## Eugenia Correspondence

### COMMISSION WAS AT EUGENIA LAST WEEK

The Agricultural Commission of Ontario. comprising the Hon. Dr. Jamieson, our local member, as chairman, together with several members of Parliament and visitors, visited Eugenia preserve en route to Clarksburg, where they were scheduled to hold a meeting on Thursday, June 19, for the purpose of investigating farm conditions in general, with a view to assis the agricultural problems, of which, we know, the farmer has many, and endeavor, if possible, to alleviate through legislative channels.

They took this opportunity of visiting the contentious problem of these parts—the reserve. Several of the members, while not in a position as a commission to express their opinion individually, they saw the uselessness and antagonizing nature to the settlers of this district and assured us of their hearty co-operation with our local member to bring about the removal of restrictions we are at present laboring under.

The arrangements of looking after their requirements while in the village were ably looked afer by Mine Host Munshaw and Mr W. E. Morgan. The commission, as a whole, expressed their appreciation and were delighted with the scenic beauty and exhilarating air which can compare favorably with Muskoka or any other summer resort of Ontario, and could readily see the possibilities of the summer resort and the advantages to the county in general. They took advantage while at lunch to express to the Hon. Dr. Jamieson, through Mr. Keith the member for North York and seconded by Mr. Belanger M.P., for Prescott, their gratitude for the manner in which he has conducted the Commission and the courtesies shown them on their tour throughout western Ontario.
