A complaint has been lodged with The Advance that boys in town have been injuring maple shade trees in the village. One was caught jabbing a sharp crow-bar into one. Tapping the maples for sap is not conducive to the health of the trees and should not be allowed.

Mr. C. T. Batty, manager of the Standard bank, has received an official receipt from Lieut.-Colonel Williams, Provincial Manager of the Navy League of Canada, for the donations from Flesherton to this worthy cause, which have been received by them from their Chaplain and representative, Rev. C. Adams.

The annual Thankoffering meeting of the Mission Band was held in the Methodist church on Saturday last at 3 o'clock. An appreciative audience filled the school room. A choice program was given by the children, one number being a pageant illustrating the book which has been studied during the year. Another number worthy of mention was a solo in Japanese, "Jesus Loves Me," by little 4-year-old Georgina Blackburn. A lunch was served by the older members of the Band. The thankoffering amounted to almost $45.00.

EGG POOL FORMED BY LOCAL MEMBERS

Mr McMillan a representative of the U.F.O. Co-operative in Toronto, met 75 or 100 members of the U.F.O. and others in Clayton's hall on Thursday afternoon last with the object of forming an egg pool in this district, and we believe was quite successful.

The idea is to get farmers to band together and ship their eggs to the Co-operative, who will candle and grade them and place those suitable in cold storage. The storage eggs will be sold at the most advantageous time. Those not suitable will be sold at once at current market prices. The company will charge one cent per dozen for handling. A straight 20c per dozen is paid cash, and at the end of the season whatever balance over the 20 cents is coming will be handed over to the producer.

A committee was formed to fix matters up and organize the pool.

Mr. McMillan said that the egg production of Canada last year was worth between 48 and 55 million dollars. He gave minute instructions as to the care and handling of eggs and declared that there was a big profit in eggs where they were properly looked after.

W. Turney Bought Property

At the sale of the property and household effects of the late Joseph Clinton on Saturday afternoon the cottage and lot were sold to Mr. Will Turney for the sum of $1500. The household goods were all disposed of at fair prices.

STRUCK BY PUCK

Mr. Roy Patton of The Advance staff suffered a painful injury on Wednesday evening of last week which laid him up for a few days, and from which he has not yet fully recovered. While playing in the nets in a Flesherton-Proton game the puck struck him on the right cheek bone. One tooth was broken, two others loosened, a bad cut was received under the eye, and the eye itself damaged. Roy was knocked senseless and did not recover the use of his thinking machinery for five and a half hours afterwards. He was carried home on a stretcher and spent the rest of the week off duty. These pucks are nasty things when one tries to stop 'em with his face.

A Lover Of Flowers

Mrs. W. L. Wright is a keen lover of flowers and has been wonderfully suuccessful in their growth. One day last week she kindly introduced The Advance man to her beauties, such beauties as are usually only grown in greenhouses. There were cyclamen of various colors, azaleas, hyacinths, ferns, etc. There were have bloomed lavishly all winter. They are of the mammoth kind and are more like beautiful orchids than anything else. One azalea is just out of bloom and another is in full bloom at the present time. Any person who can make a success of growing these delicate and beautiful shrubs in an ordinary house is quite qualified to rank as a flower expert.

ATTENDING HER SISTER

Mrs. J. McKinnon left on Saturday afternoon to attend the sick bed of her sister, Mrs. John McRae, who is ill at her home in Toronto.

KILLED WHILE ALONE BY A FALLING STUB

YOUNG FARMER OF COLLINGWOOD TOWNSHIP FOUND DEAD BY SEARCHERS.

Joseph Eagle, a young farmer living on the 6th con. of Collingwood township, four miles north of Feversham, was killed by a falling stub on Monday. Nobody knows exactly how the accident happened, as the victim was alone at the time.

In the afternoon he went out to the bush to cut down a stub for wood. Failing to return home for supper, his wife became uneasy and informed neighbors. A search party went out and after a continuous search until three o'clock in the morning the young man was found pinned to the ground by the stub and with the life crushed out. The stub, when descending, in some way turned and fell on him with fatal results.

The deceased, who was about 30 years of age, leaves a wife and one daughter. He was well thought of in the community and hs tragic passing has cast a gloom over the whole district.

Lantern Views At Church

Rev. John Coburn, Secretary of Evangelism and Social Service, gave a lecture in the Methodist church on Thursday evening last, illustrated by a large number of lantern views embracing views of the Canadian Rockies, and charts showing ratio of convictions before and after the O.T.A. came in force, also pictures of Homes supported by Methodism for unfortunate and destitue girls. The lecture was interesting and was listened to by a fair sized congregation. Mr. Coburn is a pleasing speaker.

DROWNED AT HANOVER

Hanover, April 8—Losing his balance while trying to loosen a sluice plank at the dam of the Hanover Cement and Stone Company, William Hines was swept over the dam and carried away by the heavy spring freshet down the Saugeen River. His body has not yet been recovered. His widow and seven children survive. The workmen of the company and many citizens are searching for his body, but are hindered by the high and dirty water.

Why Ford Predominates

Do You Know That—

the Ford crankshaft is machined accurately to one thousandth part of an inch—

the Ford front axle is made to withstand shocks and strains ten times greater than are ever met in ordinary usage—

the Ford car is composed of four complete units: Power Plant—Front Running Gear—Rear Running Gear—Frame—

only five movements of hand and feet are required to accomplish the shift from neutral to high on a Ford car as against 15 on a selective gear shift car—

there is no possibility of failure to accomplish gear shift in the Ford car. There is no chance of clashing gears in the Ford transmission—

15,000 operations are performed in the building of each Ford chassis—

the entire building of a Ford closed body requires 38 hours and 15 minutes during which time the body passes through the hands of 249 skilled body-builders, trimmers and finishers.
