a full statement of the assistance which would be possible to secure from the Fairs and Associations branch, Parliament Buildings, Toronto. To date very little inquiry has been received. Now is the time to consider this work. Derby Agricultural Society organized last year with the result that they had an exceptional competition. Who will be next? We will assist of possible.

WOOL SHIPPING SEASON

Last year 2700 shippers sent their wool to the Canadian Co-operative Wool Growers, Weston. This organization has followed the recognized system of commodity marketing, group marketing, standardizing the product by grading, extending the period of marketing and extending the field of markets.

Because of the work done by the Canadian Co-operative Wool Growers it was possible last year not only to sell large quantities of Canadian wool to Canadian manufacturers but to dispose of 600,000 pounds to manufacturers in England, 50,000 pounds to the Continental buyers of Europe and considerable to the U. S., in spite of the heavy Fordney tariff on wools.

The Bank of Montreal has closed its Thornbury branch.

Mr. Mark Dulmage, late of the Guelph Daily Herald, has removed to Owen Sound, where he will assume the position of city editor of the Daily Sun-Times.
