

Ayer's Hair Vigor

Makes the hair soft and glossy.
"I have used Ayer's Hair Vigor for nearly five years, and my hair is moist, glossy, and in an excellent state of preservation. I am forty years old, and have ridden the plains for twenty-five years."
—Wm. Henry Ott, alias "Mustang Bill," Newcastle, Wyo.

Ayer's Hair Vigor

Prevents hair from falling out.
"A number of years ago, by recommendation of a friend, I began to use Ayer's Hair Vigor to stop the hair from falling out and prevent its turning gray. The first effects were most satisfactory. Occasional applications since have kept my hair thick and of a natural color."
—H. E. Basham, McKinney, Texas.

Ayer's Hair Vigor

Restores hair after fever.
"Over a year ago I had a severe fever, and when I recovered my hair began to fall out, and what little remained turned gray. I tried various remedies, but without success, till at last I began to use Ayer's Hair Vigor, and now my hair is growing rapidly and is restored to its original color."
—Mrs. A. Collins, Dighton, Mass.

Ayer's Hair Vigor

Prevents hair from turning gray.
"My hair was rapidly turning gray and falling out; one bottle of Ayer's Hair Vigor has remedied the trouble, and my hair is now its original color and shines."
—B. Onkrup, Cleveland, O.
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by Druggists and Perfumers.

GILLETTS

PURE
POWDERED
LYE

PUREST, STRONGEST, BEST.
Ready for use in any quantity, 1 lb. or making Soap, Emulsion, Water, Disinfectant, and a hundred other uses.
A can equals 32 pounds of Soda.
Sold by All Grocers and Druggists.
L. W. GILLETTE, Toronto.

They Say They are Loyal.

To The Editor of the Warder.

Last winter and the winter before last, if you said the grays were not loyal they would pretend to get mad and swear that they had no idea of advocating annexation to the States, but now they are coming out in their true colors and you scarcely see a gray paper that has not some Yankee sentiment in its pages. If they would confine themselves to the truth there would not be so much reason to complain; but then that would be a poor way of accomplishing their object which seems to be to cure those of the party who are loyal to Canada and British institutions of their infatuation as it is regarded by those who consider themselves leaders of the party. In the Fenelon Falls Gazette of the 6th inst., is an article headed "Thirteen plain facts," and the only facts in the whole article is that it is plain that the grays have undertaken to foster sentiments of disloyalty to Britain, and to (if possible) create a feeling in favor of annexation among its followers.

In the first place it says: "When the Canadian barley growers have to pay \$30 to get every hundred bushels to the American market. The old law just costs the barley growers \$30" (Oversure the sneer at the old law). If the Canadian barley grower will find out for himself, as most of them are capable of doing, just what the Yankee barley grower gets for his barley he will come to the conclusion that ever if the duty on barley were removed someone else, and not him, would pocket the thirty dollars, and so with every other article mentioned in the thirteen other paragraphs, every one of which contains a sneer at the loyalty of the grays, which is by the true son of the United States as much prized as by any people under the sun.

What a miserable, contemptible set of traitors they must consider those Canadian grays. No wonder one of them said not long ago, "We want Canada, but we don't want the people of Canada. A poor, miserable, artless set that would sell their country for a few dollars." But, really, what an idea these people must have of the intelligence of their readers. Take for instance paragraph 8 in the "thirteen reasons." "Unless the Canadian farmer buys his agricultural implements from the Red River colonists at fully 25 per cent. more than the same quality of machine is sold to the American farmer." "Ye gods and little fishes," there are no combines in the States. Now let us reason together. What agricultural machinery is it that is sold to the American farmer 25 per cent. cheaper than the Canadian farmer can buy them? How is it that there are so many more very rich and very poor in the States than in Canada? How is it that the Yankee manufacturers accumulate wealth so much faster than does the Canadian? Why do the Yankee farmers have to pay about double as much for threshing the grain than the Canadian farmer? What sent the farmers in train loads from Dakota into Manitoba having the cars decorated with flags, displaying the motto "Forward to the land of blizzards, grasshoppers, high taxes and monopolies." If Canadians would get Yankee papers, not story papers from the large cities, but local papers, giving the local markets and read and compare, the Canadian grays would soon find their reason gone. But, really, how they try to change their true to suit the times. During Mr. McKenzie's time when they were in office the farmers and working classes passed through a worse time than now.

