FORTY APPLES ON STEM 9½ INCHES IN LENGTH

Dr. J. P. Ottewell of town brought into The Advance office the other day an apple tree branch that had an abundance of fruit growing thereon. The branch was 9½ inches in length and had 40 fairly large apples on the stem in a circumference of sixteen inches. The branch was picked on the Doctor's farm north of town from a natural fruit apple tree.

Official Announcement Of Coming Plebiscite

The official announcement with regard to the coming vote on the O.T.A. was given out on Friday evening last and is as follows:

"The first consideration of a Government in its legislation and the administration thereof must always be the moral and material progress and we are of the people it serves. The greatest farce in the securing of law observance and the suppression of crime and elimination of distress is public opinion. The purpose of the plebiscite is to secure from the people such an expression of opinion os will enable the government to adopt such measures as will have behind them the fullest pos sible public approval and support.

"The Ontario Temperance Act as amended and strengthened from time to time during the past eight years is now the governing principle in the handling of our liquor problem. It is obvious, therefore, that the first enquiry must be directed to ascertaining if the people desire to continue the principle of this law. One of the questions will therefore be: 'Are you in favor of the continuance of the Ontario Temperance Act?' If the majority answer in the affirmative there can be no doubt as to the course to be followed.

"If on the other hand the majority answer in the negative, it means that some new method of controlling the sale as a beverage of beer and spirituous liquor must be adopted. The Government therefore seeks a further expression of opinion by asking a second question: "Are you in favor of the sale as a beverage of beer and spirituous liquor in sealed packages under Government control?'

"Government control' in the view of the Government does not mean a system of sale such as in operation in Quebec and British Columbia. It means that the Government will make all sales and that the people pressed by their vote at the polls of purchasing beer and liquor under strict regulations."

W. I. TO HOLD SALE OF WORK DONE BY BLIND SOLDIERS

The Flesherton Women's Institute will hold a sale in the near future of wicker work manufactured by the blind soldiers. There are some very fine pieces among the articles, all made by the blind soldiers and are a credit to the skill of these men. It is likely that the sale will be held in the McDonald block.

HORSES KICK PROVED FATAL

Lloyd, the two-year-old son of Mr. Fred Clayton of East Garafraxa, died in Fergus hospital on Tuesday evening, from a kick by a horse on the head the previous Sunday afternoon. It seems that the little chap was in the lane for just a moment when a couple of horses came along. They possibly took fright at the child and kicked out. The little chap's head was badly injured and from the first but faint hopes were held out for his ercovery. Needless to say the young parents are grief-stricken over the tragedy and have the heart-felt sympathy of a wide circle of acquaintances in their sorrow.—Ex.
