

Deaths.

LITTLE.—On Monday, Feb. 8th, the wife of Mr. George Little of a son, still-born.

Marriages.

FRIDMORE.—On Wednesday, Feb. 17th, at St. Paul's church, Lindsay, by the Rev. C. H. March, rector, William Addison Fridmore of Chicago, to Fannie, eldest daughter of Geo. A. Little, Esq., Lindsay.

SPENCER.—By the Rev. James Green, at his residence, Colborne street, Feb. 17th, Mr. Joseph Spencer to Miss Effie Barley, both of Lindsay.

BLACK.—At the Manor, Lindsay, by the Rev. Robert Johnston, B.A., on the 4th inst, Archibald Black of Whitby township, and Minnie, daughter of Joseph Avery of Sengou Island.

SPENCER.—On Wednesday, Feb. 17th, at the residence of Mr. J. A. Donald, Robert Spencer and Harriet, daughter of Thomas Demel, both of Fenton township.

Deaths.

KING.—At Lindsay, on Monday, Feb. 14th, 1892, Sarah, wife of George King, Sr., aged 66 years and 7 months.

A Cure for Constipation and Headache.—Dr. R. A. Lane, while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package.—12-ly.

The Baron's Will.

OR THE LAST OF LORD LINDSAY JAGG.

(Lined Discovers in a Reformer's Waspaper Basket.)

A U. R. peach in Canada grew, Listen to my tale of woe. And the sight of it raised a hullabaloo, Listen to my tale of woe.

For its outer form was fair to view, A pinkish tinge on its cheeks of blue, But about the pit it was bitter—when! Listen to my tale of woe.

The U. R. peach came into view, Listen to my tale of woe. Last March—and the annexation boys were blue, Listen to my tale of woe.

When this peach of politics came into view, The Patent Combination boys thought they knew Of political science a thing or two, Listen to my tale of woe.

But Victoria's stomach got all aaw, Listen to my tale of woe. When its party swallowed the terrible stew, Listen to my tale of woe.

The Lumberjacks were not a few, And the Cartwright cholera turned them blue, Listen to my tale of woe.

And all these facts afford a clue, Listen to my tale of woe. Why J. A. B. were a curious hue, Listen to my tale of woe.

"I've tripped myself up with the Cartwright crew, Annexation unrestricted set my countenance aaw, And my being at home will have something to do With the reformer's tale of woe."

JAS. PERKINS.

Political Points.

The anti-national blunder-line has battered and beaten on the field of political battle.

It is a difficult matter to find many grins who took a very active part in the late election.

The grins are grim and gloomy, Their twine has changed to white; The Tories are triumphant As they are most every time.

An Opa farmer who had four horses on the road said he had a notion to hitch a couple of cows up as well, but did not deem it necessary. It was not there were plenty of rigs out on both sides.

You can tell a Tory at a glance, By the smile upon his face; For the pacers that he wagers on Have won in the recent race.

It is said that the Hon. Edward Blake will re-enter public life, going to Parliament as an independent liberal, but not as a follower of Laurier. He will probably sit on the table in front of the speaker and pitch into both sides.

When Mr. Fairbairn left for home on Saturday he carried with him a pretty decorated broom, illustrative of the clean sweep made. It was presented by a daughter of Mr. Edward Veitch, the well-known hotel keeper.

Hurray for Hughes! Hurray for Hughes! For we met our foe in battle fair And put them clean to rout.

The cold weather of Friday last prevented the regular band from being brought out, but a tin one was speedily organized, about one hundred horns being distributed. Some of the tin ones were of a very different quality than those are always found of a horn.

The battle is over and the victory won, and at last victor and vanquished shake hands, forgetting the bitterness of the strife, and pursue the even tenor of their usual way in peace and harmony. Surely three contests in the South in about fifteen months, and two in the North ought to satisfy most people.

Those who laugh last laugh best and they who cheer last whoop it up at the right time. The grins invariably about before they are out of the woods, and are sick when they find themselves still lost in the wilderness about the time they expected to be in the clearing.