Low as are the prices of farm produce now the purchasing power of a bushel of grain is far greater now than then. Cloth that you can buy for 55 cents per yard now was \$1.10; flannel that is now from 15 to 30 cts. was 70 to 75 cts; sugar 15 cts. per lb. and so on in everything the laboring classes had to buy except wheat the farmer produced that with the exception of wheat was as cheap, and in some cases cheaper than now. If the farmers or the laborers complained of low wages, (an able bodied man if he could get work at all would get from \$10 to \$15 per month) they were consoled with the cheering intelligence that Mr. McKenzie was determined to make this "a cheap country to live in." Now they seem to have gone out of the cheap country to live in business and are devoting all their little energy to convince their poor, ignorant fellow-beings that loyalty is a foolish sentiment; and that sentiment, honor, respect, patriotism, or any other thing that has not a cash value is not worth cherishing.

ANGLO-Canadians.

Latest News Notes.

West Durham liberal-conservative association met in Blackstock, Cartwright, on Friday January 6th. There was a large attendance from Clarke, Cartwright, Bowmanville, Newcastle and Cartwright. Mayor Loombe of Bowmanville moved the following resolution: "That we, the conservatives of the west riding of Durham, while deploring the circumstances that led to the resignation of our late Premier, Sir John Abbott, and hoping that he may yet be so fully restored to his usual health as to again become one of the advisers of our beloved Queen, are pleased to find that so able and worthy a follower of our late lamented chief, Sir John A. Macdonald, as Sir John Thompson, has been selected to be Premier of the Dominion. We offer to Sir John Thompson our warmest congratulations on his accession to office, and feel that not only we, but the conservatives of the Dominion as a body, have every confidence that he will faithfully discharge the duties of his high position with such zeal and ability as will not only reflect credit on himself, but also merit the approval of the conservatives at large."

The above resolution was carried unanimously by a standing vote. The election of officers resulted as follows:—President, James Parr, Blackstock; Vice-President, S. J. Williams, Solinas; Secretary, F. H. Mason, Hampton; Treasurer, J. Doney, Bowmanville. The retiring officers were tendered hearty votes of thanks. The next annual meeting of the association will be in Orono in January 1894. A convention will be held in Bowmanville on March 14th inst., to select a candidate for the Local Association.

"No Grand Cause Was Ever Lost Except by the Fanaticism of its Own Friends."

The following resolutions were passed unanimously by L.O.L. 563, Leamington, with a request that they be published:—

Moved by Bro. Walter Herman, seconded by Bro. George Tighe, and unanimously resolved,

1. That this lodge views with strong disapprobation the assistance by our Grand Master, N. C. Wallace, of a subordinate position where he has neither vote nor voice in the Dominion Cabinet, under Sir John Thompson, a roman catholic, and the champion of the Jesuits in Canada.

2. That such a position is a degradation and unworthy of the talents, ability and position of our Grand Master, and the dignity he should maintain, and afford an opportunity to our enemies to scoff at our servile condition in the body politic.

3. That we regard the sending of our Past Grand Master, Mackenzie Bowell, to the Senate as a shift to get him out of the way of Quebec bigotry, his refuge from responsibility at the polls at future elections, and his showing the white feather on the field of battle.

4. We ask our brethren throughout the Dominion to no longer support any man or any Government that may be called by a mere party name, but only such men and such Governments as are decidedly out-spoken Protestant and British in their politics and policy.

5. That we view with alarm section seven of the Criminal Law bill, 1892, of Sir John Thompson, which is all waiting its third reading, next Parliament, having passed two readings unchallenged, and which will legalize the Jesuits in Canada, and allow appeals and references to the Pope of Rome, contrary to the laws of England.

6. That we deplore that false, cowardly, and sickly sentimentalism that betrays our country into the hands of Canadians and British institutions of their infatuation as it is regarded by those who consider themselves leaders of the party. In the Fenelon Falls Gazette of the 6th inst., is an article headed "Thirteen plain facts," and the only facts in the whole article is that it is plain that the grays have undertaken to foster sentiments of disloyalty to Britain, and to (if possible) create a feeling in favor of annexation among its followers.

In the first place it says: "When the Canadian barley growers have to pay \$30 to get every hundred bushels to the American market. The old law just costs the barley growers \$30" (Oversure the sneer at the old law). If the Canadian barley grower will find out for himself, as most of them are capable of doing, just what the Yankee barley grower gets for his barley he will come to the conclusion that ever if the duty on barley were removed someone else, and not him, would pocket the thirty dollars, and so with every other article mentioned in the thirteen other paragraphs, every one of which contains a sneer at the loyalty of the grays, which is by the true son of the United States as much prized as by any people under the sun.

