Planned Saving

paid off for the Browns

The neighbors remember how sick young Donny was a few months ago, and how worried the Browns were. But they never guessed what a serious drain his illness had been on the family purse.

Wisely, the Browns had made it a rule to put something into their savings account, week by week, almost from the day they were married. So when they consulted their bank manager, their credit was good. With the help of a small bank loan, they were able to pay all their bills promptly. Now Donny is healthy again—and so is their bank account.