A conservative voter whom the grins were trying to capture became the voluntary prisoner of a Fairbairn fair one at a town hotel, and a lawyer with a search-warrant failed to find him. He escaped through a chimney in woman's wraps, or by the back way and voted as he wanted to.

Mr. Walters paid his respects to Mr. Fairbairn, M.P., on the night of election day after the demonstration was over. He congratulated the three-elected on his success, stating that he had won in a fair and square fight. This is creditable. The hatchet is buried. Mr. Barron has not yet called on Mr. Hughes.

Mr. Walters has been placed on the second shelf by the people of South Victoria to keep company with Mr. Lowmough and Mr. Newell, each having been twice defeated in their attempts to get into parliament. Who will be the next lamb to be offered upon the sacrificial altar of political ambition—George McHugh, Thomas Fee, Hugh O'Leary, Chris. Gull, Cody, or D. J. McIntyre?

There must have been some good solid voters behind those allied six hundred false affidavits in the north judging from the election. It is much more honorable to try and allow men to vote than to attempt to disfranchise them as they did in both ridings. Political wire-pullers who try to stop citizens like Joseph Hawkins of Ope, and Alex. Overy of Mariposa, from voting would behold half the electors in the county if they could.

The pupils of a town school were stuck as to the meaning of the word "rapture," on election day, when the teacher said: "Suppose this evening you should about, Hurray for Walters, that would be rapture expressed." The instructor, who happened to be greeted with surprise at the volley which he gave for the majority of the scholars shouted: "No, no, Hurray for Fairbairn!"

A couple of Mariposa Grits had several miles of a walk on the eve of election day. They had come to town to get loaded up for the occasion, when their horse and rig went home without them. As two bottles of liquid enthusiasm were found missing from the cutter, it is suspected that the horse loaded with some friend. The parties, however, do not enjoy the joke.

The condition of the supposed principal witness at the South Victoria trial on the first day, was a fair sample of the work of temperance reformers. That party was brought to town that morning by the intelligent young man who thinks Ottawa is in Quebec, who accused a conservative at the Patterson meeting of having sent a friend out to pull the bell-ropes, but the fire cornered the fairer.

The assertion made by Hugh O'Leary in the contest just closed that Mr. Walters was counted out in March when he should have been counted in is about as near the truth as the average grins adherer seems to be able to get. The statement is an insult to the returning officers on that occasion. Had the temperance reformers not loaded up doubtful voters so heavily with whiskey there would not have been quite so many spoiled ballots.

It is reported that an Omeenee grins was an anxious for the return of the blunder-line candidate that he voted in two polling divisions. The reporter should be presented and punished.

The census of Victoria did itself proud on Thursday, and the grins will not soon forget it. The census went wild in the evening.

The enthusiasm of the ladies over the grand victory in the North and South was scarcely secondary to that of the voters themselves. Laurier's basket, captured by Mr. A. D. Johnston, and reported to be loaded with U. R. ammunition and bound with blunder-line.

Mr. Walters is credited with having said that he had run Fairbairn in his sock feet last March and this time he would run him barefooted. But Charles seems to have had not only his boots, but overcoats as well.

Mr. John Dobson, the veteran President of the South Victoria Liberal Conservative Association, was so pleased with the result of the election that he smiled not only all over his face but half way down his back as well, at least so the elected said.

The last contemptible statement made by the managers of the wrecked party was that in reference to Squire McDunnell to the effect that he was supporting the liberal-conservative candidate because he had patronized an enterprise which the Government was endeavoring to adapt.

"What are the grins doing over there across the street, it's a funeral!" asked a lady of a friend, as she observed the vehicles in front of the Hamilton block Thursday afternoon.

"Well, not exactly, but the reason head a quarrel, but the funeral will probably take place this evening," was the quiet response. It took place, the procession beginning to move the moment the town returns were in.

Town Council.

MONDAY February 15th, 1892.

Present, the Mayor, reeve Kyle, deputy reeve Winters and Crandell; councillors Head, Fee, Lack, Robson, Connolly, Bryan, Mallon, Townshend and Finley.