What a miserable, contemptible set of traitors they must consider those Canadian grays. No wonder one of them said not long ago, "We want Canada, but we don't want the people of Canada. A poor, miserable, artless set that would sell their country for a few dollars." But, really, what an idea these people must have of the intelligence of their readers. Take for instance paragraph 8 in the "thirteen reasons." "Unless the Canadian farmer buys his agricultural implements from the Red River colonists at fully 25 per cent. more than the same quality of machine is sold to the American farmer." "Ye gods and little fishes," there are no combines in the States. Now let us reason together. What agricultural machinery is it that is sold to the American farmer 25 per cent. cheaper than the Canadian farmer can buy them? How is it that there are so many more very rich and very poor in the States than in Canada? How is it that the Yankee manufacturers accumulate wealth so much faster than does the Canadian? Why do the Yankee farmers have to pay about double as much for threshing the grain than the Canadian farmer? What sent the farmers in train loads from Dakota into Manitoba having the cars decorated with flags, displaying the motto "Forward to the land of blizzards, grasshoppers, high taxes and monopolies." If Canadians would get Yankee papers, not story papers from the large cities, but local papers, giving the local markets and read and compare, the Canadian grays would soon find their reason gone. But, really, how they try to change their true to suit the times. During Mr. McKenzie's time when they were in office the farmers and working classes passed through a worse time than now.

CALDER P. SIMPSON, Secretary.
JOHN F. BELL, W.M.
Leamington, Jan. 2.

[There are a few selections from "God's Book" which have evidently escaped the notice of the brethren or rather the brother of 563. Cromwell's cause lost, the principles of William III were Americanized, the liberties gained by the American War of Independence for Freedom were threatened, and the glorious triumph of the constitutional principles fought for and at first won by the French revolutionists one hundred years ago were lost simply by the bigotry, intolerance, tyranny, and ignorance, not of enemies, but of friends. What the loyal orange association has to guard against is danger from those of its friends who holding narrow, persecuting, oppressive views in seeking to coerce or oblige others either to come down to their plane, or to be driven from the association. We commend the brethren in 563, or really one brother only, for his old familiar hand is traced in every line of the above resolution, to pursue that grand old Book referred to in section 7. There he finds Christian Charity, and love for his fellow man; and will find that he is not an off hand manner, especially when he does not possess any other other than the disordered fancies of an erratic mind. Then let him examine his conscience, and he will find that in nearly every section of his motion he violates his declaration as an orangeman. Next, he might profitably peruse the constitution of Canada where he would find further information, and finally he should study the great principles of human life and action, and reflect how long any nation could exist held together

by tyrannical ideas such as his. For is not tyranny in a protestant layman infinitely worse than tyranny in a roman catholic priest? Great! All the men of every religious persuasion as brothers, but guard with ever vigilant eyes the sacredness of the part of romanism or the pretended garb of protestantism and orangemen. Stand fast to principles, and be freemen. The brethren at 563 have not done so.—ED. WARDER.]

Something to Remember.

If you're a weak or ailing woman—that there's only one medicine so sure to help you that it can be guaranteed. It's Dr. Pierce's Favorite Prescription. In building up overworked, feeble, delicate women, or in any "female complaint" or weakness, if it ever fails to benefit or cure, you have your money back. It's an invigorating, restorative tonic, a soothing and strengthening medicine, and safe and certain remedy for women's ills and ailments. It regulates and promotes all the proper functions, improves digestion, enriches the blood, dispels aches and pains, brings the system into a healthy and normal condition. Nothing else can be as cheap. With this, you pay only for the good you get.

Leading Methodists Endorse Sir John Thompson.

St. John, N.B., January 9.—The fiftieth anniversary of the founding of the educational institutions of Mount Allison was commemorated by special services in the various churches of the city yesterday, and a grand jubilee meeting in the evening at the Mount Allison University. Dr. Allison, president of Mount Allison University, and Judge Tuck, of the Provincial Supreme Court, were the principal speakers. Judge Tuck, in the course of his address, referred to Sir John Thompson as a noteworthy product of our educational institution and remarked that an institution producing such a man was worthy of our respect. It mattered not to what church the Premier belonged, he was a man respected everywhere.

