Agricultural Development Work

It may be interesting to the farmers of Grey county to know that last week five farmers applied for assistance from the Agricultural Development Board for loans to pay up mortgages which were due, or to change them.

To those who do not understand the system the following may be valuable information. and more can be had by writing to the Department of Agriculture at Markdale.

1.—That a loan of 50 per cent of the value of the land will be given to pay off a mortgage subject to a maximum of $12,000.

2.—That re-payment is made on the amortization plan, which simply means for every $1000 borrowed, $87.18 is paid per year, which will repay the money with interest in 20 years.

3.—The interest rate is 6 per cent.

4.—Although 20 years is allowed to pay the debt it may be settled on any interest date at any time.

This is the barest outline but it may serve to interest some Grey county farmers. If it does full information can be secured by writing to the Department of Agriculture at Markdale.

Enquiry For Sweet Clover

The following is an extract of a letter recently received from an American seed firm by the Department of Agriculture Markdale. 'We have been more or less importers of sweet clover buying same from samples, but we are thinking very much of going direct into the seed-growing sections this season for the purpose of buying seed, therefore, we would appreciate any information you may give us regarding this territory as well as any other territory which you may have knowledge of producing alsike and sweet clover."

The Department of Agriculture, Markdale, immediately replied boosting Grey County sweet clover, and incidentally Grey County alfalfa seed, with an offer to drive their seed inspector on a tour of the county to visit farmers. They immediately replied as follows: "Wish to acknowledge receipt of yours of July 25th, and thank you very much for the information contained. When the sweet clover is threshed and there is sufficient in your vicinity to justify our making a trip there, we will undoubtedly have someone come up and will surely appreciate your co-operation which you have so freely offered."

"We would like some information regarding your Ontario Variegated alfalfa. We have sold some variegated alfalfa the past season which was recommended to us as being the same as Grimms. We do not know if this is absolutely correct or not. If you have any nformation on this subject regarding the variegated alfalfa that is raised in your district we would appreciate hearing from you. Thanking you for your offer to help us and if you will advise us when there is su....cient sweet clover ready for sale we will have someone go and see."

Grey County farmers have an opportunity to organize a large Clover Grower's Association and establish a connection with a wealthy seed firm who are anxious for business and good Canadian seed. Who will write asking for more information? Who wants help to sell their seed? Who has a vision to foresee a wonderful opportunity? To all interested the Department of Agriculture, Markdale, stands ready to assist. Will you co-operate with us to get a good maket for your choicest seed?
