A MEAFORD MYSTERY

MOLTEN METAL FELL FROM THE SKY

A most remarkable occurrence took place at Meaford recently. which was brought to the attention of The Advance man on Saturday last by Mr. Fred Raper of that place. Mr. Raper lives close to the bay shore just at the east end of Raper Park, with the main street in front and a street along the shore at the rear.

On Sunday morning, May 4th, he went into his back yard at the rear of his house and discovered a hole in the ground some eight or ten inches in diameter, which he had never noticed before, in a flower border. This aroused his curioisity very much and he proceeded to investigate. Securing a spade he dug down fifteen or eighteen inches when he unearthed the object which has aroused so much interest., It is an irreguar mass of what is apparently pure melted lead or silver or a combination of both, and embedded in it are five stones, such as are found on the lake shore. The stones themselves give no evidence of extreme heat. excepting that some of them are cracked and one split in two, a broken half being clasped by the metal. The whole mass weighed ten pounds, and the biggest half of this is pure metal. Mr. Raper had heard no sound and was at a complete loss to account for his visitor. The hole had a slant of probably 40 or 50 degrees, Mr. Raper says, and appeared to have come from the West. If so it must have narrowly escaped the roof of his residence in order to land where it did.

Here is the theory of the mystery as we read it: On Thursday night before the people of Owen Sound were awakened by a loud explosion in the middle of the night and there was much speculation as to the cause, but it was finally decided that it must have been a bursting meteor.

"The explosiion, according to one who was just going to bed, was preceded by a noise like the sound of escaping steam. and the explosion itself was loud and heavy. A dull light lit the sky for a short time after the noise was heard. Many were awakened, and some even got up from bed to see if any serious damage had been done."

One does not require to stretch their imagination in order to understand how a bursting metallic meteor could throw off a ball of its melted metal which would light on the bay shore at Meaford. twenty miles away, bore a hole in the ground down to the gravel and clasp the stones in its embrace before it could cool. It is a genuine curiosity and Mr. Raper prizes it highly. Possibly, later on, other remnants of this remarkable meteor will be discovered.

"Hod's this," asked the lawyer. You've named six bankers in your will to be pallbearers. Of course it's all right, but wouldn't you rather choose some friends with whom you are on better terms?" "No, Judge, that's all right. Those fellows have carried me so long, they mght as well finish the job."

Farmers in the vicinity of Tara are complaining bitterly of the havoc being raised among their sheep by dogs. Reports received are to the effect that a number of sheep and lambs in Arran Township have been destroyed and worried to death. On Sunday night Calvin Welsh, a well known Arran township farmer, lost 30 lambs. He estimates his loss at between $300 and $400. Every endeavor is being made to locate the owners of the dogs, but so far without success. —Leader.

PRINCE ARTHUR LODGE VISITED BY D. D. G. M.

Rt. Wor. Bro. Blackwell Paid Official Visit On Friday Evening Last

LARGE NUMBER OUT

A large number of Masonic brethren were in attendance at Prince Arthur Lodge, No. 333, A. F. & A. M., on Friday evening last when Right Worshipful Bro. W. G. Blackwell, Dist. Deputy Grand Master for Grey District, paid his official visit to the Lodge. This visit was looked forward to with great anticipation by the brethren of the local Lodge, as Rt. Wor. Bro. was a resident of Dundalk at the time of his appointment to the high office and is well and favorably known here. He is at present residing at Dresden.

Following the completion of general business, as it was the regular meeting of the Lodge. the work of the First Degree was exemplified by Wor. Bro. A. Sinclair. Rt. Wor. Bro. Blackwell took occasion to compliment the officers on the efficient way the work was performed, declaring that very few Lodges were any more proficient.

After the business of the evening was disposed of. the gathering adjourned to Clayton's hall for the Fourth Degree. The tables were well laden with good things to eat and full jnstice was done them. Wor. Bro. Geo. Mitchell acted as toastmaster and proposed a toast to the King and Craft, being responded to by Wor. Bro. Batty and Bro. Duffield. The toast to the Grand Lodge in the Province of Ontario was responded to by Rt. Wor. Bro. Blackwell in a most inspiring and eloquent manner, making reference to the wonderful progress Masonry had made during the past few years in Ontario; to its benevolences, which are carried on in an effective but unostentatious manner. His address was one which will not soon be forgotten by those present. Visiting brethren from Owen Sound, Teeswater, Dundalk. Markdale and Durham responded to a toast to the visitors. Community singing was enjoyed between toasts and a bass solo was splendidly rendered by Mr. W. B. A. Cross, and another musical number was a guitar duet by Messrs. Wes. Armstrong and F. W. Bunt. A hearty vote of thanks was given to the ladies for the bountiful repast which was prepared and to the musicians for the delightful music rendered. The Junior Warden's toast brought to a close a very profitable and enjoyable evening.
