BORN

MELDRUM—At Gunton Man., on Tusday, May 13th, to Mr. and Mrs. W. Meldrum (nee Margaretta McAuley) the gift of a son.

The barbers of Orillia have been doing a flourishing business bobbing the fair tresses of the ladies. One hair dresser reports that into his shop came a mother and her son; the mother occupied one chair and the son the other. Later in the same day a husband and wife came in and both parted with some of their locks.

ROD AND GUN

The beauties and advantages of Ontario are stressed in the special Tourist June issue of Rod and Gun in Canada. In addition to a description of Ontario's tourists attractions and various points of beauty in the province, with suggestions for summer camps and trips, the stories in the magazine deal with fishing and camping in Algonquin Park, with timber surveying in northern Ontario and hunting and out-of-door stories in other parts of the province. Of special interest this month will be the story of the Le Pas Dog Derby, which has been written by M . U. Bates who was Rod and Gun in Canada's special representative at this picturesque event. The June number of Rod and Gun in Canada contains eighty-eight pages brimful of stories and articles dealing with practically every phase of sportsmen's interests.

Rod and Gun in Canada is published by W.J. Taylor Ltd., Woodstock, Ont.

"Don't you want to buy a bicycle to ride around your farm?" asked the hardware clerk as he wrapped up the nails. "They're cheap now. I can sell you a first-class one for $35." "I'd rather put $35 in a cow," replied the farmer. "But think," persisted the clerk "how foolish you'd look riding around on a cow." "Oh, I don't know,' replied the farmer, stroking his chin, "no more foolish, I guess, than I would milkin' a bicycle."

To Improve The Breed Of Local Horses

It will be noticed in our advertising columns next week that Mr. Robert Kinnell, of Proton, is handling an imported thoroughbred stallion during the present season. This is one of a number of such animals that have been bought by the Ontario Jockey Club and distributed to different parts of the Province for the purpose of raising a class of animals for which there is a growing demand. Although the automobile has, to a large extent displaced the light driving horse, still he is coming back into his own, and if good saddle horses can be raised by crossing the thoroughbred with ordinary cold-blooded mares they can be disposed of at a big price.

This horse, Old Koenig. is just the class of an animal for the purpose, as he has the best of breeding, was successful as a race horse, having won over $18,000 in prizes during the two or three years he was raced. The first of his foals, Cream Puff, has just commenced racing in the United States this spring as a two year old, has started three times and has won every race.

Old Koenig has been borrowed this spring by Mr. Seagram of Waterloo, the well known racing man, for service with some of his thoroughbred mares. This should be sufficient recommendation, as Seagram would have only the best.

There has been a great demand on the Jockey Club for these horses, and it was only through the efforts of Hon. Dr. Jamieson that it was possible to secure one of these horses for the benefit of the breeders in this county. The horse is given free, but a nominal fee of $10 is charged to cover expenses, and the number of mares will be limited.

Fred Irwin, manager of the Peel Alfalfa Association, reports that he has sold 4,500 bushels of seed this winter at a total price of $60,000, sending seed to 500 different places, and to experimental stations in Sweden, Holland, England, New Zealand.