Dr. Allison, later on referring to Judge Tuck's eulogy of the Premier, said all this might be true, but in his opinion if Sir John Thompson had been instructed in theology at Mount Allison by Dr. Stewart and had married a good methodist girl he would never have gone over to the roman catholic church. He further said that methodists did not object to roman catholics whose first loyalty was to the Empire and not to foreign popes or potentates, and expressed the opinion that universities should produce men of such caliber as Sir John Thompson. He said that universities should produce men of such caliber as Sir John Thompson. He said that universities should produce men of such caliber as Sir John Thompson.

Dr. Allison, later on referring to Judge Tuck's eulogy of the Premier, said all this might be true, but in his opinion if Sir John Thompson had been instructed in theology at Mount Allison by Dr. Stewart and had married a good methodist girl he would never have gone over to the roman catholic church. He further said that methodists did not object to roman catholics whose first loyalty was to the Empire and not to foreign popes or potentates, and expressed the opinion that universities should produce men of such caliber as Sir John Thompson. Barley.

Barley as a regular grain crop is but little known in the South. It is, however, one of the standards in various parts of the world, in the old world especially. All over the Pacific coast of North America the place of an Indian corn as an element of food for horses and other live stock on the farm or ranch. The California crop of barley is immense, there being as a rule, no corn cultivated in that State except on a small scale in a few localities, and then the product is confined almost exclusively to the feeding of horses. Not one horse in a thousand in California knows what corn is.

It is a little remarkable that our Southern people have so long neglected this valuable grain. It is more valuable as a horse food than corn, as it is far more easily cultivated. There is also more economy in growing barley. With the majority of our Southern farmers corn is one of the most troublesome and expensive crops to cultivate. It requires long and arduous harvesting stretching from February to November.

With the same expense of cultivation and labor generally put into a barley crop, the barley will be worth largely more to the Southern farmer than the corn crop gives on our average land, while the process of cultivation and harvesting is but a few days less in the fall and winter.

One of the great advantages barley has over corn is that it enables the farmer to dispose of the employment and feeding of his hands through the long months of summer. Another advantage lies in the fact that one of the most valuable features of the barley crop comes in the rich pasture, or soiling, which the plant affords in the winter time when corn food is scarce and important. Experiments made in Georgia in the cultivation of barley show that it cannot be grown with great success as a grain crop here, but that those experiments have demonstrated clearly also that it is one of our most valuable plants for soiling purposes. The season of the year is now approaching for sowing barley. We would advise our planters who have not heretofore had experience in growing the grain to plant a few acres as an experimental crop. The ground should be well prepared, well fertilized and plowed deeply; and then the grain sowed very thickly and harrowed in, leaving the land so that a scythe or mowing machine can easily run over it.—M. V. M., in Houston Post.

Truly Recommended.

GENTLEMEN, I can truly recommend Hays' Favorite Balm for all coughs and colds. Less than one bottle cured my brother of a severe cold. Miss MARGIE THOMPSON, Vaux, Ont.,—70 2.

We Should Live One Hundred Years.

We are century animals and have a perfect right to live out that period if we can. Many of us, however, are being killed off by the disease of "consumption" through the centuries, but it is all avoidable. Why? Because "Miller's Emulsion of Cod Liver Oil," which contains pure cod liver oil, and the lungs and weak tissues which give rise to it, will be like a tonic to the system. It is within reach. In the bottles, 50c. and \$1.00 at all Drug Stores.—70 1.

Variable appetite and itching at the nose are signs of worms. Dr. Low's Worm Syrup is the best cure.—68 4.

Speedy Relief for Croup.

GENTLEMEN, I have a little boy of 5, whose greatest trouble is the croup, and I had that Hays' Yellow Oil gives speedy relief, therefore I take pleasure in recommending it to the public. MRS. L. H. BALDWIN, Oakland, Ont.—70 2.

Rebecca Wilkinson, of Brownsville, Ind., says: "I had been in a distressed condition for years. I was Nervous, Weak, and the Stomach, Dyspepsia and Indigestion until my health was gone. I had been doctoring constantly with no relief. I bought one bottle of South American Mercurine, which did me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy. A trial bottle will convince you. Warranted by E. Gregory, druggist.—48 17.

Wild cherry and hypophosphates are combined with Cod Liver Oil in Milburn's Emulsion, the best Lung remedy.—68 4.

Perfect Satisfaction.

GENTLEMEN, I have found B.B.B. an excellent remedy, both as a blood purifier and general family medicine. I was for a long time troubled with sick headache and heartburn, and tried a bottle, which gave me such perfect satisfaction that I have since then used it as our family medicine. E. BAILEY, North Bay, Ont.—70 2.