The following communications were read. From J. C. Harstone secretary of the curling club, stating that a committee of the club had been appointed to give a fitting reception to those members of the club who had wanted to the international bonspiel at Winnipeg, asking for co-operation of the council.

During the evening a motion was passed appointing the members of the council a committee to act with the members appointed by the curling club, with power to expend not more than \$50. The Mayor stated it was not the intention of the committee to ask the council for any money as he believed the amount required would be raised by voluntary subscriptions.

From the Gard Brandon wooden ware manufacturing company, stating that Mr. Grover, a representative of the company would be in Lindsay on Monday evening to confer with the council as to future action in regard to the establishment of their manufactory here. Subsequently Mr. Grover addressed the council, making a statement of expenses, and a meeting of the manufactory committee be held at an early date to meet other members of the company, and consider the propriety of giving a by-law for the granting of a bonus.

From Dr. P. H. Bryce secretary of the Provincial board of health relative to the water works to be constructed. Fyld.

From H. H. Walker, secretary to the Governor General, stating that the address of condolence to Her Majesty, the Prince and Princess of Wales on the death of the Duke of Clarence and Avondale had been forwarded to Her Majesty. Fyld.

From W. Ekins, James Morrison and A. Delany, asking for the position of street cleaners. Referred to the street and bridge committee.

Report of committee on town property read, recommending the acceptance of F. Crandell's tender for wood it being the lowest. Report adopted.

Report of street and bridge committee recommending the acceptance of Mr. F. Crandell's tender for wood it being the lowest. Report adopted.

Report of fire and water committee read, recommending that a sub-committee consisting of the Mayor, the reeve, the chairman of the committee, Messrs. Winters, and Crandell, be appointed to locate where the hydrants will be placed under the new system of water works; that Obadiah Bigelow be appointed a director to represent the town on the water works company directors.

The present caretaker of the pump house be continued, and that the fire company be requested to call a meeting at an early date to elect a captain. A motion to amend the report by substituting the naming of a pump house caretaker instead of P. Forbair, the present caretaker of the pump house was carried. The report as amended was adopted.

A communication from M. O'Brien, Secretary of the St. Vincent de Paul Society was read giving a statement of expenses, and asking the council to consider the propriety of increasing the grant to the society. Communication referred to the finance committee.

Two motions, one that the petition of D. C. Trear and others, relative to the dog tax, for 1892, be referred to the finance committee; and one that the mayor be one of the committee appointed at the last meeting of the council, to ask the Ontario Government for a further grant for deepening the Sengou river, were passed.

A by-law was introduced to confirm the appointment of municipal officers, etc., for the year, which was read a second time in committee of the whole. Some of the appointments being left over for further consideration. In committee Mr. John Dobson was appointed director to represent the town on the board of directors of the Midland railway in room of Mr. Hugh O'Leary who was the former representative.

A motion granting \$125 to the Central Charity Committee with the usual provision, to the St. Vincent de Paul society was passed. Council adjourned to meet at the call of the Mayor.

At the meeting of the town council on Monday evening, Mr. Grover of the Gard Brandon Manufacturing Company was present and addressed the council. The indications are that a by-law to grant a bonus to this company will again be submitted to the ratepayers.

The grins majority in Mariposa, the banner township, came down to 195 last Thursday. How sore at heart the wire pullers must feel not so much for being defeated, but that they realize their position is gone. The people now judge for themselves politically, and vote as they think best.

Credit sale of farm stock and implements on Thursday, March 10th, on lot 5, concession 2, Verulam, the property of Mr. Alexander Kennedy. This sale will be without reserve and Mr. Kennedy is giving up farming. For particulars see posters. Geo. McHugh, auctioneer.

A Great Surprise.

Is in store for all who use Kemp's Balsam for the Throat and Lungs, the great guaranteed remedy. Would you believe that it is sold on its merits and that any druggist is authorized by the proprietor of this wonderful remedy to give you a sample bottle free? It never fails to cure chronic coughs. All druggists sell Kemp's Balsam. Large bottles 50 cents and \$1.—12-ly.

SCOTT'S EMULSION
OF PURE COD LIVER OIL WITH
